

**ATTACHMENT C**  
**RESPONDENT'S ARGUMENT**

February 4, 2014

To all Board Members:

After having received the response from the judge, I understand that he must go by the letter of the law. You as a board have more leeway.

A year ago September, I brought to your attention the pamphlet that was sent home regarding new coverage options. It said that "disabled dependents of any age" can now be covered under my insurance. As you see my daughter is eligible since she became disabled as of November 1, 2006.

With regard to the age question, she did not qualify to be re-instated due to age constraints, namely that in 2010 when the age was moved up the 26 years old to continue coverage, she was already 28 years old.

I am asking you to consider, after reviewing all the facts in the case, to allow my daughter to be placed on my insurance. I would ask you to stand behind your written word and show that in a large company, there is compassion and understanding. By allowing my request for my daughter to receive coverage under my insurance, you are showing that an individual has a voice that you listen to and consider important.

Thank you for your time.

Sincerely,

Lynn Tremolada
