Changes made to the Global Equity Policy based on the Investment Committee's feedback are denoted by track changes within Attachment 1.

Staff seeks approval of the Global Equity Policy to align with the Total Fund Investment Policy and to simplify the policy through the removal of procedures.

STRATEGIC PLAN

This agenda item supports the CalPERS Strategic Plan to improve long-term pension and health benefit sustainability. The review of the revised policy will ensure that CalPERS is able to effectively achieve the System's investment objectives through clear and current investment policy documentation.

INVESTMENT BELIEFS

This agenda item supports CalPERS Investment Belief 9, Risk to CalPERS is multi-faceted and not fully captured through measures such as volatility or tracking error, and Belief 10, Strong processes and teamwork and deep resources are needed to achieve CalPERS goals and objectives.

BACKGROUND

Investment Policy Development was identified as being at a medium risk during Fiscal Year 2013-2014 and as such the Project became a key initiative of both the 2014-16 Investment Office Roadmap and Target Operating Model (TOM). As part of that initiative, in March 2015, the Committee approved the adoption of the Total Fund Investment Policy while repealing 14 legacy investment policies. The adoption of the new Total Fund Investment Policy allowed for minimizing complexity, improving transparency, and strengthening processes, systems, governance, and controls. The next phase of the Project is to incorporate revisions to the asset class policies aligning Global Equity with the Project's objective of consolidation, clarity, and standardization.

ANALYSIS

Incorporating these revisions will continue the policy simplification process while aligning the Global Equity Policy with the Total Fund Investment Policy, eliminating procedural or duplicative language and reducing operational risks by more clearly defining the Committee's desires and intentions with respect to staff's role in implementing the policy.
