RE: Revision of Real Assets Program Policy – First Reading

---

Major changes were made to the Real Assets Program Policy in August 2016, following the approval by the Board of the new strategic plan for Real Assets in April 2016. The Real Assets program has lived with the new policy and the associated Investment Policy Procedures and Guidelines (IPPGs) for a little more than a year now. The proposed changes currently in front of the Investment Committee represent small adjustments to the policy identified as part of the annual review of these governance documents and are largely "clean-up" in nature. PCA has no material issues with the changes.

While these particular proposed policy changes are relatively minor, the programmatic review of and adjustment to the Real Assets Program Policy reflects strong process and governance that support effective management of the Real Assets Program investments.

PCA is available to take any questions of the Investment Committee.

Respectfully,

Supplement for real estate and private equity partnerships:

While PCA has reviewed the terms of the Fund referred to in this document and other accompanying financial information on predecessor partnerships, this document does not constitute a formal legal review of the partnership terms and other legal documents pertaining to the Fund. PCA recommends that its clients retain separate legal and tax counsel to review the legal and tax aspects and risks of investing in the Fund. Information presented in this report was gathered from documents provided by third party sources, including but not limited to, the private placement memorandum and related updates, due diligence responses, marketing presentations, limited partnership agreement and other supplemental materials. Analysis of information was performed by PCA.

An investment in the Fund is speculative and involves a degree of risk and no assurance can be provided that the investment objectives of the Fund will be achieved. Investment in the Fund is suitable only for sophisticated investors who are in a position to tolerate such risk and satisfy themselves that such investment is appropriate for them. The Fund may lack diversification, thereby increasing the risk of loss, and the Fund's performance may be volatile. As a result, an investor could lose all or a substantial amount of its investment. The Fund's governing documents will contain descriptions of certain of the risks associated with an investment in the Fund. In addition, the Fund's fees and expenses may offset its profits. It is unlikely that there will be a secondary market for the shares. There are restrictions on redeeming and transferring shares of the Fund. In making an investment decision, you must rely on your own examination of the Fund and the terms of the offering.
