		al business syst	ems with	nin expected time	eframes			
	Risk Driver #3: Inability to restore critical business systems within expected timeframes Mitigations and Controls in Place:							
 3.1 Annual disaster recovery exercises 3.2 Dedicated off-site Emergency Operations Center 3.3 Contract with an external vendor to perform Disaster Recovery Services 3.4 Annual review of alignment of Disaster Recovery objectives and business continuity plan 								
Future Mitigations:				7\				
Backup and Disaster F					otor			
Risk Driver #4: System changes are not recorded and reported timely to the disaster recovery vendor								
Mitigations and Controls in Place:								
 4.1 Annual disaster recovery exercises 4.2 Vendor has up-to-date technical disaster recovery procedures and has the contractual obligation to bring up my CalPERS within the documented recovery time objective 4.3 Disaster Recovery incorporation of system change process 								

Future Mitigations:

• Automate Disaster Recovery vendor updates and test solutions (June 2018)

Risk Driver #5: Inability to react to an emergency situation

Mitigations and Controls in Place:

5.1 Incident Command System

- 5.2 Training and exercise
- 5.3 Annual Emergency Response exercise and training
- 5.4 CalPERS Emergency Hotline
- 5.5 Partner with local safety responders

Future Mitigations:

• Mass notification system (Winter 2017)

Risk Driver #6: Dependency on the State Controller's Office

Mitigations and Controls in Place:

6.1 Documented workarounds to the State Controller's Office functions

6.2 Annual State Controller's Office Disaster Recovery Exercise

Risk Driver #7: Mass regional disaster event impacting access to Emergency Operations Center Future Mitigations:

- Establish external conference bridge lines for communication (December 2017)
- Enable VPN connectivity from anywhere (home/hotel) to CalPERS systems at disaster recovery vendor's data center (June 2018)
- Contract for temp space with phone lines to redirect inbound contact center calls

Health Care Administration Enterprise Risk Profile

Health Care		utive Officer,		Pension & Healt	h	Strategic	
Administration		rams Policy an	hd	Benefits Commi			
	Planning	anie i eneg an		20110110 001111			
Strategic Plan Goal		Health Care Affordability: transform health care purchasing and delivery to achieve affordability.					
Functional Objective	To offer high	quality, acces	sible, and a	ffordable health c	are.		
Risk Statement						re at a competitive	
Risk Analysis:							
There are substantial inh	erent risks fror	n rising healtho	care and ph	armaceutical cost	s; howev	ver, CalPERS	
is mitigating these risks we	II and continu	ies to offer hig	h quality an	d affordable healt	h care.		
Residual Risk		Probability	Impact	Velocity	Rating	Trend	
		Possible Major Low High Impact Low Probability					
Risk Driver #1: Increases	in health care	costs			TTODAD		
Mitigations and Controls i							
 1.1 Annual reports presented to the PHBC: Integrated Health Models, Population Health, and Health Care Cost 1.2 Triple Aim Strategies from Let's Get Healthy California: Better Health, Better Care, and Lower Costs 1.3 Dependent Eligibility Verification (on-going dependent eligibility reviews at least every 3 years) 1.4 Eligible enrollees over 65 transitioned to Medicare 1.5 Contractual provisions to promote and maintain healthy lifestyles, and improve high intensity case management and patient centered care through medical homes 1.6 Site of care program to guide members who need certain prescription drug infusions to lower-cost sites than hospitals (e.g., doctor's office, ambulatory infusion center, or home infusion) (see also 2.2 below) 1.7 Reference pricing (Value-Based Purchasing Design) setting maximum reimbursements for selected surgical procedures to encourage use of appropriate and cost-effective care settings 1.8 Alignment of medical and pharmacy benefits across health plans to close clinical gaps in care, improve shared-decision making, control expensive specialty drugs, improve palliative care and support preventive care 1.9 Analysis of misuse of medical and pharmacy services including over and under utilization 1.10Increased uptake of electronic health records through Meaningful Use 							
 Explore feasibility of financial incentives for members to adopt healthy behaviors, to use preventive services, 							
to seek high-quality services, and to take prescribed medications							
 Value Based Insurance Design development to encourage members to maintain good health and discourage 							
members from using unnecessary services, for example by increasing cost-sharing for lower-value drugs							
Risk Driver #2: Increases in pharmaceutical costs							
Mitigations and Controls in Place:							
2.1 Evaluation of pharmacy benefits under medical management for cost saving opportunities and leverage Preferred Provider Organization / Pharmacy Benefit Manager PPO/PBM physician-led programs							
2.2 Evaluation of site of care opportunities for reducing cost of specialty infusion drugs							

