PEPRA Exceptions: Transit Employees. This bill was gutted and amended in the Senate to extend the current exemption for California transit employees of public employers from all the provisions of the Public Employees' Pension Reform Act of 2013 (PEPRA) by one year, until January 1, 2016, pending a ruling from the federal district court with regard to whether or not the implementation of PEPRA impacted the collective bargaining rights of transit workers. The bill has an urgency clause and would go into effect immediately.

SB 1182 (Leno) Enrollment: 8/29/2014

Large Group Health Market: Data Disclosure. This bill was amended in the Assembly to delete the provisions of the bill that require health plans and insurers to submit to regulators for rate review of any large group plan contract or policy rate increases that exceed 5 percent of the prior year's rate. Now the bill only requires a health care service plan or health insurer to provide de-identified claims data to a large group purchaser upon request, if the purchaser is able to demonstrate its ability to comply with state and federal privacy laws and is either an employer with enrollment of greater than 1,000 covered lives (at least 500 of which are enrolled with the health plan or insurer) or a multiemployer trust with enrollment of greater than 500 lives (at least 250 of which are enrolled with the health plan or insurer). With these amendments, CalPERS changed its position from Support, If Amended to Support.
