Strategic Plan

This item is not a specific product of the Strategic Plan, but is in alignment with the Risk and Audit Committee powers reserved to oversee audit activities including actuarial, external, financial, internal, and real estate audits.

Background

OFAS serves as the contract administrator for the Board of Administration's (Board) independent financial statement auditor and other external audit resources.

Analysis

The Board's independent financial statement auditor, Macias, Gini & O'Connell, LLP, (MGO) performed the audit of CalPERS financial statements and GASB 67 and 68 audits for the Fiscal Year ending June 30, 2016 (FY 2015-16). These services were performed under the American Institute of Certified Public Accountants (AICPA) generally accepted auditing standards and attestation standards. All audit work and fees were calculated and approved in accordance with the contract terms. In addition, audit firms from the Investment Audit Specialty Pool conducted agreed-upon procedures reviews for real estate compliance and cash flow verification.

Budget and Fiscal Impacts

The fees for the basic financial statements audit and implementation of GASB 67 for FY 2015-16 totaled \$569,318. The audit fees for the audit of participating employers' data related to the implementation of GASB 68 for FY 2015-16 totaled \$2,672,145. Table 1 on the following page illustrates the breakdown of MGO audit fees on an accrual basis.

Funding for these audit activities have been identified within existing budgetary resources. There is no additional budget and fiscal impact.

Benefits and Risks

The Board's fiduciary responsibility ensures reasonable expenses of administering the System and the external audit costs.

The primary risk is the audit costs incurred by external auditors do not adequately support the execution of the audit contract.
