¹ Portfolios time weighted rate of returns are net of Investment expenses and are computed by State Street Bank. Only portfolios with asset values greater than \$50,000 are included in reporting.

² Market values may reflect the first day of the following month when rebalancing and/or large cashflows occur on the last day of the quarter.

^{*}NM (not meaningful) generally applies to instances when a portfolio or partnership is either funding or liquidating. In these instances, any profit and loss relative to a small capital deployed can materially distort time weighted return results.

^{**}Market value includes notional exposure of derivatives used for trust level financing.

¹ Private Equity Partnerships time weighted rate of returns are net of investment expenses and are computed by State Street Bank. Market values are based on General Partners' most received financial statements and any cash adjustments made through the reporting date. Only partnerships with market values greater than \$50,000 are included in reporting.

^{*}NM (not meaningful) generally applies to instances when a portfolio or partnership is either funding or liquidating. In these instances, any profit and loss relative to a small capital deployed can materially distort time weighted return results.

¹ Portfolios time weighted rate of returns are net of investment expenses and are computed by State Street Bank. Only portfolios with market values greater than \$50,000 are included in reporting.

² Market values may reflect the first day of the following month when rebalancing and/or large cashflows occur on the last day of the quarter.

^{*}NM (not meaningful) generally applies to instances when a portfolio or partnership is either funding or liquidating. In these instances, any profit and loss relative to a small capital deployed can materially distort time weighted return results.

^{**}Market value includes notional exposure of derivatives used for trust level financing.

As of June 30, 2021

¹ Real Assets Partnerships time weighted rate of returns are net of investment expenses and are computed by AREIS Investment Book of Record. Market values are based on General Partners' most recent received financial statements and any cash adjustments made through the reporting date. Only partnerships with market values greater than \$50,000 are included in reporting.

^{*}NM (not meaningful) generally applies to instances when a portfolio or partnership is either funding or liquidating. In these instances, any profit and loss relative to a small capital deployed can materially distort time weighted return results.

^{**}Market value and total return includes the impact of CalPERS foreign currency hedges on the underlying Real Assets partnership.

As of June 30, 2021

¹Real Assets Partnerships time weighted rate of returns are net of investment expenses and are computed by AREIS Investment Book of Record. Market values are based on General Partners' most recent received financial statements and any cash adjustments made through the reporting date. Only partnerships with market values greater than \$50,000 are included in reporting.

^{*}NM (not meaningful) generally applies to instances when a portfolio or partnership is either funding or liquidating. In these instances, any profit and loss relative to a small capital deployed can materially distort time weighted return results.

^{**}Market value and total return includes the impact of CalPERS foreign currency hedges on the underlying Real Assets partnership.
