PROCEEDINGS

CHAIRPERSON FECKNER: Good morning, everybody.  
We'd like to call the Pension and Health Benefits  
Committee meeting to order. The first order of business  
will be to call the roll

COMMITTEE SECRETARY: Rob Feckner?

CHAIRPERSON FECKNER: Good morning.

COMMITTEE SECRETARY: Ramon Rubalcava?

VICE CHAIRPERSON RUBALCAVA: Present.

COMMITTEE SECRETARY: Lisa Middleton?

COMMITTEE MEMBER MIDDLETON: Present.

COMMITTEE SECRETARY: David Miller?

COMMITTEE MEMBER MILLER: Here.

COMMITTEE SECRETARY: Eraina Ortega?

COMMITTEE MEMBER ORTEGA: Here.

COMMITTEE SECRETARY: Jose Luis Pacheco?

COMMITTEE MEMBER PACHECO: Present.

COMMITTEE SECRETARY: Theresa Taylor?

COMMITTEE MEMBER TAYLOR: Here.

COMMITTEE SECRETARY: Mullissa Willette?

COMMITTEE MEMBER WILLETTE: Here.

COMMITTEE SECRETARY: Karen Greene Ross for Betty  
Yee.

ACTING COMMITTEE MEMBER GREENE ROSS: Here.

CHAIRPERSON FECKNER: Thank you. We're now going

1 to recess into closed session for items 1 to 4 of the  
2 closed session agenda. Immediately upon adjournment of  
3 the closed session, we will be going into open session. I  
4 would assume it will be around an hour, so don't run too  
5 far away in the hour time period. It could go a little  
6 longer depending on questions, but we hope to back  
7 somewhere around 10 o'clock.

8 So at this time, we are going to recess the open  
9 session and go into close. If we could please clear the  
10 room.

11 (Off record: 9:01 a.m.)

12 (Thereupon the meeting recessed  
13 into closed session.)

14 (Thereupon the meeting reconvened  
15 Open session.)

16 (On record: 10:37 a.m.)

17 CHAIRPERSON FECKNER: All right. We'd like to  
18 convene the open session of the Pension and Health  
19 Committee. Thanks for coming back and taking the time to  
20 wait for us outside. We were able to ask a lot of  
21 questions, which should help streamline today.

22 We start with our number two, Executive Report,  
23 Mr. Suine.

24 DEPUTY EXECUTIVE OFFICER SUINE: Good morning,  
25 Mr. Chair, members of the Committee. I'm Anthony Suine,

1 CalPERS steam member, and again grateful for the  
2 opportunity to be in front of you today.

3 Today, our team will be presenting on a couple of  
4 agenda items, an action item on defining limited duration  
5 and regulation -- in regulations, and also an information  
6 item providing you an overview of the internal revenue  
7 code 415(b).

8 So I'll keep my update short. I just want to  
9 touch on our Contact Center performance during open  
10 enrollment and a few remarks on our team's involvement at  
11 the Ed Forum earlier this month. But first, I'd like to  
12 thank Controller Yee through Ms. Greene Ross for her  
13 service on our Committee, and the support she's provided  
14 our team over the years. And I got -- glad I got a chance  
15 to work with her and her reps over the years, so I wish  
16 her well in her future endeavors.

17 And to you, Mr. Feckner, your tenure on the Board  
18 has spanned nearly my entire career here at CalPERS. I  
19 thank you for all you've done for me to help me along my  
20 career, the recognition you've provided our team over the  
21 years, and the advocacy for our members and their right to  
22 the very best service, which I hope we've been able to  
23 deliver on a majority of the time. You always fought for  
24 the rights of the member, but also understood and helped  
25 communicate our need to uphold the laws when the outcomes

1 were not exactly what was expected and appreciate that  
2 balance you provided. Thank you for all the fun and  
3 energy you brought to the organization and all the great  
4 times we enjoyed together. I appreciate your friendship  
5 and look forward to starting our bocce ball consulting  
6 business when I enter retirement.

7 (Laughter).

8 DEPUTY EXECUTIVE OFFICER SUINE: Congratulations,  
9 Rob. Thank you.

10 CHAIRPERSON FECKNER: Excellent and thank you  
11 very much and you earned it. Thank you.

12 (Applause).

13 DEPUTY EXECUTIVE OFFICER SUINE: So on to  
14 business during our recent open enrollment period, the  
15 Contact Center repeated their excellent performance from  
16 last year. We received over 113,000 calls during the  
17 period, which was one percent more than 2021. We still  
18 managed an average wait time of under eight minutes during  
19 that time frame, which was on par with last year and we  
20 received thousands of customer satisfaction surveys from  
21 that period of time. And our agents received over a 93  
22 percent satisfaction rating, which was also on par with  
23 last year.

24 While this is always a stressful time for our  
25 agents, trainers, and support teams, getting to the end

1 and being successful makes it all worth it. So I wanted  
2 to express my sincere appreciation to the team for all  
3 their hard work during the time.

4 I also wanted to take a moment to acknowledge our  
5 CSS presenters and exhibitors, who represented CalPERS at  
6 our educational forum earlier this month. Our team  
7 members presented at most of the highest attended sessions  
8 and exhibits and they all did a great job. And meeting  
9 face-to-face with our employers is great for building our  
10 relationships and collaborating on solutions. We had a  
11 few issues that cropped up at the time of the forum and  
12 were able to resolve them quickly in real-time without  
13 multiple back and forth, so we really value that time with  
14 the employers face-to-face.

15 That concludes my report and I'm happy to take  
16 any questions.

17 CHAIRPERSON FECKNER: Well, thank you, Mr. Suine.  
18 I do want to comment on the Ed Forum. Again, it was a  
19 wonderful experience. I wish that more of our -- the  
20 attendees would have talked to our folks at the little  
21 kiosks in the vendor area. They seemed to be a little  
22 forlorned in there every now and then, but it was overall  
23 a great presentation again. And I want to give a  
24 shout-out to you and your team and everybody that was  
25 involved. It was great work. I want to tell Mr.

1 Teykaerts, he did a great job at quote/unquote hosting the  
2 event. Everything seemed to run very smoothly from our  
3 point of view. I'm sure it was like ducks under the water  
4 at some point for you folks, but for us it was very  
5 smooth, so thank you.

6 Mr. Moulds.

7 CHIEF HEALTH DIRECTOR MOULDS: Great.

8 CHAIRPERSON FECKNER: Microphone.

9 CHIEF HEALTH DIRECTOR MOULDS: Just like clock  
10 work. Good morning.

11 (Laughter)

12 CHIEF HEALTH DIRECTOR MOULDS: Mr. Chair  
13 committee members, Don Moulds, Chief Health Director. So  
14 I also want to take a moment of personal privilege, if  
15 that's okay, to thank Controller Yee and to thank Ms.  
16 Greene Ross both for their support of me, of my team, and  
17 all of the things that we're trying to accomplish in the  
18 health, program and also for never sparing us a hard  
19 question.

20 (Laughter).

21 CHIEF HEALTH DIRECTOR MOULDS: They make us  
22 better and we appreciate them, and we know where they're  
23 coming from, so it was -- it's been wonderful working with  
24 you for the last three plus years.

25 And I also want to take a moment on behalf of the

1 entire team to thank you, Mr. Feckner, for your years of  
2 dedication and service to our one and a half million  
3 members. As Chair of this Committee, you've provided our  
4 team with exceptional leadership, and particularly with  
5 exceptional support, and advocated and made our program  
6 better for all of our members, which as you constantly  
7 remind us, is what it's all about.

8           It's been a pleasure and a privilege to work with  
9 you. We mean that from our hearts. And so we say thank  
10 you and we wish you the best in your retirement and we  
11 hope that you do not be as -- please don't be a stranger.

12           We're --

13           CHAIRPERSON FECKNER: Well, thank you. It's been  
14 a pleasure and an honor to work with all of you, so thank  
15 you.

16           CHIEF HEALTH DIRECTOR MOULDS: I do have a couple  
17 of updates before we dive into the agenda. First, I'm  
18 pleased to report that we now have over 150,000 health  
19 demographic profiles completed by our members. That's a  
20 nearly hundred thousand member improvement since  
21 September, so much higher than we would have anticipated.  
22 We want to thank the Committee for its support and  
23 promotion of the profile to its constituents and we thank  
24 our members who have completed their profiles so far.

25           For members, I'll add that it's still not too

1 late to complete it between now and December of 3rd.  
2 You're still entitled to receive a \$10 Target gift card  
3 from your plan, if you complete it. You can complete it  
4 in your myCalPERS account or through the link available on  
5 our website.

6 Next, I'm happy to share that we once again  
7 completed a successful open enrollment period. This  
8 year's plan choices included several service area  
9 expansions and benefit design changes you approved. And  
10 this year we added new technology to allow active  
11 employees with their employers consent to make most health  
12 care enrollment changes online in their myCalPERS account.

13 The -- for 2023 plan year, we saw a 219 percent  
14 increase in open enrollment transactions through  
15 myCalPERS. I want to thank our Health Account Management  
16 Division, the Office of Public Affairs, IT, and our  
17 partners sitting to our right in customer service and  
18 support. Our collaboration once again provided great  
19 service to our members. It was a very smooth open  
20 enrollment process this year, guiding them during this  
21 very important time.

22 Finally, two quick items, I want to draw your  
23 attention to Item 4c on your agenda today. This is our  
24 health benefits annual report for the 2021 plan year. We  
25 hope you find it informative and a good resource.

1 I'd like to thank our team and the CalPERS team  
2 members across the enterprise who contributed to the  
3 development and delivery of the report.

4 And lastly, I want to let the Committee and our  
5 members know that our 2023 health plan member survey and  
6 the supplemental health care experience survey will kick  
7 off in January. These annual surveys ask members to tell  
8 us about their care and rate their experience with their  
9 plan and their pharmacy benefits during the 2022 plan  
10 year.