- 2.3 Initiation of a new program for reducing specialty drug cost through physician education/incentives and leveraging PBM and PPO physicians
- 2.4 Formulary management
- 2.5 Annual market check of PBM prescription drug pricing terms by independent consultant
- 2.6 Pharmacy Benefit Manager contract with price lock provisions

Future Mitigations:

• Developing pharmaceutical strategies that reduce costs, for example value-based contracting in which payment for a drug is at least partially based on the drug's effectiveness

Risk Driver #3: Public Agencies and Schools electing to leave the CalPERS Health Benefit Programs

Mitigations and Controls in Place:

- 3.1 Annual evaluation and negotiations of Health Plan Premiums
- 3.2 CalPERS Annual Education Forum for employers
- 3.3 Increased competition by expanding health plan choices across public agency regions
- 3.4 PEMHCA precludes agency return to CalPERS health programs for 5 years after leaving the program

Future Mitigations:

• Enhance communication and marketing to employers

Risk Driver #4: Unfavorable changes in state and federal regulations

Mitigations and Controls in Place:

- 4.1 Monitoring and tracking of state and federal legislation
- 4.2 Enhancement and strengthening of proactive outreach and education to federal and state congressional and legislative members
- 4.3 Identification and communication of policy issues/ballot initiatives (excise tax, drug relief) of interest to CalPERS health benefits

Risk Driver #5: Sustainability of the Health Care Fund

Mitigations and Controls in Place:

- 5.1 Evaluation of Portfolio Investment Strategy
- 5.2 Evaluation of Health Benefit Cost and Savings
- 5.3 Comprehensive asset allocation review of the HCF every four years
- 5.4 Maintaining a Risk Based Capital required reserve at 300% of the authorized control level
- 5.5 Annual resetting of the health care premiums through rate negotiations

Risk Driver #6: Health plan contract management non-compliance

Mitigations and Controls in Place:

6.1 Contract management oversight, audits, and quarterly business reviews

	Pension Funding Enterprise Risk Profile							
Enterprise Risk	Owner	Owner Oversight Cate						
Pension Funding	Chief Financial Officer, Chief Actuary Chief Investment Officer			Finance & Administration Committee, Investment Com	tegic			
Strategic Plan Goal		Fund Sustainability: strengthen the long-term sustainability of th pension fund.						
Functional Objective				ion system to deli				
Risk Statement	Failure to me	et benefit obliga	ations to cu	rrent and future m	nembers and b	eneficiaries.		
Risk Analysis:								
Pension Funding risk drivers are complex and interconnected. Current mitigations are strong, but inherent risks associated with Pension Funding create uncertainty in our ability to fully and effectively mitigate associated risk drivers. The mitigations for one particular risk driver may negatively impact another risk driver. For example, adopting a mitigation approach which significantly reduces the chance of a large decrease in the value of PERF assets may significantly increase the risk of employers being unable to meet contribution requirements.Residual RiskProbabilityImpactVelocityRatingTrend

Enterprise Risk Prome September 2017
Risk Driver #2: Loss of institutional knowledge
Mitigations and Controls in Place:
2.1 Knowledge transfer for multi-year consultant contracts
2.2 CalPERS Informal Mentoring Program
2.3 Succession Planning Program
2.4 Annual Division Workforce Plans
Future Mitigations:
Update enterprise Workforce Plan (June 2018)
Risk Driver #3: Inability to recruit and select qualified candidates
Mitigations and Controls in Place:
3.1 Hiring manager education and support
3.2 Lean Hiring Process pilot program
3.3 State-wide Civil Service Improvement effort
3.4 Develop targeted recruitment strategies and activities for critical positions
3.5 Utilization of search firms
3.6 Career fairs and advertising in non-traditional mediums
3.7 Salary survey of comparable positions
3.8 Examination and Certification Online System
3.9 Market CalPERS as a destination employer
3.10 Incentive compensation programs and policies
Future Mitigations:
Phased implementation of the Start Talent Acquisition Request System integrating the front and back-end of
the hiring process with ECOS (June 2018)
Expand recruitment channels with focus on Veteran Organizations and Active Recruitments (2017-18
Business Plan, Goal B, June 2018)
Risk Drivers #4: Inconsistent or inadequate levels of engagement across the enterprise
Mitigations and Controls in Place:
4.1 Ongoing Employee Enrichment programs
4.2 New employee onboarding
4.3 Diversity and Inclusion events
4.4 Innovation platforms
Future Mitigations:
Expand the Diversity and Inclusion Program (June 2018)
Launch annual Employee Engagement Survey (June 2018)
