

**California Public Employees' Retirement System
Investment Policy for
Global Fixed Income Program**

Effective Date **November 16, 2015**

This Policy is effective immediately upon adoption and supersedes all previous Global Fixed Income Program and Credit Enhancement Program policies.

Introduction

The California Public Employees' Retirement System (CalPERS) Total Fund Investment Policy, adopted by the CalPERS Investment Committee (Committee), sets forth CalPERS overarching investment purposes and objectives with respect to its investment programs, including, but not limited to, investment beliefs, performance, asset allocation, benchmarks, risk management, derivatives, leverage, and divestment.

This document sets forth the investment policy (Policy) for the Global Fixed Income Program (Program). The design of this Policy ensures that Staff, investors, managers, consultants, and other participants selected by CalPERS take prudent and careful action while managing the Program. Additionally, use of this Policy assures sufficient flexibility in managing investment risks and returns associated with the Program.

This Policy should be read in conjunction with and is subject to conditions contained within the CalPERS [Total Fund Investment Policy](#). This Policy shall also be managed to comply with all applicable Investment Office policies.

Strategic Objective

The Program seeks to diversify and reduce overall risk for CalPERS investment programs while enhancing CalPERS total returns.

Responsibilities

Details regarding various levels of responsibility for this Program are provided in Appendix 1, Reporting to the Investment Committee, and Appendix 2, Investment Responsibilities.

Ranges for Domestic and International Programs relative to the benchmark are listed below.

Domestic Program	-10% - +10%
International Program	-10% - +10%

California Public Employees' Retirement System
Global Fixed Income Program Policy Appendices

Dollar-Denominated Fixed Income Program

Interest Rate Risk must be controlled using duration management. Duration shall be maintained at -50% to +10% of the Barclays Capital Long Liabilities (BCLL) Index on an option-adjusted basis. Decisions shall be managed using historical real return relationships and economic analysis.

Sector Risk must be controlled using the ranges below. Based on the economic outlook, historical factors, and break-even analysis, Staff shall estimate the impact on various sectors' spreads and make allocations accordingly.

Sector Ranges – the following are ranges by which actual allocations can fluctuate from the benchmark sector weightings.

Total Domestic Program Weightings

Sector	BCLL Index	Permitted Sector Ranges
U.S. Treasury & Government Sponsored	40%	10% - 80%
Mortgage	30%	15% - 45%
Corporate	24%	10% - 40%
Opportunistic	3%	0% - 12%
Sovereign	3%	0% - 10%
Total	100%	N/A

International Fixed Income Program

Interest Rate Risk must be managed by the Manager within -50% to +10% of the benchmark duration

Sector Risk will be controlled using the ranges below. Managers are responsible for determining appropriate allocations based on market analysis.

Sector Ranges – The following table specifies ranges within which allocations can fluctuate from benchmark weights:

Total International Program Weightings

Sector	Benchmark	Permitted Net Ranges
U.S. Treasury (ex TIPS)	0%	-10% - +10%
Governments (ex US)	100%	90% - 100%
Investment Grade Corporate	0%	-10% - +10%
Mortgages	0%	0% - +10%
Non-Investment Grade Corporate	0%	0% - 5%
Total	100%	N/A

Note: The total of non-government securities cannot exceed 10% of the total International Program.

Appendix 3
Investment Constraints/Limitations

The following tables provide details regarding investment constraints/limitations related to the following programs:

- Commodities
- Inflation-Linked Bonds

Program Allocation Targets and Ranges

Allocations are expressed as a percentage of the Inflation Assets Program

Component	Target	Range
Commodities	25%	0% - 75%
Inflation-Linked Bonds (ILB)	75%	25% - 100%

Commodities Program

Sector risk will be mitigated by maintaining net option-adjusted commodities exposures within +/- 20% points of benchmark weights

Inflation-Linked Bond Program

Interest Rate Risk is the price volatility produced by changes in the overall level of interest rates as measured by option-adjusted duration. Duration shall be maintained at -50% to +10% of the benchmark duration.

Permitted Investments and Ranges

ILB Program targets and permissible ranges as a percentage of the total portfolio are:

Sector	Policy Target	Permitted Range
Total investment grade inflation-linked government bonds	100%	80% - 100%
U.S. inflation-linked bonds	67%	52% - 82%
Investment grade international inflation-linked bonds	33%	18% - 48%
Non-government investment grade inflation-linked bonds	0%	0% - 10%
Investment grade nominal government bonds	0%	0% - 15%
Short-term fixed income	0%	0% - 10%
Non-investment grade inflation-linked government bonds	0%	0% - 5%

The market value of non-benchmark investments, defined as the sum of the last four rows of the above table, shall not exceed 20% of the ILB Program.

Investment Policy for
Securities Lending**

Effective Date **November 16, 2015**

This Policy is effective immediately upon adoption and supersedes all previous Securities Lending policies.

Introduction

The California Public Employees' Retirement System (CalPERS) Total Fund Investment Policy, adopted by the CalPERS Investment Committee (Committee), sets forth CalPERS overarching investment purposes and objectives with respect to its investment programs, including, but not limited to, investment beliefs, performance, asset allocation, benchmarks, risk management, derivatives, leverage, and divestment.

This document sets forth the investment policy (Policy) for the Securities Lending Program (Program). The design of this Policy ensures that Staff, investors, managers, consultants, and other participants selected by CalPERS take prudent and careful action while managing the Program. Additionally, use of this Policy assures sufficient flexibility in managing investment risks and returns associated with this Program.

The Program is comprised of two separate functions: (1) lending both equity and fixed income securities to borrowers and, (2) reinvesting the cash collateral posted by borrowers.

CalPERS expects strict conformity with this policy and shall let market mechanics determine the demand for securities and resulting incremental income. It is intended that the Program shall generate income primarily from fees from loans and secondarily through a low risk collateral investment strategy.

This Policy should be read in conjunction with and is subject to conditions contained within the CalPERS [Total Fund Investment Policy](#). This Policy shall also be managed to comply with all applicable Investment Office policies.
