Review of ESG Strategy
Social Theme:
Human Capital

Investment Committee, April 2016
Objectives

- Seek Investment Committee feedback on Environmental, Social and Governance (ESG) Strategic Priorities with particular focus on the “S”
- Conduct an in-depth review of our proposed focus on human capital
- Initiate discussion of potential key performance indicators (KPIs)
## Recommended Strategic Priorities: ESG

Work through Partnerships to leverage resources and impact
2015 Timeline: Global Governance Principles Review

**April**
- Global Governance Policy Ad Hoc Subcommittee

**May**
- Global Governance Policy Ad Hoc Subcommittee

**June**
- Global Governance Policy Ad Hoc Subcommittee

**July**
- Board Offsite

**September**
- Global Governance Policy Ad Hoc Subcommittee

**October**
- Global Governance Policy Ad Hoc Subcommittee

**November**
- Global Governance Policy Ad Hoc Subcommittee

**December**
- Global Governance Policy Ad Hoc Subcommittee

- Investment Beliefs
- Review of Implementation

- Review: Section A – Core Principles of Global Governance Principles

- Election of Global Governance Ad Hoc Policy Subcommittee Chair and Vice Chair
- Review overall Structure of Statement of Investment Policy for Global Governance Principles

- Investment Committee: Establishment of Global Governance Ad Hoc Subcommittee

- Review: Draft of Global Governance Principles alignment with Program Core Issues

- Review: Framework of the Program Core Issues of Global Governance Principles – Second Reading

- Review: Framework of the Program Core Issues of Global Governance Principles – Third Reading
- Review: Legislative and Policy Engagement Guidelines for Investments
- Discussion on CalPERS Board Representation on Third Party Organizations

- Revision of Global Governance Policy and Principles – Fourth Reading
- Discussion and Consideration of Establishing a Permanent Subcommittee
2016 Timeline for Developing a 3-5 Year Strategic Plan

- **January 2016**: Board Offsite
- **February 2016**: Investment Committee
- **March 2016**: Investment Committee
- **April 2016**: Investment Committee
- **May 2016**: Investment Committee
- **June 2016**: Investment Committee
- **July 2016**: Board Offsite
- **August 2016**: Investment Committee

**Focus on Human Capital**
- Discuss key performance indicators

**Focus on Climate Change**
- Discuss key performance indicators

**2015 Q4 Proxy Voting Report**
- 2016 Proxy Voting Plan Description

**Present current strategy with focus on ESG**
- Consider the market
- Discuss integration

**Finalize key performance indicators**
- Review initiatives based upon the Investment Committee's feedback
- Divide initiatives into strategic and legacy activity

**Focus on Alignment of Interest**
- Discuss key performance indicators

**Adoption of Strategic Plan and key performance indicators**
- Seek final guidance on the Global Governance 3-5 Year Strategic Plan and key performance indicators
Investment Beliefs

CalPERS’ Investment Beliefs frame our fiduciary approach to human capital.

Investment Belief 3

CalPERS investment decisions may reflect wider stakeholder views, provided they are consistent with its fiduciary duty to members and beneficiaries.

• In considering whether to engage on issues raised by stakeholders, CalPERS will use the following prioritization framework:
  – **Principles and Policy** – to what extent is the issue supported by CalPERS Investment Beliefs, Principles of Accountable Corporate Governance or other Investment Policy?
  – **Materiality** – does the issue have the potential for an impact on portfolio risk or return?
  – **Definition and Likelihood of Success** – is success likely, in that CalPERS action will influence an outcome which can be measured? Can we partner with others to achieve success or would someone else be more suited to carry the issue?
  – **Capacity** – does CalPERS have the expertise, resources and standing to influence an outcome?
Investment Beliefs

Investment Belief 4

Long-term value creation requires effective management of three forms of capital: financial, physical, and human.

- Strong governance, along with effective management of environmental and human capital factors, increases the likelihood that companies will perform over the long-term and manage risk effectively.

- CalPERS may engage investee companies and external managers on their governance and sustainability issues, including:
  - Governance practices, including but not limited to alignment of interests
  - Risk Management practices
  - Human Capital practices, including but not limited to fair labor practices, health and safety, responsible contracting and diversity
  - Environmental practices, including but not limited to climate change and natural resource availability
Investment Beliefs

Investment Belief 7

CalPERS will take risk only where we have a strong belief we will be rewarded for it.