11 We also use the survey results to measure  
12 outcomes and trends, members' care experiences, and their  
13 access to care. We would also ask members who receive a  
14 survey to respond. It goes a long way to help us make the  
15 health program better for all of our members.

16 And that's it. I'm happy to answer any  
17 questions.

18 CHAIRPERSON FECKNER: Thank you. Ms. Taylor.

19 COMMITTEE MEMBER TAYLOR: Yes. Thank you, Mr.  
20 Chair. Thank you, Don. I really appreciate your update,  
21 but what I wanted to comment on was open enrollment. I  
22 thought it was amazing. I haven't had to change for a  
23 long time. So, of course, I'm remembering having to fill  
24 out at your employer, the actual physical form and then  
25 turn it in and hope that you guys get it, and I was able

1 to just go online. So I just want to say what a great  
2 experience that was and thank you guys very much for  
3 making it electronic for us.

4 CHIEF HEALTH DIRECTOR MOULDS: Well, thank you  
5 for -- thank you for that and thank you for doing it that  
6 way also.

7 (Laughter).

8 COMMITTEE MEMBER TAYLOR: Way easier.

9 CHIEF HEALTH DIRECTOR MOULDS: Yeah.

10 CHAIRPERSON FECKNER: Very good. Thank you.  
11 Brings us to Agenda Item 3, action consent items. It's  
12 the approval of September 21 minutes and today's timed  
13 agenda. What's the pleasure of the Committee?

14 COMMITTEE MEMBER PACHECO: So moved.

15 CHAIRPERSON FECKNER: Moved ny Mr. Pacheco.

16 COMMITTEE MEMBER MIDDLETON: Second.

17 CHAIRPERSON FECKNER: Second by Ms. Middleton.  
18 Any discussion on the motion?

19 Seeing none.

20 All in favor say aye.

21 (Ayes.)

22 CHAIRPERSON FECKNER: Opposed, no?

23 Motion carries.

24 Item 4, information consent items. Having no  
25 requests to withdraw anything, we move on to Agenda Item

1 5, the action agenda.

2 5a is the proposed regulation for the definition  
3 of limited duration employment. Ms. Ostrander, Mr. Suine.

4 (Thereupon a slide presentation).

5 DEPUTY EXECUTIVE OFFICER SUINE: Thank you, Mr.  
6 Chair, members of the Committee. Again, Anthony Suine,  
7 CalPERS team member. With me today is our Chief of our  
8 Employer Account Management Division, Renee Ostrander to  
9 help me present this item.

10 DEPUTY EXECUTIVE OFFICER SUINE: This agenda item  
11 is an action item to approve the revised proposed  
12 regulation to define limited duration with a 15-day  
13 comment period, followed by a submission to the Office of  
14 Administrative Law if no additional revisions are needed  
15 to the regulation.

16 As a reminder, these limited duration regulations  
17 were originally brought forward to the Committee and Board  
18 in April, earlier this year. The initial 45-day comment  
19 period was mid-June through July. And the attachments to  
20 the agenda item include an edited version of the original  
21 regulation with the marked changes, a clean version of the  
22 new regulation, a detailed summary of all comments  
23 received with our proposed responses, and two attachments  
24 containing each of the actual comment letters received.

25 Overall, we received nearly 40 comments from a

1 variety of interested parties. All actionable comments  
2 received during the comment period were addressed and  
3 incorporated into the revised regulation. Most comments  
4 surrounded around three common themes, one being the  
5 definition of an appointment, two being the 24 to 48 month  
6 consecutive periods, and three, the level of effort needed  
7 by employers and any intervention or slow downs from  
8 CalPERS, and developing processes to remove too much  
9 overhead into the various extension or exemption periods.

10 So we took all comments into consideration  
11 balancing varying views from stakeholders about the  
12 regulation being either too restrictive and others  
13 claiming it to be too liberal. We did our best to balance  
14 the opposing views and feel we have provided employer's  
15 need for flexibility and a retired annuitant's desire to  
16 continue providing their expertise to public service,  
17 while also balancing the requirement to define the term to  
18 provide more clarity to all parties on how to administer  
19 retired annuitant and temporary upgrade pay appointments.

20 The process in the regulation is designed to  
21 provide efficiency for employers, but builds in rigor and  
22 transparency to the public as time in those retired  
23 annuitant positions progress.

24 Throughout the process, we have worked to educate  
25 our stakeholders on our revisions to the regulations to

1 adequately address all questions in appropriation for this  
2 agenda item. I'd like to turn it over to Renee now to  
3 provide a few more specifics on the revisions we've made.

4 EMPLOYER ACCOUNT MANAGEMENT DIVISION CHIEF

5 OSTRANDER: Good morning. Renee Ostrander, CalPERS team  
6 member.

7 So base on all of those comments that we received  
8 during the public comment period as well as our own  
9 continued analysis of this, we've made some changes to the  
10 proposed regulation from the initial submission that you  
11 saw back in April. And while, if you look at the  
12 red-lined version, it may look like the changes are pretty  
13 significant, much of it is just context. There's not  
14 large Substantive changes.

15 So one of the things that we did was we provided  
16 clarity around the term "appointment", so it's understood  
17 that a retiree can work for an agency in retirement for  
18 someone that they served active. So that was one of the  
19 large questions that Anthony talked about. Another one is  
20 clarity around the needs of what needs to be documented  
21 for the extension period. So if you recall, it's two  
22 years plus two one-year extensions, and then there's an  
23 exemption period. So we've clarified the needs around the  
24 documentation for those, and for the extension periods, so  
25 those two one-year extensions, after the initial 24

1 months. Those are allowed to be on a consent calendar for  
2 employers.

3 As Anthony talked about, we also had some clarity  
4 around the two plus one, plus one for those extensions,  
5 that is 48 continuous months. So that retired annuitant  
6 appointment starts with that first 24 months and then the  
7 two 12 months are continuous to that.

8 We also updated the language to allow for  
9 extensions to be after the -- if they're requested after  
10 the end date. I know that was a comment I believe that  
11 came from you, Ms. Greene Ross about the -- ensuring that  
12 if something happens and they do need to bring them back  
13 and they didn't realize that, they would be able to do  
14 that. So that is now in there. They're just not allowed  
15 to work until after it goes through that approval process.  
16 In addition, the exemptions are allowed to be requested up  
17 to 12 months after the end of the 48-month continuous  
18 period.

19 We've also updated the language to account for  
20 bargaining units that have specific time rate -- time  
21 frames already designated for the retired annuitants up to  
22 a maximum of 60 months. So if an employer has this in  
23 place, the employer would provide that documentation and  
24 the end date of that appointment would automatically be  
25 moved to whatever that extended date is.

1           They would run on a separate path. So there is  
2 no need for the extensions or the exemptions that are  
3 called for in the process that you've originally seen that  
4 has come back forward as well.

5           So as Anthony mentioned, if approved, it will be  
6 released for a 15-day comment period. We do recognize  
7 that there are holidays at the end of this month and next  
8 month, so our intention is to begin that 15-day period in  
9 early December, so that way it's still running outside of  
10 those holiday periods, so -- and then I think that's it.  
11 We're happy to answer any questions you might have

12           CHAIRPERSON FECKNER: Very good. Thank you.

13           Ms. Greene Ross.

14           ACTING COMMITTEE MEMBER GREENE ROSS: I just  
15 wanted to thank the staff, because I know how much work  
16 went into this. It needed to be clarified. And it never  
17 was clear and you guys are -- here at CalPERS are charged  
18 with many implementing it. And I know you got a lot of  
19 comments and feedback, and you were able to explain all  
20 the comments, summarized them, and came up with hopefully  
21 workable solutions for everybody, including all the local  
22 governments. You know, ideally, having spent eight years  
23 helping Controller Yee run our office, you know, in the  
24 ideal world, we would very much have a good pipeline and  
25 training for employees to keep moving up. That would --

1 that would be fantastic. And I hope -- I hope that that  
2 work continues throughout State government, but we  
3 appreciate the work that you did put into this. So thank  
4 you.

5 CHAIRPERSON FECKNER: Thank you.

6 EMPLOYER ACCOUNT MANAGEMENT DIVISION CHIEF

7 OSTRANDER: Thank you so much. We've had -- I will just,  
8 to that -- to that end, talk about the team that has been  
9 on this. While Anthony and I have done most of the  
10 speaking with our stakeholders, there's been a large team  
11 behind us with Kelli Aoki and our Policy and Research  
12 team, our Legal team, our Legislative Affairs team. So  
13 there's been a huge group that has been a part of bringing  
14 this forward.

15 Thank you.

16 CHAIRPERSON FECKNER: Thank you.

17 Ms. Middleton.

18 COMMITTEE MEMBER MIDDLETON: All right. Thank  
19 you. And I want to echo the comments of Ms. Greene Ross  
20 in saying thank you. I know that a lot of work went into  
21 what you're recommending and I very much appreciate the  
22 reach out that was done with stakeholders, most  
23 particularly local government. One of the great  
24 challenges for those of us in local government today in  
25 delivering the public services that people count on is

1 simply the talent that we need to make decisions, and to  
2 execute decisions is just not there in the supply that we  
3 need.

4           Could you give us an overview of the commentary  
5 that you received in the meetings that you had with the  
6 League of California Cities and how that contributed to  
7 the final recommendations you're making today?

8           EMPLOYER ACCOUNT MANAGEMENT DIVISION CHIEF

9 OSTRANDER: So the meetings that we've had recently  
10 have -- the public comment period had already closed and  
11 so we did take all of that into consideration. I know the  
12 league in those comments did bring up concerns over the  
13 turnaround time. That was a big thing that they talked  
14 about, that turnaround time, for CalPERS. And we've  
15 talked about the processes. We changed those to make them  
16 more streamlined and more efficient.

