Mr. Jensen

I also have not concluded my case preparation, and as I will be preparing and attending a complex multi-day hearing next week I may not be able to get back to you later. However, since your client should have the burden of proof in this matter, I assuming you will be presented your case first, followed by Chino. This should make it convenient for you to schedule your witnesses and presentation of evidence.

Your September 30, 2014, e-mail was the first indication that you were seeking a witnesses from CalPERS, (let alone the Chief of the Benefits Division.) I appreciate your offer that Mr. Suine need not appear, if a PMK does attend the hearing. I have not been able to identify who, or if, such a person can be available on such short notice. I do intend to bring a knowledgeable program representative and, to the extent the request is understood, am willing request hat to the extent they understand the request, that the bring with him/her any relevant, non-privileged, documents. I hope and assume given the brevity of the notice, that this is acceptable to you.

I suggest that we following the usual marking of exhibits with CalPERS using numbers and respondents using letters. If you would prefer to use numbers as well, I suggest they be Marked "RA".

I look forward to working with you on this matter.

Best Regards,