- An expectation of a return premium is required to take risks; CalPERS aims to maximize return for the risk taken.
- Markets are not perfectly efficient, but inefficiencies are difficult to exploit after costs.

Investment Belief 8

Costs matter and need to be effectively managed.

- CalPERS will balance risk, return and cost when choosing and evaluating investment managers and investment strategies.
Investment Beliefs

Investment Belief 9
Risk to CalPERS is multi-faceted and not fully captured through measures such as volatility or tracking error.

- CalPERS shall develop a broad set of investment and actuarial risk measures and clear processes for managing risk.
- As a long-term investor, CalPERS must consider risk factors, for example climate change and natural resource availability that emerge slowly over long time periods, but could have a material impact on company or portfolio returns.

Investment Belief 10
Strong processes and teamwork and deep resources are needed to achieve CalPERS goals and objectives.

- Diversity of talent (including a broad range of education, experience, perspectives and skills) at all levels (Board, staff, external managers, corporate boards) is important.
Current Strategy on ESG

- **Environmental**
  - Climate Risk

- **Social**
  - Human Capital

- **Governance**
  - Alignment of Interest

Our approach utilizes three channels supported by partnerships:

- **Integration**
- **Engagement**
- **Advocacy**
- **Partnerships**
Human Capital | Risks and Opportunities

“Demographically diverse groups are exposed to a wider range of perspectives than homogenous groups, but diversity can also lead people to process evidence more accurately, and to discuss controversial and polarizing issues.”

Tufts University, Research & Publications, Race & Interpersonal Processes

“A ‘high degree of groupthink’ was identified as contributing to the International Monetary Fund’s failure to correctly identify the risks leading up to the worldwide financial crisis.”

“Companies in the top quartile for racial and ethnic diversity are 35 percent more likely to have returns above their respective national industry medians.”

“Beyond gender, other dimensions of diversity are also found to be good for business: race, board member background, LGBT identity, nationality.”

Catalyst, *Why Diversity Matters*, (July 2013)
Board Diversity | S&P 500 Companies

Despite increased attention to board diversity, progress has been slow.

Board Diversity | S&P 500 Companies

Sources: 2015 Spencer Stuart Board Index
**Human Capital Focus | Overview**

To fulfill CalPERS' fiduciary duty by:

- Understanding and managing investment risks and value drivers related to human capital that contribute to long-term sustainable returns.

### Advocacy

- Data and Corporate Reporting standards (includes Human Capital metrics)
- SEC
  - Board Diversity Petition
  - Disclosure Effectiveness Initiative

### Engagement

- Diversity and Inclusion
  - Board Diversity
  - Engage selected companies
  - Diverse Director DataSource (3D)
- Supply Chain Activities
  - Human Capital Management Coalition
- Income inequality (placeholder)
- Principles and Proxy Voting
  - Proxy Access Focus on Diversity

### Integration

- Responsible Contractor Policy
- INVO's Diversity and Inclusion Steering Committee
  - Emerging Manager five-year plan
  - INVO Talent Management Initiative
  - Board Diversity
- Manager Expectations Pilot
- Sustainable Investment Research Initiative (SIRI) refresh (Diversity and inequality are new areas focus)
Advocacy | Board Diversity

Objective

- Advocate for rulemaking, data and corporate reporting standards to improve disclosure on board diversity and inclusion.

Initiative

- Promote the SEC Diversity Petition – disclosure standards around the board diversity matrix.
- Data and corporate reporting and disclosure – to include board diversity and inclusion.

Ensure boards have strategies to address:

- Board diversity
- Board tenure
- Policies and practices
- Matrix disclosures around board skills sets and company strategy

Potential Key Performance Indicator

- The SEC includes Board Diversity disclosure in its work plan.
- Accounting standard setters include Board Diversity disclosure standards in work plans.
Proposed Timeline | Advocacy

Year 1

- Include Board Diversity petition initiative in advocacy activities working with peer funds
- Continue active responses within the SEC Disclosure Effectiveness initiative focused on diversity related data and corporate reporting

Year 2

- Support Sustainability Accounting Standards Board (SASB) in the development of integrated reporting initiatives including the American Institute of CPAs (AICPA) that support enhanced transparency on board diversity information
- Continue work on SEC Disclosure Effectiveness focused on diversity issues and other issues that support healthy board turnover