17           Some of the other feedback we received during the  
18 comment period from them also had to do with just defining  
19 solutions -- having solutions exist, concerns over  
20 appointment. We addressed that, also concerns over being  
21 able to have something happen after the expiration date,  
22 which Ms. Green Ross had originally brought up. So all of  
23 those, yes, have definitely been addressed. The more  
24 recent meetings that we've had with them and the webinars  
25 that we've done from them and others have been -- have

1 been more logistical questions and understanding. There  
2 hasn't been any additional feedback. So I believe we've  
3 been able to address all of their initial concerns that  
4 they brought forward in this current version that you're  
5 seeing.

6 DEPUTY EXECUTIVE OFFICER SUINE: Okay. And I  
7 would just add, Ms. Middleton, that, you know, once we  
8 have that verbal dialogue with them and are able to take  
9 out, you know, some of the legalese of the regulation,  
10 they seem really comfortable with the path forward, in  
11 that they have an opportunity to, you know, keep the  
12 retired annuitants that they need for the specific periods  
13 of time.

14 COMMITTEE MEMBER MIDDLETON: Well, again, I  
15 appreciate the work that you've done and we now have 15  
16 days of comments and encourage everyone to take those  
17 comments as they come in with the seriousness that I know  
18 you always give to them, so that we get a product that  
19 actually works for all of us.

20 EMPLOYER ACCOUNT MANAGEMENT DIVISION CHIEF  
21 OSTRANDER: Absolutely. And to your point, Ms. Middleton,  
22 on education, we are just at the beginning. Anthony and I  
23 have done several webinars with a large variety of groups.  
24 We'll continue to do that. Assuming we have approval, we  
25 move forward with the comment period, and it does move to

1 the Office of Administrative Law, we'll continue that  
2 education process. There will be written materials.  
3 We'll continue to do webinars to ensure that all of our  
4 employers and our retirees are well educated.

5 COMMITTEE MEMBER MIDDLETON: Incredibly  
6 important. Most of our employers -- overwhelmingly, our  
7 employers want to do the right thing, want to follow the  
8 rules --

9 EMPLOYER ACCOUNT MANAGEMENT DIVISION CHIEF  
10 OSTRANDER: Absolutely.

11 COMMITTEE MEMBER MIDDLETON: -- and we know you  
12 also have a responsibility to deal with that very small  
13 percentage of individuals who try to find the way around  
14 the rules. So thank you.

15 EMPLOYER ACCOUNT MANAGEMENT DIVISION CHIEF  
16 OSTRANDER: Thank you.

17 CHAIRPERSON FECKNER: Thank you.  
18 Ms. Ortega.

19 COMMITTEE MEMBER ORTEGA: Yeah. Thank you. I  
20 just have a question to clarify the applicability of the  
21 new regulations. So is it it does not apply to any  
22 current retired annuitants only those appointed after it  
23 become effective?

24 EMPLOYER ACCOUNT MANAGEMENT DIVISION CHIEF  
25 OSTRANDER: No. So it will apply to all retired

1 annuitants as of the date of publication. So we  
2 anticipate the date of publication, should everything  
3 approve and move forward, to likely be summer or fall of  
4 next year. But what is specifically in the regulation is  
5 that the date starts from there. So even if a current  
6 retiree has been here for two years, they get a new  
7 two-year start to that period. So we will be -- we'll be  
8 starting that 24-month cycle at the date of publication.

9 COMMITTEE MEMBER ORTEGA: Okay. Thank you.

10 I think to that point, I appreciate all of the  
11 clarifications that have been added as well, but I do  
12 still -- the comment in the analysis that there's no  
13 impact on State budget or a fiscal impact, the whole  
14 premise of this was that there were a lot of retired  
15 annuitants. So presumably at some point, 24 months in the  
16 future after it's effective, CalHR at least is going to  
17 get requests from dozens of departments to review these --  
18 being able to keep those who they think they need to keep.  
19 So I do have quite a bit of concern about what the  
20 administrative cost is to employers to be able to  
21 implement this.

22 And I think, you know, there are policies we can  
23 think about to limit the use and create kind of criteria  
24 around this that -- that can reduce that, but it's a lot  
25 for us to think through in terms of what has been the

1 practice and what would be the practice going forward.

2 CHAIRPERSON FECKNER: Anything else, Ms. Ortega?

3 COMMITTEE MEMBER ORTEGA: No.

4 CHAIRPERSON FECKNER: All right. This is an  
5 action item, what's the pleasure of the Committee?

6 COMMITTEE MEMBER MIDDLETON: Move approval.

7 COMMITTEE MEMBER TAYLOR: Second.

8 CHAIRPERSON FECKNER: Moved by Ms. Middleton,  
9 seconded by Ms. Taylor.

10 Ms. Taylor, you wanted to speak.

11 COMMITTEE MEMBER TAYLOR: Yeah, just -- I just  
12 wanted to say I really appreciate the work on this. And I  
13 urge a yes vote. My thinking behind this is that retired  
14 annuitants are use instead of State employees, and we need  
15 to be hiring new State employees rather than paying a  
16 retired annuitant to do the work. I understand there's a  
17 lot of technical expertise that they bring to the table.  
18 Hopefully, employers are thinking about succession  
19 planning when their employees retire, so that they are  
20 teaching their, you know, succession -- successors to do  
21 the job. So I really support this.

22 Thank you very much.

23 CHAIRPERSON FECKNER: Thank you. We have a  
24 motion before us, but I do have a request to speak from  
25 the audience. Patrick Whalen, please come down, identify

1 yourself for the record, and you'll have up to three  
2 minutes for your comments. Over here in the corner. The  
3 microphone will be turned on for you. The clock will be  
4 in front of me.

5 MR. WHALEN: Good morning.

6 CHAIRPERSON FECKNER: Microphone, please.

7 There you go.

8 MR. WHALEN: Good morning, Board members. Pat  
9 Whalen here on behalf of CASE, that is the union that  
10 represents all of the attorneys, and administrative law  
11 judges, and hearing officers that work for the State of  
12 California. We have members in over a hundred different  
13 agencies, boards, commissions.

14 First of all, I just wanted to thank the staff  
15 very much for the work in addressing all of the comments,  
16 including ours. And I very much appreciate the fact that  
17 they incorporated some of our suggestions, so that is very  
18 much appreciated. Nevertheless, I'm here, so I'm still  
19 not satisfied.

20 I just wanted to go through kind of two  
21 categories real quickly. One kind of a big picture look  
22 at the issue and then I just want to give you kind of a  
23 narrow specific example of some of the problems here.

24 The big picture here is you're purporting to  
25 define the term limited duration, that is in statute. And

1 yes, it is very much in need of definition. There's no  
2 other definition of it. This is the chance to do it.  
3 Limited duration, and the rule that is on the table  
4 literally allows a retired annuitant to work indefinitely.  
5 There's's no hard cap. Let me -- let me walk through why  
6 that's so. They get an initial two years for free. Then,  
7 the employer can extend it two times for 12 months each,  
8 so now we're up to four years. Then, the employer can  
9 come before you and say, hey, I need an exemption. And  
10 while the exemptions are only limited to 12 months, the  
11 rule specifically contemplates that employers can apply  
12 for that exemption more than once. No cap, meaning they  
13 can keep coming back and saying we need to keep this  
14 retired annuitant, we need them, we need them, we need  
15 them. There's no limit.

16 So the big picture here is you're defining the  
17 term limited duration with a rule that allows it to go  
18 forever. So that's a -- that's a problem right out of the  
19 gate.

20 Now, let me get a little more specific. You --  
21 someone might say, well, yeah, but -- but the various  
22 certifications that have to be done along the way to get  
23 those various extension exemptions, those really operate  
24 as a practical limit on this -- on what would otherwise be  
25 an indefinite appointment. But do they? Do they really?

1           Here's what -- I'm looking at it from the  
2 perspective of the State employer. So this would be  
3 something CalHR would do, but the same -- the same logic  
4 applies to local government and other public employers.  
5 After the first initial two years, what CalHR would have  
6 to do is certify by memorandum a number of items. And I  
7 won't go through them all. They're in -- you know, the  
8 position title that it is et cetera. They have to write a  
9 memo. That's it. That gets -- that gets the employer  
10 another 12 months.

11           And here's -- here's the interesting part, who  
12 checks the process and the validity of the memo? In other  
13 words, one the things they have to certify is the reason  
14 the work can't be done by a non-retired employee. Who  
15 decides how good the reason has to be? The rule contains  
16 no standards, not even a process to challenge the  
17 determination that there's a good reason or a good  
18 succession plan. The same applies for when the employer  
19 comes before you to ask for an extension.

20           CHAIRPERSON FECKNER: Your time has expired, sir.

21           Thank you. We get your point.

22           MR. WHALEN: Thank you.

23           CHAIRPERSON FECKNER: I understand we have  
24 someone on the line, Mr. Teykaerts.

25           STAKEHOLDER STRATEGY MANAGER TEYKAERTS: Yes, Mr.

1 Chair. We have one caller for this item.

2 Johnnie, go ahead.

3 MR. PINA: Thank you and good morning, Chair  
4 Feckner.

5 CHAIRPERSON FECKNER: Good morning.

6 MR. PINA: Good morning, members and CalPERS  
7 staff.

8 This is Johnnie Pina with the League of  
9 California Cities. I appreciate the opportunity to speak  
10 on this item. I want to start by giving a special thank  
11 you to CalPERS staff for taking the time to talk to  
12 employers and explain the updated regulations to our  
13 member cities.

14 I also want to thank staff for listening to the  
15 public comments, taking our concerns into consideration,  
16 and making many positive changes to the regulations. As a  
17 result, the regulations before us today are a vast  
18 improvement to the previous version. We look forward to  
19 continuing to work with all of you to further refine these  
20 regulations to strike a proper balance and allow cities to  
21 continue to provide quality services in a time really  
22 when, you know, cities are facing significant hiring  
23 challenges.

24 Thank you and we look forward to providing  
25 additional public comment when the comment period opens.

1 Thank you.

2 CHAIRPERSON FECKNER: Thank you.

3 Anyone else, Mr. Teykaerts?

4 STAKEHOLDER STRATEGY MANAGER TEYKAERTS: No  
5 further callers for this item, Chair Feckner.

6 CHAIRPERSON FECKNER: Thank you.

7 So the motion being before you.

8 Any further discussion?

9 Seeing none.

10 All in favor say aye?

11 (Ayes).

