
2017-22 Strategic Plan

December 2016

California Public Employees' Retirement System

A Message from Our Board President and Chief Executive Officer

The CalPERS 2017-22 Strategic Plan is the result of a year-long collaborative process between our Board of Administration and executive team that gives us a fresh look at the next five years. Our shared goal was to build a thoughtful and relevant plan for the future.

In developing the five goals within this plan, we went through an extensive process to gain an understanding of the major risks and opportunities facing CalPERS. We gathered valuable information and feedback from a variety of internal and external stakeholders.

After analyzing this input, we could see where we were and where we needed to go. The end result was five goals – each with its own set of objectives and measures for success – that will guide us for the next half-decade. The Strategic Plan is not meant to be a detailed roadmap, but a guide to steer us over the next several years.

Another outcome of our process was a refinement of our Vision and Mission statements to make them more reflective of our purpose and direction. When we link them to our Core Values, they provide a full picture of who we are and what we stand for. We share them with you in the pages ahead.

We will continue to use our business plan as the vehicle to put the Strategic Plan into action. It gives us the flexibility to be nimble and responsive to the current environment and industry trends, while still accomplishing the goals and objectives we have established.

To our Board members, team members, and senior leaders, as well as the employer associations, labor groups, retiree and pension associations, federal representatives, health and investment business partners, and state government officials who contributed to this process, we thank you for your time and valuable input.

We encourage you to make our new Strategic Plan come alive by exploring it and finding meaningful ways to connect it with the work you do. Together, we can continue our legacy of service to California and to our members.

Sincerely,

Rob Feckner
President, CalPERS Board of Administration

2017-22 | Strategic Goals

FUND SUSTAINABILITY

Strengthen the long-term sustainability of the pension fund

Keeping our promise of a secure pension is the cornerstone of our mission. It has been the reason for our existence since 1932. Long-term sustainability of the pension fund and availability of the funds for our members when they retire are the embodiment of that promise we made 85 years ago. To fulfill this promise, we strive to deliver targeted, risk-adjusted investment returns and to keep our stakeholders engaged and educated about how we balance risks and mitigations to achieve this goal.

HEALTH CARE AFFORDABILITY

Transform health care purchasing and delivery to achieve affordability

We aspire to transform health care purchasing and delivery, to make it affordable while providing the best value in health care to our members. We seek to understand rising health care costs and the impact of wellness on those costs.

REDUCE COMPLEXITY

Reduce complexity across the enterprise

CalPERS is a large organization, but large doesn't have to mean complicated. We will focus on streamlining our operations, processes, and procedures over the next five years. We believe this will benefit us by gains in efficiency and improve productivity among our employees. By simplifying our benefit programs, we believe we can improve service delivery, decrease costs, and reduce risk.

2017-22 | Strategic Goals

RISK MANAGEMENT

Cultivate a risk-intelligent organization

We need to continue our efforts to be a risk-intelligent organization. This means protecting the data of our members and employers is paramount to us. We are keenly aware of the potential risks we face, and have robust risk mitigation methods in place for use on a daily basis. We also work to make our compliance and audit processes more strategic based on risk and trend analysis.

TALENT MANAGEMENT

Promote a high-performing and diverse workforce

We want and need a high-performing and diverse workforce. To achieve this, we want to ensure that our employees have the resources they need to provide outstanding service to our members, business partners, stakeholders, and staff. We will continue to step up our efforts to recruit and empower a broad range of talented employees to meet our organizational priorities.

Strategy Map

The Strategy Map illustrates our 2017-22 goals, along with our Vision, Mission, and Core Values.