Year 3

- Continue advocacy for enhanced data and corporate reporting and disclosures around board diversity information in line with diversity petition matrix information
- Continue work on SEC Disclosure Effectiveness focused on diversity issues and other issues that support healthy board turnover
- Advocate for listing standards on board tenure and diversity disclosure that are in-line with Principles

Years 4-5

- Review status of board diversity advocacy and SEC Disclosure Effectiveness work and develop plans for next advocacy phase
- Execute on plans developed in year 4
Engagement | Board Diversity

Objective

- Fulfill our fiduciary responsibilities with a targeted focus on companies that continue to lack board diversity in order to improve board quality.

Initiative

- Develop an engagement list of companies lacking board diversity.
- Use engagement and shareowner campaigns (proxy access) success to push for diverse boards.

Ensure the companies have strategies in place to improve board quality including:

- Board diversity
- Board tenure
- Rigorous board evaluations
- Independence
- Competence
- Matrix disclosures around board skill sets
- Charters (nominating committee)

Potential Key Performance Indicator

- Disclosure of company board diversity strategies.
Engagement | Supply Chain Activities

Objective

• Focus on managing human capital risk and opportunity through engaging companies regarding supply chain.

Initiative

• Partner with the Human Capital Management Coalition to develop a focused engagement list.

Engage companies to ensure that those companies have strategies in place to address:

– Universal Human Rights
– Diversity & Equal Employment Opportunity
– Freedom of Association
– Fair Competition

– Safe and Healthy Workplace
– Eliminating all forms of forced and compulsory labor
– Elimination of harmful labor practices or use of child labor

Potential Key Performance Indicators

• Companies disclose policies on how they monitor, measure and manage supply chain risk.

Source: p. 24, CalPERS Global Governance Principles,
Engagement | Established Managers

Objective

• Develop and implement an Established Manager D&I Engagement Strategy.

Initiative

• Establish strategic manager D&I outreach, engagement and reporting initiative.
  - Survey managers for diverse staff in key associate, management, and leadership roles
  - Engage managers on diversity and inclusion policies, initiatives and outcomes
  - Consider establishing a partnership initiative with an established manager(s) to increase the diversity of pipeline of talent entering financial services

Potential Key Performance Indicators

• Manager survey report.
• Engagement with established managers.
Proposed Timeline | Engagement

**Year 1**
- Generate an engagement focus list of companies to address diversity
- Use proxy access in partnership with others to promote diverse boards
- Facilitate enhancement of Diverse Director DataSource (3D)
- SIRI research complete
- Assessment of whether an action plan is warranted

**Year 2**
- Use proxy access in partnership with others to enhance board diversity
- Support Diverse Director DataSource (3D)
- Work with the Human Capital Management (HCM) Coalition to identify companies for engagement
- Develop an action plan supported by the research and consistent with Investment Beliefs

**Year 3**
- Engage companies with zero diversity where change would have the most impact on CalPERS
- Develop additional supply chain related relationships to further conduct due diligence on supply chain activities

**Years 4-5**
- Broaden board diversity work by industry
- Use proxy access in partnership with others to enhance board diversity
- Complete engagement of zero diversity companies and review
Integration | Manager Expectations

Each asset class has draft Sustainable Investment Practice Guidelines (Guidelines) describing how staff and external managers are expected to approach ESG considerations in investment processes.

Objective

• Integrate material human capital factors into assessing risk and opportunity in investment decision-making across the Total Fund.

Initiative

• Continue improving the Guidelines for how each asset class expects staff to incorporate sustainability risk and opportunity considerations into manager selection (and asset selection where relevant), contracting, monitoring and managing.

• Human capital factors include human rights, diversity, health & safety. (Source: Principles for Responsible Investment)

Potential Key Performance Indicator

• Develop metrics to track implementation of the Guidelines in contracting, monitoring and managing. (For example, percentage of new contracts with ESG requirements or % and frequency of existing portfolio assessment for human capital risks)

• Relevant factors identified and integrated across the portfolio.
Integration | Responsible Contractor Program

Objective

• Continue administration of the Responsible Contractor Program (RCP) Policy and Neutrality Trial Program in the Real Assets portfolio.