12 CHAIRPERSON FECKNER: Opposed, no?

13 Motion carries.

14 Before we leave this item, first of all, thank  
15 you for all the hard work. It was a lot that went into  
16 this, but I do have something I want to add as Committee  
17 direction. I won't be here to oversee that, however I do  
18 want to hear what comes from this at some point. So it  
19 will be direction of the Chair, I want staff to explore  
20 and bring back to the PHBC the possibility about charging  
21 the employer a rate -- not the employees, not the  
22 annuitants, but the employer. And I know people are going  
23 to say, well, that's now an increase to the budget. Quite  
24 frankly, these positions are already out there. They  
25 should have been budgeted for when you looked for them,

1 when you did that annual budget. That PERS contribution  
2 should have already been included in your budget item. So  
3 it should not be an increase.

4 Right now, there is no -- as Mr. Whalen said,  
5 there is really no incentive for the employer to fill  
6 those positions. They can keep coming back and asking  
7 again. So in my opinion, these employees, although very  
8 much needed in some areas, they're holding a position that  
9 could be a active member paying into the system. They're  
10 withdrawing -- now withdrawing a check and paying nothing  
11 back in. So my opinion is is that these employers should  
12 be paying a pay -- employer rate for these annuitants that  
13 they're keeping on the payroll. So I would like that to  
14 be explored and brought back to this committee at a future  
15 point.

16 DEPUTY EXECUTIVE OFFICER SUINE: Thank you, Chair  
17 Feckner. I've noted it accordingly.

18 CHAIRPERSON FECKNER: Thank you.

19 All right, that brings us to Agenda Item 5b,  
20 Health Benefits Program Proposals. Mr. Jarzombek.

21 (Thereupon a slide presentation).

22 HEALTH PLAN RESEARCH & ADMINISTRATION CHIEF

23 JARZOMBEK: Good morning, Mr. Chair and members of the  
24 Committee. Rob Jarzombek, CalPERS team member. I'm here  
25 with Dr. Julia Logan to present the health benefits

1 program proposals for the 2024 plan year.

2 --o0o--

3 HEALTH PLAN RESEARCH & ADMINISTRATION CHIEF

4 JARZOMBEK: So first on background. At the June Pension  
5 and Health Benefits Committee meeting, we shared some of  
6 the near and long-term challenges facing the basic PPO  
7 program. This was because the Basic PPO plans have  
8 experienced premium increases and volatility over the last  
9 few years and they also faced a particularly challenging  
10 year in 2021 leading to a reserve deficit.

11 We've shared concerns about the short-term  
12 sustainability of the PERS Gold Basic Plan and the need  
13 the curb costs to ensure it can remain competitively  
14 priced with our lower cost HMO products. As Don mentioned  
15 then, there are several key goals of our work, which  
16 include identifying potential interventions that could  
17 help curb near and longer term costs, keeping pricing for  
18 the PERS Gold Basic Plan in line with pricing of our lower  
19 cost HMO products, ensuring that both PPO Basic plans are  
20 aligned with our strategic goals, and finally developing  
21 the foundation for our upcoming PPO contract solicitation  
22 for 2025 through 2029 plan years.

23 As we shared in September, and is important to  
24 restate today, our analysis identified several areas where  
25 PPO costs need to be improved. However, it also showed

1 that generally the underlying medical and pharmacy cost to  
2 growth in the PPO is in line with that of our HMO  
3 products. This is good news, because it tells us that the  
4 PPO is not facing an immediate sustainability crisis.

5 Today, we seek your approval on the interventions  
6 we've identified to curb costs and promote the appropriate  
7 site of care for services. While we're aware that these  
8 interventions do not address the entirety of the unit cost  
9 issues in the PPO, we do think they move us in the right  
10 direction towards better cost containment. If the Board  
11 approves, these items will be incorporated into the rate  
12 development process for the 2024 plan year.

13 Before I pass it to Dr. Logan to talk about the  
14 specific proposals, I'd like to mention two additional  
15 items. First, we held a special meeting with stakeholders  
16 in October to share our proposals and hear their comments  
17 and input. I'd like to thank all the members, employers,  
18 labor reps and retiree groups who attended both in-person  
19 and virtually to share their perspectives with us.

20 Second, through our recent PPO strategic  
21 alignment work, we've identified other areas to enhance to  
22 ensure a sustainable PPO program. While they are not  
23 benefit design changes that require Board approval, they  
24 are new programs that will help improve our members'  
25 experience and further support them with high quality

1 care.

2 I'll now pass it to Julia to talk about our  
3 proposals and the additional programs we're pursuing.

4 CHIEF MEDICAL OFFICER LOGAN: Thank you, Rob, and  
5 good morning, Mr. Chair, and members of the Committee.

6 CHAIRPERSON FECKNER: Good morning.

7 CHIEF MEDICAL OFFICER LOGAN: Julia Logan,  
8 CalPERS team member. We have two proposals that we're  
9 recommending for your approval today. The first is a site  
10 of care program for labs for our PPO Basic members only.  
11 The second is a mail order opt-out program for maintenance  
12 medications for our PPO and our HMO -- PBM HMO plans.  
13 This excludes Kaiser and Blue Shield who don't work with  
14 our PBM.

15 --o0o--

16 CHIEF MEDICAL OFFICER LOGAN: As part of our  
17 analysis of our claims data, we found a large variation in  
18 that cost of lab services, as well as higher lab costs in  
19 the PPO when compared to the HMOs. As an example a  
20 cholesterol panel, which is a very common lab test, costs  
21 between \$9 and \$230 in 2021 in the PPOs. On the high end,  
22 health system labs and certain other private labs are  
23 significantly higher than some non-hospital based labs.

24 To mitigate this variation, we propose a  
25 site-of-care program for labs modeled after the success of

1 similar programs that have implemented benefit design  
2 modifications to address unwarranted price variation, such  
3 as our own well known CalPERS Reference Based Pricing  
4 Program for hips and knees, which has since expanded to 15  
5 additional procedures. This site-of-care program would  
6 decrease cost variation and improve affordability of lab  
7 service for individual members, while also improving  
8 long-term affordability of the PPO program.

9           Here's how the program would work. CalPERS will  
10 identify preferred lab providers across the state.  
11 Typically, this would be Labcorp or Quest, where that  
12 cholesterol test that I just mentioned earlier typically  
13 costs between \$10 and \$39, rather than up to \$230. These  
14 large labs are located all throughout the state.

15           If a member uses these pre-designated preferred  
16 lab providers for their routine labs, their coinsurance  
17 would be waived. If a member chooses to use a  
18 non-preferred provider, the member would be obligated to  
19 pay co-insurance. Our intention with this program is to  
20 incentivize the lower cost option and certainly not to  
21 impede access or choice. So a member will always have a  
22 choice of which lab to choose. If the preferred lab is  
23 too far for the member to travel to, for example, the  
24 member can continue to use that non-preferred lab and will  
25 continue to pay their co-insurance for the visit. The

1 estimated savings for this program is up to \$9 million  
2 annually, with a percentage of that savings going back to  
3 members as coinsurance savings.

4 This estimated savings is based on our  
5 preliminary analysis. However, to achieve the full  
6 benefit of the intended savings, we may need to adjust the  
7 coinsurance amounts with a carrot and stick approach to  
8 incent members to the preferred low -- lower cost site of  
9 care. If adjustments are needed, we will bring those back  
10 to you in March along with the other proposals.

11 --o0o--

12 CHIEF MEDICAL OFFICER LOGAN: Our second proposal  
13 for you today is the pharmacy mail order opt-out program.  
14 Pharmacy costs, as you know, continue to be a significant  
15 cost driver in our health program. As part of our PPO  
16 alignment project, we work with Optum to find long-term  
17 solutions to put downward pressure on our pharmacy spend,  
18 without sacrificing clinical quality or increasing  
19 memoranda cost sharing.

20 This program that we bring to you today is a mail  
21 order opt-out program for non-specialty maintenance  
22 medications. Those are medications that members take on a  
23 regular basis. During the pandemic, we encouraged use of  
24 mail order and many members switched their maintenance  
25 meds to mail order. In fact, 245,000 basic members

1 currently use Optum's mail order option. However, there  
2 still remains an opportunity for members who continue to  
3 use retail pharmacies for their maintenance medications  
4 and for our CalPERS Health Program to save money. The  
5 member would save money on copays and the program would  
6 save money on those retail pharmacy fees. If a member  
7 prefers not to fill maintenance medications through the  
8 mail order program, they may opt out.

9           The process of opting out is actually quite  
10 simple. The member may call the number on the back of  
11 their card or use Optum's website portal to indicate their  
12 preference. By opting out, members can continue to fill  
13 their maintenance medications at their retail pharmacy.

14           By using the mail order option, members pay less  
15 money per 90-day supply. Instead of three copays or one  
16 copay for 30-day -- a 30-day fill, they only pay two  
17 copays for a 90-day supply. To minimize disruption for  
18 those who haven't yet switched to mail order, we will be  
19 doing extensive member communication. And members will be  
20 notified at least three times before the program goes into  
21 effect. It's important to know that even if a member  
22 doesn't opt out after these reminders, a member has the  
23 ability to opt out at any time moving forward.

24                           --o0o--

25           CHIEF MEDICAL OFFICER LOGAN: In addition to the

1 two proposals that I just walked through, I wanted to talk  
2 through a few key areas that we continue to work on that  
3 are critical to achieve our goals of improved outcomes and  
4 population health. As we refine them, and when they need  
5 Board approval, we will be bringing them back to you in  
6 March. We're working closely with Anthem on network  
7 management solutions, such as Centers of Excellence and  
8 expanding in-network options for behavioral health. These  
9 and potentially other care management and navigation  
10 programs could be brought to you for approval in March  
11 2023.

