CHIEF COMPLIANCE OFFICER LETTER

The Annual Compliance Report outlines key accomplishments on ethics and compliance activities covering fiscal year (FY) 2017-18. This report is included as a complement to the Comprehensive Annual Financial Report (CAFR). The Enterprise Compliance Branch (Enterprise Compliance) of the California Public Employees’ Retirement System (CalPERS) is responsible for coordinating, supporting, and promoting an effective enterprise-wide ethics and compliance program. Enterprise Compliance is at the forefront of compliance and ethics at CalPERS, working to protect the enterprise by ensuring we are following all the laws and regulations that govern our business.

Consistent with the CalPERS core values of Integrity, Openness, and Accountability, Enterprise Compliance is keenly aware of our responsibility to exemplify ethical behavior and practices for nearly 3,000 fellow team members. To leverage our effectiveness, our staff of 26 team members embraces partnerships with other program areas to maximize our impact. These partnerships across the enterprise enable us to raise awareness about compliance and ethics. They also help us reinforce our belief that compliance is the personal responsibility of every CalPERS team member.

Enterprise Compliance also recognizes that effective compliance programs grow organically; our job is to make sure everyone knows how they can positively impact our organization. For instance, we have embedded compliance liaisons in some of our largest program areas who serve as first line compliance experts. We are grateful for their participation and partnership throughout the CalPERS organization.

CULTURE OF COMPLIANCE

We strive to make compliance embedded into the CalPERS strategy, culture, and day-to-day business operations. All of Enterprise Compliance’s activities and accomplishments directly support our organization’s strategic plan and core values.

In 2015, Enterprise Compliance developed a new multi-year compliance plan, building upon the already effective compliance practices in place. The five-year compliance plan is aimed at building and enhancing compliance capabilities to mature the program and is consistent with changes in the broader compliance landscape (see Figure 1). The compliance plan focuses on strengthening our compliance and ethics program by fostering a culture of compliance, clarifying the compliance governance structure, and providing our CalPERS Board and management with compliance tools and information to fulfill their oversight responsibilities. We believe that compliance is everyone’s responsibility throughout the organization.

Our compliance plan moves us towards implementing activities designed to strengthen our culture of compliance. A strong compliance culture is fundamental to a risk intelligent organization and supports our strategic goal.

INTERGRATED ASSURANCE MODEL: THREE LINES OF DEFENSE

To implement our governance, risk, and compliance practices, we have embraced an Integrated Assurance Model to promote a multi-faceted approach to compliance awareness and accountability. The model centers on a Three Lines of Defense framework (see Figure 2), which promotes collaboration and an increased understanding of roles and responsibilities to detect, prevent, and correct instances of non-compliance.

Figure 2: Integrated Assurance Model

- **First Line of Defense** – The first level of the control environment are the program areas, which perform day-to-day risk management activities. In addition to performing day-to-day operations, the functional areas are responsible for compliance and risk mitigation.

- **Second Line of Defense** – The Enterprise Compliance Branch and Enterprise Risk Management Division partner collaborate to provide oversight, guidance, monitoring of governance, risk, and compliance activities. As a result of this partnership, we are able to support the organization in mitigating strategic and operational risks along with strengthening the organization’s control environment and promoting strong ethical...
business practices. To demonstrate this alignment, both work closely together to develop and implement their annual plans.

- **Third Line of Defense** – Internal audits provides independent assurance on the effectiveness of governance, risk management, and internal controls. The Office of Audit Services participates in a joint organization wide-risk assessment with the Risk and Compliance offices. This coordination assists with the development of a common view of risk across the organization.

The Integrated Assurance Model helps clarify roles and responsibilities and promote ownership of compliance throughout the organization. Through the Three Lines of Defense, CalPERS encourages a culture of doing the right thing. By fostering a work environment based on our core values of quality, respect, integrity, openness, accountability and balance, CalPERS also recognizes that compliance is everyone’s responsibility. The partners within the Integrated Assurance Model hold monthly working sessions to collaboratively discuss, plan, and receive feedback on each party’s inter-related efforts. These monthly meetings help ensure cooperation and improve timing of reviews by reducing over-lapping efforts and encourage collaboration with the program areas.

**FISCAL YEAR 2017-18 ETHICS AND COMPLIANCE PROGRAM INITIATIVES HIGHLIGHTS**

Enterprise Compliance is guided by compliance standards set out in a variety of federal and state guidelines. Federal Sentencing Guidelines identify consistent, continuous promotion and enforcement of compliance and ethics standards as essential components of an effective compliance program. The California State Leadership Accountability Act also sets compliance industry best practices, benchmarks, and organizational needs for the state agencies of California.

Through our internal partnerships, Enterprise Compliance identified program areas and topics where additional time and attention are necessary to continue to meet compliance requirements, support ethical behaviors and ensure overall organizational integrity.
