STRATEGIC PLAN

This agenda item supports Goal B of the CalPERS 2012-2017 Strategic Plan, which is to cultivate a high-performing, risk-intelligent and innovative organization. Through the Mid-Year Budget process, budget adjustments aid in addressing and mitigating budget risks to ensure sufficient funding to meet operational requirements and the continued delivery of quality and efficient service to our members and employers.

BACKGROUND

The purpose of the Mid-Year Budget process is to address enterprise critical, unforeseen, and emergency resources not included in the FY 2014-15 Annual Budget. Examples may include requests to address new legislative mandates, compliance with new laws or regulations, or new Board initiatives. All Formal Budget Requests submitted during the mid-year process are required to meet these criteria for consideration and inclusion in the mid-year budget process.

The mid-year budget process also provides an opportunity to review the current forecasted projections and present adjustments to the authorized budget to provide information that shapes a more realistic forecast based on current actual results and anticipated costs for the remainder of the fiscal period.

Those submissions that were not included in this request were either deferred to the annual budget process because they did not meet the criteria or resources were identified from within.

ANALYSIS

The attachment for the FY 2014-15 mid-year budget revisions outlines in detail the identified costs and offsetting savings associated with the forecasted changes to the proposed FY 2014-15 Mid-Year Budget.

BENEFITS/RISKS

The approval of the proposed FY 2014-15 Mid-Year Budget will provide necessary funding to support benefits for staff and meet enterprise needs. It also reflects the anticipated adjustments necessary to more accurately reflect the forecasted costs for the 2014-15 budget year while still meeting the commitments contained in the original submission.

The risk of not approving the proposed Mid-Year Budget revisions could potentially inhibit the organization's ability to achieve the initiatives and meet the strategic goals and objectives of the enterprise as set out in the CalPERS 2013-15 business plan.