12           Additionally, we're working with Anthem on an  
13 oncology Medical Home program to address the high costs of  
14 cancer care in the PPOs compared to the HMOs. This is a  
15 cancer care program for members that would provide  
16 navigation and care coordination for members with cancer.  
17 It provides a value based approach to cancer care focused  
18 on quality measurement and improving outcomes. We expect  
19 to implement this program in 2023.

20           I'll add that there will be no premium impact as  
21 2023 premiums are set. Think of it as a member benefit  
22 program based on our data analysis and similar to others  
23 we've done in the past.

24           Mr. Chair, at our PHBC meeting in September, you  
25 raised a really important question about the large

1 disparity between the PPO and HMO and cancer costs. We  
2 analyzed our data further and found some interesting  
3 information that we wanted to share with you on severity  
4 of disease, screening rates, providers, and age. We found  
5 that there are really no statistically significant  
6 differences between members in the HMO versus the PPO, in  
7 terms of severity, amount of cancer screenings, or  
8 location or type of provider. The only difference was in  
9 the age. Members with these five cancers in the PPO were  
10 older statistically than in the HMO plans. Thank you for  
11 asking the question. It really helped us make -- learn  
12 more about this very important topic.

13 CHAIRPERSON FECKNER: Thank you.

14 CHIEF MEDICAL OFFICER LOGAN: In pharmacy, we're  
15 working with Optum on a few clinical programs to help  
16 improve outcomes and member experience. In particular, I  
17 wanted to highlight polypharmacy program. Polypharmacy is  
18 a reference to a person taking several medications at the  
19 same time, usually about four to five at least. And while  
20 this is often clinically necessary and appropriate, it can  
21 have negative consequences for patients and the health  
22 care system.

23 Some effects can include increased risk for  
24 adverse drug events, increased hospital readmissions, and  
25 even increased mortality. This particular program uses a

1 case management structure to engage members who are taking  
2 five or more chronic medications. These members would  
3 receive a comprehensive medication review to see if there  
4 are any medications that present a lack of efficacy, side  
5 effects, or known interactions with this information in  
6 hand, sharing decisions among the pharmacist, the member,  
7 and the provider. This clinical program has potential  
8 savings of \$3.6 million across both the PPOs and the HMOs.  
9 We hope to launch it by early 2023.

10 I'll now turn it back to Rob for next steps.

11 HEALTH PLAN RESEARCH & ADMINISTRATION CHIEF

12 JARZOMBK: Thank you, Julia.

13 --oOo--

14 HEALTH PLAN RESEARCH & ADMINISTRATION CHIEF

15 JARZOMBK: For next steps, if you approve the two  
16 proposals today, they'll be incorporated into the rate  
17 development process for the 2024 plan year.

18 We will return to you next March with any HMO  
19 plan proposals and service area changes, as well as any  
20 additional PPO changes, as our work with Anthem continues.

21 All of the approved changes will be incorporated  
22 into the RDP process as well. We'll bring premiums to you  
23 again next summer for approval and begin communicating out  
24 everything in advance of open enrollment next fall. This  
25 concludes our presentation and we're happy to answer any

1 questions.

2 CHAIRPERSON FECKNER: Thank you very much for the  
3 presentation. Very inclusive. And no questions, which  
4 must mean you hit the mark.

5 This is an action item, what's the pleasure of  
6 the Committee?

7 COMMITTEE MEMBER TAYLOR: Move approval.

8 VICE CHAIRPERSON RUBALCAVA: I move it.

9 CHAIRPERSON FECKNER: Moved by Mr. Rubalcava,  
10 seconded by Ms. Taylor.

11 Before we take action -- I got you Larry. Before  
12 we take an action on the vote, we have a motion before us,  
13 we have a request to speak from the audience.

14 Mr. Woodson.

15 MR. WOODSON: Good morning. Larry Woodson,  
16 California State Retirees. Chairman Feckner, thank you --

17 CHAIRPERSON FECKNER: Good morning.

18 MR. WOODSON: -- for the opportunity to comment.  
19 And I wish you and Ms. Greene Ross well in your retirement  
20 from the Board and hope you find fun things to do with  
21 your extra time.

22 We have carefully reviewed the two proposals  
23 before you today. The site of care member incentive for  
24 labs and pharmacy mail order opt-out program, which we  
25 heard more details about Thursday in the stakeholder

1 briefing, and I did attend the special meeting too, which  
2 we appreciated. Since neither proposal penalizes members  
3 for not participating, but rather gives them financial  
4 incentive if they do, they seem reasonable, and we support  
5 them. We are skeptical that they'll achieve the projected  
6 savings of nine million and five million, but any savings  
7 is welcomed.

8           And I did ask some questions at the meeting  
9 Thursday, which no one could answer. For example, what  
10 assumptions were made regarding the exact number of  
11 members who would be participating, since that directly  
12 determines savings. And I was asked to submit those  
13 questions by email, which I did, and I actually just got  
14 an email during this meeting with answers, so I appreciate  
15 that.

16           It's worth noting that this proposal is promoted  
17 on findings that PPO costs are higher than HMOs, at least  
18 for labs, and I guess for drugs. However, the 2021 annual  
19 report shows really, as Dr. Logan, I guess just said, but  
20 for 2021, PPO costs are actually eight percent lower than  
21 HMO costs overall on a per person per year basis, which I  
22 again calculated myself, but -- and I'm glad to share that  
23 data with staff.

24           Also, regarding the mail order option, I  
25 expressed that affected members should not have to

1 opt-out, but rather encouraged to opt-in, but I understand  
2 the chosen default is that they are in unless they opt  
3 out. There are many reasons why members maybe not want  
4 mail order, including frequent break-ins at their mail  
5 boxes, extreme weather conditions, frequent travel away  
6 from home, and et cetera. And as I -- I was able to  
7 clarify before this meeting, and as Dr. Logan reported,  
8 that members can opt out at any time during the year, so  
9 that's great.

10 We hope that the three meetings -- mailings and  
11 whatever additional advertising CalPERS has done is  
12 effective. And in closing, we support this effort and  
13 hope it's effective.

14 Thank you.

15 CHAIRPERSON FECKNER: Thank you.

16 So a motion being before you.

17 Seeing no other further discussion.

18 All in favor say aye?

19 (Ayes).

20 CHAIRPERSON FECKNER: Opposed, no?

21 Motion carries.

22 Brings us to -- thank you very much, for the  
23 presentation, both of you.

24 Item 6a, information agenda items. 6a is  
25 Internal Reveal Code -- Revenue Code.

1 Mr. Suine.

2 DEPUTY EXECUTIVE OFFICER SUINE: Good morning  
3 once again, Mr. Chair, and members of the Committee.  
4 Anthony Suine, CalPERS team member. This is an  
5 information item.

6 I'll wait a minute for Kimberly to queue up  
7 the -- all right.

8 (Thereupon a slide presentation).

9 DEPUTY EXECUTIVE OFFICER SUINE: So this is an  
10 information item to provide you an overview of the very  
11 complex topic of the Internal Revenue Code section 415(b)  
12 that can limit the benefit amount an individual can  
13 receive from an employer's tax qualified defined benefit  
14 plans and CalPERS's administration of the Replacement  
15 Benefit Plan, which replenishes those benefits through  
16 employer funding.

17 Unlike some Internal Revenue Codes that create  
18 contribution limits or laws that limit the amount of  
19 compensation that can be used towards retirement benefits,  
20 IRC 415(b) limits the actual benefit amount that is  
21 calculated at the time of retirement, based on a member's  
22 years of service, retirement formula, and final  
23 compensation amount.

24 Therefore, the longer a member works, the better  
25 their formula, and the higher their salary it will make

1 them more likely to be impacted by these limits. The  
2 limits are set annually by the U.S. Department of  
3 Treasury, and may be adjusted for inflation each year.  
4 These limits are defined for a maximum age of 62 and are  
5 generally adjusted downwards for benefits paid at an early  
6 age with some exceptions. The current limit for 2022 is  
7 \$245,000 at age 62. However, due to inflation, this  
8 amount is increasing to 265,000 in 2023.

9 --o0o--

10 DEPUTY EXECUTIVE OFFICER SUINE: In accordance  
11 with Government Code and California Code of Regulations,  
12 CalPERS is the administrator of the Replacement Benefit  
13 Plan for retirees of employers participating in our  
14 system. And the laws and regulations define how we  
15 collect funds from employers to pay the excess benefits  
16 and how we generally administer the program.

17 The CalPERS RBP currently has a population of  
18 approximately 1,700 participants and 600 employers that  
19 are invoiced proportionately for the service earned with  
20 their respective agencies. Each year, participants of the  
21 plan are retested against the new limits to determine if  
22 they are still limited. Based on the increased limit  
23 projected for 2023, we anticipate the number of  
24 participants in the plan could be reduced by as much as 50  
25 percent. In previous years, the increase may have only

1 been \$5,000, but this year it's up to \$20,000.

2 We do also retest those who are close to the  
3 limit annually to determine if any changes to their  
4 benefits have occurred that may have spiked them over the  
5 limit, which is unlikely to occur this year with the large  
6 increase.

7 The majority of participants in the plan are long  
8 tenured senior leaders from our public agencies, as you  
9 can see in the percentages. However, we do have  
10 participants from our State and school employers as well.

11 --o0o--

12 DEPUTY EXECUTIVE OFFICER SUINE: A little bit  
13 about how the process works. So once a member has been  
14 identified as limited, employers are invoiced accordingly.  
15 An employer is billed once the member additionally  
16 retires, but is also billed annually, and then again each  
17 year when the participant is eligible for and receives a  
18 cost of living adjustment, since that entire increase  
19 would be considered over the limit.

20 Once the employer pays their invoice, the  
21 participant of the plan is paid a separate retirement  
22 benefit fund check monthly. The RBF checks are paper  
23 checks sent via U.S. mail at this time, but we are  
24 actively working with the State Controller's office to  
25 explore options for direct deposit for these monies.