Initiative

• Continue to engage with stakeholders, address labor issues, and report to the Investment Committee on activities under the Policy.

- Prepare RCP report under the revised Policy to be presented to the Investment Committee in December.

- Engage with labor representatives and Real Assets managers on revised Policy and any related issues.

Potential Key Performance Indicators

• Present annual reports to the Investment Committee.

• Resolution of formal complaints.
Integration | Diversity & Inclusion Talent Management

Objective

• Establish and implement Talent Management initiatives under the INVO D&I 2020 Plan

Initiative

• Implement and conduct regular reviews of Strategic Partner Plan.
• Draft and implement INVO D&I Education and Training Plan.
• Establish a communication strategy to improve staff awareness and understanding of Talent Management initiatives under the INVO D&I 2020 Plan.

- Increase the pool of qualified diverse applicants for open positions in INVO
- Identify training opportunities
- Network with diverse organizations
- Provide regular staff D&I updates via email and at INVO All-Staff Meetings

Potential Key Performance Indicators

• Increase diversity in pools of candidates as a result of Strategic Partnerships.
• Finalize and implement Talent Management plans, which will include additional KPIs.
Integration| Emerging Manager Five-Year Plan

Objective

• Continue initiatives under the *Emerging Manager Five-Year Plan—Pathway to the Future* which provides a strategic framework to guide CalPERS’ investments and engagement with emerging investment managers.

Initiative

• Finalize appropriate initiatives, continue on-going efforts, and establish new work to be undertaken under the Plan.

- Report performance of updated and revised emerging manager programs
- Track and report exposure to, and diversity of, CalPERS Emerging and Transition Managers

- Strengthen and maintain CalPERS presence in emerging and diverse manager networks
- Initiate legislative efforts to extend the Plan

Potential Key Performance Indicators

• Report to Investment Committee and transmit annual updates as required to the Legislature.
• Establish framework for process and deployment of new capital to emerging and transition managers.
• Report to Investment Committee year over year exposure to emerging and transition managers.
• Evaluate and seek legislative approval for extension of the Plan.
Proposed Timeline | Integration

**Year 1**
- Develop INVO D&I 2020 Plan;
- Complete first Annual Report under the revised 2015 RCP Policy;
- Pilot Manager Expectations.

**Year 2**
- Begin implementation of INVO D&I 2020 Plan;
- Develop INVO D&I Talent Management Plan;
- Draft and implement D&I Staff Education and Training Plan;
- Establish a Communication Strategy to Improve Staff Knowledge of D&I Initiatives;
- Assess Strategic Partner Plan;
- Host a CalPERS Diversity Forum.

**Year 3**
- Engage Managers on Diversity and Inclusion Policies, Initiatives and Outcomes;
- Implement Staff Education and Training Plan;
- Survey managers on diversity of key positions and Diversity and Inclusion practices.

**Year 4 - 5**
- Host a CalPERS Diversity Forum / Event;
- Survey Managers for diverse ownership;
- Establish partnership initiative to increase diversity of pipeline of talent entering financial services.

5. HCM Coalition Engagement Framework
6. Integration Focus: Manager Expectations
7. Sustainable Accounting Standards Board – Human Capital Topics and Metrics
B. Board Quality: Diversity, Independence and Competence

9. Board Talent Assessment and Diversity:

The board should facilitate a process that ensures a thorough understanding of the diverse characteristics necessary to effectively oversee management's execution of a long-term business strategy. Board diversity should be thought of in terms of skill sets, gender, age, nationality, race, sexual orientation, gender identity, and historically under-represented groups. Consideration should go beyond the traditional notion of diversity to include a more broad range of experience, thoughts, perspectives, and competencies to help enable effective board leadership.

3. Current Work | Diversity Engagements

CalPERS/CalSTRS 2014 joint letter to California companies with no women on the Board according to UC Davis study:

- Companies added a woman director: 34
- Companies continuing engagement: 92
- Companies no longer listed (M & A, etc.): 34

