CalPERS Budget Policy

Introduction The CalPERS budget is an annual financial plan and its purpose is to promote the long-term economic sustainability and responsible resource allocation to meet the CalPERS' mission of providing and maintaining retirement and health security for its members.

As a financial plan, the budget is the tangible translation of CalPERS' mission, vision and values into practical actions and service delivery. The budget is made up of five budgetary funds: Operating, Enterprise Projects, Headquarters Building, Investment External Management Fees, and Third-Party Administrator Fees, that comprises the CalPERS' total budget.

The annual budget year is for the twelve month period from July 1st to June 30th.

Strategic Objective

The objective of this Policy is to set out the budgeting principles for the preparation of the budget, the process for the budget formulation and the responsibilities in the preparation, approval, and implementation of the total budget.

The budget process consists of activities that encompass the development, implementation, and evaluation of a multi-year financial plan for the provision of services that allocate resources on the basis of identified goals. An effective budget process, includes the following principles:

- Incorporates a long-term perspective,
- Establishes linkages to the CalPERS' Strategic Plan and its' organizational goals,
- Focuses budget decisions on results and outcomes,
- Involves and promotes effective communication throughout the budget process, and
- Maintains fiscal controls over the management of resources and operating efficiencies.

The CalPERS' total budget expresses, in terms of dollars, the funded programs and plans of CalPERS for the budget year and the respective trusts necessary to finance these programs and plans. The budget is a primary instrument of fiscal control and accordingly, under the direction of the Chief Financial Officer ("CFO"), the CalPERS' Financial Office is responsible for the development and monitoring of the CalPERS' annual total budget.

Policy

This document sets forth the fiscal policy for the administration of the budget to ensure that the budgeting practices of the organization recognize the fiduciary duty owed to its members.

The Finance and Administration Committee (“Committee”) intends for the Policy to be a dynamic document which will be reviewed annually and modified periodically to reflect staff and Committee recommendations for changes to the Policy.

Process

The annual budget process is integrated with the short and long range planning processes of the CalPERS organization. The enterprise will maintain a fiscally sustainable budget that translates the intentions of the CalPERS’ Strategic Plan objectives into an itemized, authorized, and systematic plan of operation.

Preparation of the annual operating budget is coordinated through the Financial Office under the direction of the CFO. It is the intent of the enterprise that budget preparations involve staff responsible for program operations to the level of the division/support unit. The Financial Office is available as a resource to provide accurate financial data and participate in division’s budget discussions.

Each division is responsible for submitting budget requests which are presented to the Executives for review and submitted to the Financial Office for analysis. After review and analysis of the preliminary budget data, budget adjustments are made and the budget is prepared for submission to the Committee for review and approval.

Two formal budget processes occur during the fiscal year; an annual budget process and a mid-year review. While the annual budget process is designed to develop the twelve month budget for approval prior to the start of the fiscal year, the mid-year budget review is to address enterprise critical, unforeseen, and emergency resources not included in the current fiscal year budget. The mid-year budget approvals are effective January 1st of that current fiscal year.

Both the annual and mid-year budget requests go through a formal submission process and are required to meet established criteria for inclusion prior to submission to the Committee and CalPERS Board of Administration (Board) for approval.

Responsibilities It is the responsibility of CalPERS' management to maintain an effective formal budget review and approval process with the appropriate system of internal controls that is in compliance with all applicable laws and regulations.

In accordance with the Finance and Administration Committee Delegation Resolution, the Committee is authorized to:

- Oversee the budget process, and
- Approve enterprise-wide budgets and resource allocations.

Upon recommendation by the Committee, the CalPERS Board provides approval of all authorized appropriations and staffing levels.

Divisions are responsible for:

- Developing operating and formal budget requests (FBR) with a long-term perspective and reference to the CalPERS' Strategic and Business plans.
- Streamlining of workflows and efficiencies to ensure activities and resources are allocated to meet the organization's highest priorities.
- Providing information deemed necessary to prepare the budget.
- Review, monitor, and control expenditures such that the rate of expenditures does not exceed the approved budget.
- Prepare and submit to the Financial Office on a quarterly basis, a forecast of yearly expenditures to date.

The Financial Office is responsible for:

- Gathering, analyzing, and preparing the total budget for review by Executives and the Committee for approval by the CalPERS Board.
- Monitoring the CalPERS' total budget.
- Providing monthly management and status reporting, and forecast planning to adapt to changing circumstances and applying appropriate cost allocation methods.
- Providing quarterly projections and forecasting reporting to divisions, which assures the organization is operating within the authorized resources approved by the CalPERS Board.
- Preparing semi-annual budget report for the Committee on the budget to actual figure results.