1 Participants of the plan receive an average  
2 monthly check of approximately \$1,800 from the RBF, in  
3 addition to their normal CalPERS retirement benefit. So  
4 while the average is 1,800, the range can vary greatly  
5 from a few dollars to over \$15,000 for some participants.

6 --o0o--

7 DEPUTY EXECUTIVE OFFICER SUINE: The IRS  
8 classifies the income received through the Replacement  
9 Benefit Plan as employer wages, as opposed to a pension.  
10 Therefore, the RBP funds are subject to a one-time FICA  
11 tax, which consists of Social Security and Medicare taxes.  
12 These taxes are calculated on the actuarial present value  
13 of the lifetime Replacement Benefit Plan benefit and are  
14 taken from the initial RBP payments until they are  
15 satisfied.

16 At year end, the Replacement Benefit Plan  
17 participants are issued a W-2 for the wages they've  
18 received from the IRC 415 limits, in addition to a 1099  
19 for their non-limited CalPERS benefit.

20 In accordance with the Government Code and  
21 regulations, CalPERS must charge an administrative fee to  
22 maintain and administer this Replacement Benefit Plan.  
23 The administrative fee is applied to each RBP payment a  
24 participant receives and is reviewed annually and may  
25 change periodically to ensure compliance with applicable

1 State laws and regulations. The current admin fee is 1.5  
2 percent, but is likely to increase in 2023 due to the  
3 projected decrease of participants in the plan to cover  
4 those fees.

5 Although only one quarter of one percent of our  
6 retirees fall into this plan, we have a dedicated team of  
7 analysts and leaders helping to administer this complex  
8 program for those who are limited, in addition to those  
9 who are hovering around the limit, the new retirees  
10 subject to the limit, and the ever-changing complex IRS  
11 rules and actuarial calculations surrounding these  
12 benefits.

13 This team, in addition to team members from our  
14 Legal Office, Actuarial Office, and Financial Office spend  
15 a significant amount of effort to ensure we are in  
16 compliance with these laws and regulations.

17 --o0o--

18 DEPUTY EXECUTIVE OFFICER SUINE: With that  
19 overview being provided, I wanted to bring your attention  
20 to one issue we are currently encountering. While the  
21 program I described supports our CalPERS retirees,  
22 retirees from our Judges' and Legislators' Retirement  
23 System do not have a similar statute that provides for a  
24 Replacement Benefit Plan. So while we are required to  
25 limit their benefits per the IRC rules, we do not have a

1 Replacement Benefit Plan to administer the excess benefits  
2 that are above the limit.

3 The maturity of certain contribution accounts  
4 authorized for judges, in addition to the defined benefits  
5 they have earned for their many years of service, coupled  
6 with their lengths of stay on the bench and retirement at  
7 later ages, this -- these situations have started to push  
8 most of the member -- mostly members from our Judges'  
9 Retirement System over the limit.

10 We have been working with stakeholders, including  
11 the California Judges Association and the Judicial Council  
12 to help find a solution to this issue and our Legislative  
13 Affairs Division is also engaged. We have been  
14 communicating with judges on this potential impact to  
15 retirement benefits, so they can be aware in their  
16 retirement planning process and we plan to expand that  
17 communication as well.

18 --o0o--

19 DEPUTY EXECUTIVE OFFICER SUINE: As was brought  
20 up earlier, communication is key on a complex issue such  
21 as IRC 415(b), therefore we communicate with our employers  
22 frequently on their role in the process through annual  
23 circular letters, employer specific letters when they have  
24 a retiree who is limited and dialogues we have throughout  
25 the state with senior officials at our participating

1 agencies.

2           We also include IRC 415 information in our  
3 retirement workshops, counseling sessions, and  
4 publications, and our retirement estimate letters have  
5 information about the program, if a member is anywhere  
6 near the IRC 415 limits. Once a member is limited, they  
7 are provided letters on the plan and what to expect going  
8 forward. We also have a fact sheet on our CalPERS website  
9 that covers much of the information in my presentation for  
10 anyone interested in the plan.

11           That concludes my presentation, and I'm happy to  
12 take any questions.

13           CHAIRPERSON FECKNER: Thank you. Great  
14 presentation.

15           Mr. Miller.

16           COMMITTEE MEMBER MILLER: Yeah. Thank you for  
17 the presentation. It's quite timely. And I started to  
18 look at this in a little bit more detail and I find it  
19 bogglingly complex, confusing, counterintuitive, and  
20 frankly, in some cases, grossly unfair. I've heard from a  
21 number of people who now fear they're going to be impacted  
22 by this, including one person who has been who's spent  
23 over 40 years as a State employee and the rest of their  
24 long tenure in public service as a judge, and nobody from  
25 their employer told them about this. They literally

1 didn't find out that they were going to get a huge cut to  
2 their monthly income. Literally the day they retired,  
3 they got the call telling them, oh, by the way.

4           And the frustration that I have is trying to  
5 figure out how -- you know, we make these promises to  
6 public employees, here is the deal that you've signed on  
7 for. You're going to forgo some opportunities and  
8 benefits perhaps in the private sector, perhaps in more  
9 lucrative business ventures and you're going to serve the  
10 public, and we promise you, you will get these benefits,  
11 based on these formulas. And then they retire and find  
12 out oh, by the way, the IRS changed some things and you're  
13 not going to get this big portion of what you thought you  
14 were going to get now. And no one told you ahead of time.  
15 Nobody mentioned it. You never found out until you  
16 actually retired and found out, wow, the income I thought  
17 I had that was going to be sufficient for my needs and my  
18 family's needs now isn't. And I don't have much recourse,  
19 because it's -- you know, unless it's some sort of legal  
20 recourse. I don't know. We'll see.

21           But it's very troubling, and it -- this business  
22 of taking actuarial calculations of net present value of  
23 multiple different retirements, lumping them together and  
24 saying, oh, see, that exceeds this threshold that the IRS  
25 put in who knows when, and now you're not going to get

1 what you were promised, I think is very troubling. And I  
2 think there are probably certainly a lot of -- I'm  
3 thinking judges who are probably going to bump headlong  
4 into this now. And I just hope that we can find a way  
5 to resolve this, because I don't think we -- as the -- as  
6 the State anticipated this for -- I think we anticipate it  
7 for highly compensated public officials. We contemplated  
8 it for, you know, say psychiatrists and other highly paid  
9 professionals in our correctional employment. But I don't  
10 think we ever contemplated that this would impact the  
11 judges. But with the changes over the years, it seems  
12 like it's going to impact quite a few of them. So I'm  
13 very concerned about that.

14 Thank you.

15 DEPUTY EXECUTIVE OFFICER SUINE: Thank you, Mr.  
16 Miller. We're working diligently To resolve this issue  
17 for the judges.

18 CHAIRPERSON FECKNER: Ms. Taylor.

19 COMMITTEE MEMBER TAYLOR: Yes. Thank you, Mr.  
20 Chair. So I'm as concerned as Mr. Miller is -- excuse me.  
21 So I guess one of the things -- I appreciate the analysis  
22 on the front page of 1,700-member participants and then  
23 600 employers. I guess what I'm a little confused about  
24 is how long ago did this 415 go into effect?

25 DEPUTY EXECUTIVE OFFICER SUINE: In the 90s.

1           COMMITTEE MEMBER TAYLOR: Okay. So it's been  
2 around for a while.

3           DEPUTY EXECUTIVE OFFICER SUINE: Yes.

4           COMMITTEE MEMBER TAYLOR: Not -- and it looks  
5 like 73 percent public agencies, 22 percent State  
6 agencies, five percent schools make up the majority of it.  
7 This ends after PEPRA anyway, right?

8           DEPUTY EXECUTIVE OFFICER SUINE: That's correct.  
9 PEPRA eliminated the replacement benefit. It's likely  
10 eliminated anyway, because of the compensation caps.

11           COMMITTEE MEMBER TAYLOR: Exactly, yeah, because  
12 there's compensation caps. Is that also in effect for our  
13 judicial system and -- legislators no longer get it  
14 anyway, but --

15           DEPUTY EXECUTIVE OFFICER SUINE: That's correct.

16           COMMITTEE MEMBER TAYLOR: Okay. I mean, this --  
17 I work for a taxing agency, so I just have a hard time  
18 with the interference in a retirement plan from the  
19 federal government through taxes. I just think that's  
20 very interesting when wealthy people can continue to  
21 receive Social Security, but they have all this wealth,  
22 and yet our members who paid into these systems for all  
23 their lives don't get this. So I just -- I do have a  
24 problem. I do hope that you guys are working through some  
25 legislative and, you know, federal legislation to help the

1 judges et cetera -- and the legislators that are still  
2 around for that. So I do appreciate an update on this and  
3 I thought this was a long-term problem, but I couldn't  
4 remember how long. So thank you.

5 CHAIRPERSON FECKNER: Thank you.

6 Ms. Ortega.

7 COMMITTEE MEMBER ORTEGA: Yeah, I just had a  
8 question about PEPRA the restriction. So PEPRA prohibits  
9 a new replacement benefit plan, right?

10 DEPUTY EXECUTIVE OFFICER SUINE: It prohibits a  
11 Replacement Benefit Plan.

12 COMMITTEE MEMBER ORTEGA: For anybody who is  
13 subject to PEPRA?

14 DEPUTY EXECUTIVE OFFICER SUINE: Yes. Yes. Yes.

15 COMMITTEE MEMBER ORTEGA: Okay. Because I'm  
16 just --

17 DEPUTY EXECUTIVE OFFICER SUINE: So we would  
18 continue to pay those who are in the plan or come into the  
19 plan prior to PEPRA, our classic members.

20 COMMITTEE MEMBER ORTEGA: I was just curious what  
21 the -- what the options might be under current law to  
22 provide it to people who weren't previously part -- even  
23 if they're not PEPRA members yet to people who were not  
24 previously part of the program. I don't recall from the  
25 time, like if the intention was to say, like if you're not

1 part of a replacement plan, now you can't ever be or was  
2 it only PEPRA members?