Total Companies: 160

Data as of January 2016
The Human Capital Management Coalition, of 24 institutional investors, including CalPERS, frames its engagement of companies on supply chain issues around the following:

| Board Oversight – Tone at the Top | • How does the Board ensure that its expectations on human capital management are reflected throughout the management chain?  
• What have been the Board’s priorities on human capital management in the past year, and what are its priorities going forward? |
| Performance/Long-Term Value Creation & Operational Integration | • What metrics does the Company view as the main material drivers of long-term shareholder value-creation? Which of these metrics does the Company view as directly related to human capital management practices as long-term value drivers? |
| Incentives and Compensation Structure | • What specific incentive metrics are in place to encourage proper human capital management and risk oversight? |
| Data Collection, Risk Management, and Accountability through Employee Engagement | • What methods does the Company use to collect information from, and otherwise communicate with, its employees?  
• Is the Board provided with any information (report, stats, etc.) on this feedback? By whom? How is it integrated in the Board’s decision-making process?  
• Does the Company collect information on human capital management and HCM risks in its supply chain? |
| Investor Engagement and Disclosure | • Are operational changes to address human capital management risk mitigation disclosed internally and/or externally? |
5. Integration Focus | Manager Expectations (pilot)

Each asset class’ Sustainable Investment Practice Guidelines (Guidelines) lay out how they are approaching ESG integration, through the Manager Expectations pilot.

Examples of the practices delineated in the Guidelines include:

- All Asset Classes include results of reviewing a potential manager’s policies and responses to ESG questions as a factor in the investment decision-making process.

- All Asset Classes seek to include sustainability requirements into contracts regarding manager’s Sustainable Investment processes and reporting.

- Global Fixed Income staff completes a quantitative and qualitative assessment of the Corporate Investment Grade portfolio vs the Barclays Long Liability Index on a quarterly basis using MSCI’s database of ESG factor risks.

- Real Assets uses monitoring tools (such as ULI GreenPrint and GRESB Infrastructure) to monitor sustainability performance of assets and managers.
SASB Human Capital Topics and Metrics

Summary Information for CalPERS
March 30, 2016

© 2016 SASB™
## Human capital risk categories

SASB has identified four categories of human capital risk that can impact company value:

<table>
<thead>
<tr>
<th>Human Capital Risk</th>
<th>Definition</th>
<th>Potential Impact on:</th>
</tr>
</thead>
</table>
| **Occupational Health & Safety**                | Employees and contractors have a right to a safe work environment, including protection from any known dangers – that could result in illnesses, injuries or fatalities – and from the long term effects on human health and wellbeing of occupational hazards.                                                                                     | - Workforce productivity  
- Fines and penalties  
- Contingent liabilities |
| **Diversity & Inclusion**                       | Diversity refers to the individual differences existent in a company’s workforce; these can be based on several factors including gender and race. Inclusion refers to bringing together and harnessing these differences in a way that is beneficial for companies.                                                                                       | - Market share  
- Workforce productivity |
| **Labor Relations & Practices**                 | Employees have a right to join with co-workers to address work-related topics and improve working conditions. Labor relations refers to the management of unionized employees, collective bargaining agreement negotiations and the prevalence of work stoppages. In extreme cases, a lack of opportunity to organize, with or without a union, can lead to human right violations in the workplace (e.g. forced, child labor). Labor practices refers to the management of employee compensation and benefits, as well as employee recruitment, development and retention practices. | - Cost of Revenue (via wages, benefits, etc.)  
- Worker productivity and turnover rates.  
- Market share (via labor strikes)  
- Fines and penalties  
- Reputation |
| **Labor Conditions in the Supply Chain**        | Managing working conditions in the supply chain can be important for companies with complex value chains, especially if suppliers are located in countries where labor laws and standards may not be consistently applied or where oversight and enforcement may be weak. Labor conditions refers to the elements covered by the risks mentioned above (i.e. occupational health & safety; diversity & inclusion; and labor relations & practices), but in the context of the supply chain. | - Reputation  
- Market share |
Human capital risks by sector
Material human capital risks vary across sectors

- SASB’s Provisional Standards include 76 disclosure topics that cover human capital risks (18% of total topics).
  - These risks span across 55 industries which represent 66% of the market capitalization of U.S. listed securities*.
    - **Occupational Health & Safety**: 32 industries, 29% of market cap
    - Diversity & Inclusion: 12 industries, 30% of market cap
    - Labor Relations & Practices: 25 industries, 40% of market cap
    - Labor Conditions in the Supply Chain: 12 industries, 12% of market cap

---

* Market capitalization figures as of June 2015, for all U.S. listed, non OTC, securities
** A particular industry may be affected by more than one type of human capital risk.
