<sup>1</sup> Private Equity Partnerships time weighted rate of returns are net of investment expenses and are computed by State Street Bank. Market values are based on General Partners' most recent received financial statements and any cash adjustments made through the reporting date. Only partnerships with market values greater than \$50,000 are included in reporting.

<sup>1</sup> Market values and time weighted returns of Real Asset Partnerships are net of investment expenses and are computed by AREIS Investment Book of Record and reflect financial statements received through the end of the reporting period. Only partnerships with asset values greater than \$50,000 are included in reporting.

\*NM (not meaningful) generally applies to instances when a portfolio or partnership is either funding or liquidating. In these instances, any profit and loss relative to a small capital deployed can materially distort time weighted return results.

\*\*Ending Market Value and Total Returns include the impact of CalPERS foreign currency hedges on the underlying Real Assets partnership.