3 DEPUTY EXECUTIVE OFFICER SUINE: PEPRA members.

4 COMMITTEE MEMBER ORTEGA: Okay.

5 DEPUTY EXECUTIVE OFFICER SUINE: Yeah. And again  
6 PEPRA members theoretically could not even hit the  
7 limit --

8 COMMITTEE MEMBER ORTEGA: Right.

9 DEPUTY EXECUTIVE OFFICER SUINE: -- because of  
10 the compensation caps.

11 COMMITTEE MEMBER ORTEGA: Right. And I feel  
12 like -- and my memory is not that good, but I feel like  
13 get at the time of PEPRA and the restrictions on the  
14 replacement benefit, that judges salaries might have been  
15 low enough to not be bumping up against the IRS cap,  
16 but --

17 DEPUTY EXECUTIVE OFFICER SUINE: Potentially.

18 COMMITTEE MEMBER ORTEGA: -- they've grown.  
19 Okay. Thanks.

20 CHAIRPERSON FECKNER: Thank you.

21 Mr. Rubalcava.

22 VICE CHAIRPERSON RUBALCAVA: Thank you.

23 Good presentation, Mr. Suine, and thank you for  
24 bringing the -- making the Board apprised of your efforts  
25 to address this issue, especially for the judges.

1           President Taylor raised one of the points, which  
2 is for PEPRA members, this will not be an issue. The  
3 other thing is speaking of IRS codes, I mean, there's --  
4 it's one way and the other, because there's also the  
5 governmental pension offset and wind fall elimination  
6 provision that also hits some of our Social Security  
7 recipients, who also have a public sector pension, not  
8 just CalPERS, but other '37 Act counties.

9           But on the other side is con -- if we do not --  
10 we are not in compliance, we could lose our IRS tax exempt  
11 status, is that correct?

12           DEPUTY EXECUTIVE OFFICER SUINE: That's correct.

13           VICE CHAIRPERSON RUBALCAVA: So we do have to try  
14 to do the balancing act. And I am appreciative of you  
15 bringing it to us and doing whatever -- doing every effort  
16 to try to be in compliance and still provide a benefit to  
17 our recipients. Thank you very much Mr. Suine. Thank you  
18 for your staff.

19           CHAIRPERSON FECKNER: Thank you.

20           Mr. Pacheco.

21           DEPUTY EXECUTIVE OFFICER PACHECO: Yes. Thank  
22 you. Thank you, Chairman Feckner and thank you, Mr.  
23 Suine.

24           I'd like to ask you a question about back to  
25 communication. And I also want to reemphasize what Mr.

1 Miller said about the promise. I mean -- I mean, that's  
2 what we're here for. We're here to make sure that when  
3 our members serve in the public service and public space  
4 that they are -- you know, they are going to retire with  
5 dignity and respect, so -- and that's what -- that's  
6 our -- that's our -- that's our underlying theme here.

7           And I'm just curious in terms of steps, you know,  
8 if any, are we doing in terms of State -- at the State or  
9 federal level to address this issue? You know, are we --  
10 are we trying to address it at the level of -- at the  
11 Treasury Department or -- and so forth to give them an  
12 understanding of what's -- what's going on here in  
13 California and see if we can find some resolution.

14           DEPUTY EXECUTIVE OFFICER SUINE: Yeah. We're  
15 really working with the stakeholders on some legislation  
16 that would just create an RBP or a Replacement Benefit  
17 Plan for the judges and allow us to administer it in the  
18 same fashion we do for our CalPERS members. We feel  
19 that's the quickest and easiest way to resolve the  
20 majority of these issues.

21           COMMITTEE MEMBER PACHECO: And this would only  
22 apply for the judges that are in the -- that are classical  
23 members, am I correct?

24           DEPUTY EXECUTIVE OFFICER SUINE: Do we know?  
25           Yeah, that's our expectation. Yes, because

1 PEPRA --

2 COMMITTEE MEMBER PACHECO: Prohibits them.

3 DEPUTY EXECUTIVE OFFICER SUINE: -- prohibits  
4 the --

5 COMMITTEE MEMBER PACHECO: That's right. So  
6 that's -- I just wanted be clear on that. Okay.

7 DEPUTY EXECUTIVE OFFICER SUINE: Yeah. Thank  
8 you.

9 COMMITTEE MEMBER PACHECO: Thank you.

10 DEPUTY EXECUTIVE OFFICER SUINE: Needed my team's  
11 help on that one.

12 COMMITTEE MEMBER PACHECO: No worries. Thank you  
13 very much.

14 CHAIRPERSON FECKNER: Thank you. Seeing no other  
15 requests, we do have a request from the audience. David  
16 De Alba, please come forward, identify yourself for the  
17 record, and you'll have up to three minutes for your  
18 comments.

19 MR. DE ALBA: Thank you, sir. Good morning.

20 CHAIRPERSON FECKNER: Good morning.

21 MR. DE ALBA: And thank you for allowing me to  
22 address you. My name is David De Alba. And I am  
23 celebrating two months of having retired from the  
24 Sacramento Superior Court, so I'm a retired Superior Court  
25 Judge, the former presiding judge of the superior court.

1           And I'm not here to represent an association and  
2 a group -- or a group at all. I'm just making an  
3 individual observation about this quagmire that Mr. Suine  
4 has so accurately described that surrounds this 415(b)  
5 problem. And I listened carefully to one sentence that he  
6 said, when he mentioned that there are Legal, Actuarial,  
7 and I think he said Benefit teams that are all examining  
8 how this impacts judges, and to the extent it may impact  
9 others.

10           So this 415(b) act -- I call it actuarial  
11 quagmire is a horrible problem, and I appreciate Mr.  
12 Miller, Ms. Taylor, Mr. Pacheco, and Mr. Rubalcava's  
13 comments, especially to the extent that you emphasize we  
14 give, and should respect, and honor what was promised.  
15 And when I walked into this building this morning, I saw  
16 the core values statement on the wall about respect, about  
17 integrity, et cetera. And I was heartened by that. I  
18 thought good and that's why I'm heartened by your  
19 comments.

20           And my message and purpose for being here today  
21 is really simple, whatever this complex problem is and how  
22 it's going to be resolved, there are a lot of smart people  
23 working on it, should be prospective, in other words, into  
24 the future. Correct whatever the problem is, but not  
25 apply it retroactivity to those that have vested pensions

1 that were promised a certain benefit that relied upon  
2 those benefits to plan their lives.

3           The few people that I've talked to about this,  
4 colleagues, judges who want to retire or are in the  
5 pipeline, they're shocked. They said this is so unfair.  
6 This is so unjust. Some have used the word "punitive".  
7 How did this happen? Where did it come from?

8           And Mr. Suine has been very responsive I must  
9 say, very cordial, very professional in the dealings that  
10 I have had with him to try to navigate this. But again,  
11 whatever the solution be, my message and purpose for being  
12 here is to say prospective. Fix it and deal with it,  
13 whether it's legislative by rule, regulation, whatever it  
14 be, at a certain point in the future, and not for those of  
15 us that were promised or believed that we are, in fact,  
16 vested in a particular benefit that we're entitled to.

17           So thank you for listening. I appreciate the  
18 comments and the opportunity to be heard.

19           CHAIRPERSON FECKNER: Thank you.

20           MR. DE ALBA: And I want to thank Mr. Suine and  
21 his staff. They've been very gracious.

22           CHAIRPERSON FECKNER: Very good. Thank you for  
23 your comments. Appreciate it.

24           MR. DE ALBA: Thank you.

25           CHAIRPERSON FECKNER: All right. Seeing no other

1 requests to speak. Mr. Suine, thank you.

2 That brings us to Item 6b, Summary of Committee  
3 direction. Mr. Suine, Mr. Moulds.

4 CHIEF HEALTH DIRECTOR MOULDS: I did not have  
5 Committee direction. I think you did, so --

6 DEPUTY EXECUTIVE OFFICER SUINE: I sure did. I  
7 have the Committee direction to research the possibility  
8 to charge employers a rate for employing retired  
9 annuitants into the future and then also just continuing  
10 efforts to address these IRC 415 issues for the judges --

11 CHAIRPERSON FECKNER: Very good.

12 DEPUTY EXECUTIVE OFFICER SUINE: -- through the  
13 various means.

14 CHAIRPERSON FECKNER: Very good. Thank you.

15 That brings us to Item 6c, public comment.  
16 Before I call on the list that I have here, I want to make  
17 a public comment and this is mainly for the health plans.  
18 I've been on this Committee for 24 years, chaired it for  
19 about six or seven of those years, and I will tell you  
20 that over the years, I could look out in the audience and  
21 tell who the health plans were. They -- we had built  
22 relationships. We had talked to folks at the breaks, et  
23 cetera, not during procurement time, not during RFP.

24 But I encourage you to build those relationships  
25 with current Board members. You don't have those now.

1 You have Board members that sit up here and look out and  
2 don't even think the plans are in the audience and that's  
3 a disservice. So I encourage you to bridge that gap. I  
4 mean, over the years, I've actually met with CEOs. I've  
5 met with Bernard, with Steve, Paul, Gary, CEOs of almost  
6 every plan that we've dealt with. Yet, most of the Board  
7 members couldn't tell you who these folks are. So I  
8 encourage you to build those relationships.

9           But more importantly, and the mantra that I've  
10 used for many years, our staff works very hard to do what  
11 they can for our members. Now, frankly, we are probably  
12 one of your single largest plans, you know, your  
13 purchasers. You know, outside of the federal government,  
14 we're the largest supplier of health care. So I imagine  
15 we're a big part of your book of business, so you should  
16 be paying attention to that. But our staff works very  
17 hard to make sure they're getting the best benefit and  
18 bang for the buck for our membership out there. I  
19 encourage you to realize that and do your part as well.

20           As I've said many times over the years, you know,  
21 we don't want to have to come back in May or June and tell  
22 you to redo these things. We want you to get it right the  
23 first time. So bring in your best offers, so it makes it  
24 easier for both you and our staff members.

25           And as I've heard many years as I watched the

1 Indy 500, I heard the comments it used to be gentleman,  
2 start your engines, then it went to ladies start your  
3 engines, then it went ladies and gentlemen, start your  
4 engines. Well, I will tell you, I hope the mantra  
5 continues on this Board. And I know our Vice Chair is  
6 well poised to continue working this forward. But what I  
7 want to be able to hear is, ladies and gentlemen, sharpen  
8 your pencils. Make sure that you're doing it right the  
9 first time.

10 So thank you. And I hope that the message has  
11 been sent, whether you're in the audience or you're  
12 listening on line, I hope that people pay attention to  
13 that, because our members deserve the best that they can  
14 get.

15 So with that, I'm going to move on to my list of  
16 requests to speak and I have Mr. Woodson followed by Mr.  
17 Behrens.

18 MR. WOODSON: Well, I guess I'll start out in a  
19 role reversal. Thank you for your comments, Chairman  
20 Feckner.

21 Good morning again and I want to talk about ACO  
22 REACH, which is a rebranding of the direct contracting  
23 pilot implemented in the last part of the Trump  
24 Administration. And as you know, CSR strongly opposes it,  
25 as have 54 members of Congress in a letter to HHS asking

1 them to halt it. Over 250 local, State, and national  
2 health advocacy groups asking for its halt. As I reported  
3 in my public comments back in June and in a written report  
4 to all of the Board members, it does move CalPERS retirees  
5 out of traditional Medicare and into a plan managed by a  
6 for-profit middle man without the approval or knowledge of  
7 the member.

8 I urge CalPERS to oppose this program and I thank  
9 the Board for directing staff to research it, and with  
10 subject matter experts, and further investigate and report  
11 back. And as a result, staff has scheduled a panel  
12 discussion with SMEs pro and con for the January 17th  
13 Board Education Day. And we much appreciate that effort.  
14 I hope it better informs you of the program's dangers to  
15 approximately 150,000 current CalPERS retirees on TM and  
16 would also close the door to this popular program  
17 eventually to any future retirees.

18 When we saw the schedule for future Pension and  
19 Health Benefit Committee meetings that included the  
20 March -- it included the March Pension and Health Benefits  
21 Committee meeting, and we found no topic on ACO REACH, nor  
22 was it mentioned today. This would be the most logical  
23 meeting in March for the Board to have public discussion  
24 with public comment, since it follows the panel discussion  
25 after which you would presumably in a better informed

1 po -- place to take a position pro, con, or neutral. And  
2 the Board Education Day isn't a vehicle that can --  
3 actually, you can take action, vote, and take public  
4 comments as I understand it or it never has been.

5 So I raised our concerns at the stakeholder  
6 briefing last Thursday, as did Stephanie Hueg, our  
7 President. I'm told by staff that the Board can add to  
8 the March agenda at their discretion, since it's over four  
9 months from now. And I'll be sending all of you and staff  
10 another report on more recent developments on REACH, which  
11 I hope you find as disturbing as we have.

12 Please direct staff to add a discussion of ACO  
13 REACH to the March meeting or even consider a special  
14 February meeting for this topic.

15 Thank you.

16 CHAIRPERSON FECKNER: Thank you.

17 Mr. Behrens.

18 MR. BEHRENS: Chairman Feckner, we're going to  
19 miss you. I always repeat your sharpen the pencil at  
20 least once a year, so -- and your advice to the Board I  
21 thought was outstanding, or the Board members. I hope  
22 they will take you up on that.

23 I'm also talking about the privatization of  
24 Medicare care today. I was told, I thought, two months  
25 ago that it would be an agenda item, an informational item

1 this week. And I must have misunderstood that, because  
2 it's not on the agenda and it hasn't been brought up, and  
3 I haven't heard anybody talk about it.

4 So I would echo Larry's remarks. And even if you  
5 had to have a special meeting in February, I think it  
6 would be well worth it. Our members are very, very  
7 nervous about the possibility of their Medicare being  
8 privatized and run by private equity companies that don't  
9 even have to show any knowledge or ability to have done  
10 something like that before. They just buy their way into  
11 it.

12 I think that we're worried about the quality of  
13 our Medicare services that we've become very comfortable  
14 with going away. So I would urge the health team and this  
15 Committee and the Board to try to get this started, get  
16 some momentum going before the March meeting, so you can  
17 become informed and know why we are so nervous.

18 Thank you for your time.

19 CHAIRPERSON FECKNER: Thank you.

20 Now, next I have Al Darby followed by a phone  
21 call.

22 MR. DARBY: Good afternoon, Mr. Chairman and  
23 Committee. Al Darby, Retired Public Employees Association  
24 Vice President. RPEA joins CSR in opposing ACO REACH for  
25 the very same reasons that were just stated by Mr. Woodson

1 and Mr. Behrens. We believe that this privatized Medicare  
2 Advantage Plan would raise Medicare costs even more than  
3 current Advantage plans that are already exceeding  
4 fee-for-service Medicare costs. So again, we support the  
5 work of CSR and any others who are opposing this proposal.

6 Also, we want to thank Mr. Feckner for his long  
7 service here at the CalPERS Board and his excellent work  
8 at getting the pencils sharpened over at all these  
9 insurance companies that are benefiting so greatly from  
10 this huge, huge source of income for them.

11 So thank you.

12 CHAIRPERSON FECKNER: Thank you.

13 Mr. Teykaerts, we have someone on the line.

14 STAKEHOLDER STRATEGY MANAGER TEYKAERTS: Yes, Mr.  
15 Chair. We have one called on the line. Will Stewart go  
16 ahead.

17 MR. STEWART Hello. Good morning, Mr. Chair and  
18 Board members. Are you able to hear me clearly?

19 CHAIRPERSON FECKNER: We are. Good morning, sir.

20 MR. STEWART: Thank you for this opportunity to  
21 provide comment and request information related to health  
22 insurance for retirees. My name is William Stewart.  
23 Since retiring, I have been offered only one health  
24 insurance plan option, and that option will require that I  
25 pay \$7,727 in premiums next year. If I may offer a

1 nautical analogy, this is similar to a platinum anchor  
2 threatening to drowned me in a sea of insurance premium  
3 debt.

4           So I wish to field a question related to your  
5 suggestion that the companies build relationships. I  
6 would like to do so now and find out who can I speak to  
7 and what steps do State retirees and other retirees such  
8 as myself need to take, so that we can find access to more  
9 affordable health insurance?

10           CHAIRPERSON FECKNER: I would recommend you stay  
11 on the line when you're done talking and give the  
12 information to Mr. Teykaerts who will advance that to the  
13 Health staff.

14           MR. STEWART: Okay. Thank you, sir.

15           CHAIRPERSON FECKNER: You're welcome.

16           Anyone else, Mr. Teykaerts?

17           STAKEHOLDER STRATEGY MANAGER TEYKAERTS: No, Mr.  
18 Chair. That's all.

19           CHAIRPERSON FECKNER: Thank you.

20           I do see I have on other request to speak, Mr.  
21 Ruffino.

22           ACTING BOARD MEMBER RUFFINO: Thank you, Mr.  
23 Chair. And I would like to ask for a point of personal  
24 privilege, if I may, Mr. Chairman.

25           CHAIRPERSON FECKNER: You may.

1           ACTING BOARD MEMBER RUFFINO: Thank you.

2           So quickly, I just wanted to, on behalf of the  
3 Treasurer, Treasurer Fiona Ma, would like to commend Don  
4 Moulds and his team for their aggressive approach to using  
5 CalPERS as a health benefit manager to create innovative  
6 approaches that contains and manage costs for PERS members  
7 and by extension others. These actions are also  
8 maintaining or improving health outcomes.

9           Now, because a prefunding of benefits under  
10 Governor Brown and Newsom, the reduction in Medicare Part  
11 B premiums in 2023, including IRMAA B, and CalPERS  
12 aggressive actions, it appears that CalPERS is bending the  
13 curve on these costs, so that CalPERS members,  
14 particularly retirees, get affordable and quality benefits  
15 which are sustainable.

16           As to the IRMAA issue, because of the reduction  
17 in Part B premiums as well as the bracket changes and the  
18 State increasing per enrollee reimbursements in 2023,  
19 based on what we've seen for 2023, CalPERS Medicare  
20 reimbursement costs should go down substantially. And  
21 those who pay IRMAA surcharges should see a greater amount  
22 of reimbursement.

23           So again, thank you, Mr. Don Moulds, and Ms. June  
24 Ramos for working for our -- with our office on this very  
25 important subject, for your assistance to our Treasurer's

1 office, and for your service to our members.

2 Thank you, Mr. Chair.

3 CHAIRPERSON FECKNER: Thank you, Mr. Ruffino.

4 All right. I turned myself off.

5 Seeing no other requests, we are going to adjourn  
6 the Health Benefits meeting. We are going to now go into  
7 lunch, and we will be back in Finance Administration at  
8 12:45.

9 Everyone have a great Holiday.

10 This meeting is adjourned.

11 (Thereupon California Public Employees'  
12 Retirement System, Pension and Health Benefits  
13 Committee open session meeting adjourned  
14 at 12:02 p.m.)

CERTIFICATE OF REPORTER

I, JAMES F. PETERS, a Certified Shorthand Reporter of the State of California, do hereby certify:

That I am a disinterested person herein; that the foregoing California Public Employees' Retirement System, Board of Administration, Pension and Health Benefits Committee open session meeting was reported in shorthand by me, James F. Peters, a Certified Shorthand Reporter of the State of California, and was thereafter transcribed, under my direction, by computer-assisted transcription;

I further certify that I am not of counsel or attorney for any of the parties to said meeting nor in any way interested in the outcome of said meeting.

IN WITNESS WHEREOF, I have hereunto set my hand this 27th day of November, 2022.

JAMES F. PETERS, CSR
