**Introduced by Committee on Public Employment and Retirement
(Assembly Members Rodriguez (Chair), Cooley, Cooper, and

February 6, 2020

An act to amend Sections 20230, 20731, 22772, 22960.95, 22970.85, and 75088.3 of the Government Code, relating to public employees' retirement.

LEGISLATIVE COUNSEL'S DIGEST

AB 2101, as amended, Committee on Public Employment and Retirement. Public employees' retirement: required distributions: age.

(1) The Public Employees' Retirement Law (PERL) establishes the Public Employees' Retirement System (PERS) for the purpose of providing pension benefits to state employees and employees of contracting agencies. Existing law requires administration of PERS by the Board of Administration of PERS. Existing law creates the Public Employees' Retirement Fund as a trust fund to be expended only for purposes related to the system and its administration, as specified, and provides that the fund is continuously appropriated for these purposes. Existing law, the California Public Employees' Pension Reform Act of 2013 (PEPRA), on and after January 1, 2013, generally requires a public retirement system, as defined, to modify its plan or plans to comply with the act, as specified.

Under existing law, data filed with the board by any member, retired member, beneficiary, or annuitant is confidential. Existing law prohibits

system officials and employees from divulging the data except pursuant to specified parties and entities.

This bill would make various technical and clarifying changes to these provisions, including specifying that data filed on behalf of any member, retired member, beneficiary, or annuitant is also confidential and that data may be divulged to other retirement systems that provide reciprocal benefits to members of PERS.

Existing law authorizes a member of PERS, who is credited with less than a certain number of years of service and who enters employment as a member of another public retirement system supported by state funds, within 6 months of leaving state service, to elect to leave their accumulated contributions on deposit in the retirement fund. Existing law specifies that a member's failure to make an election to withdraw accumulated contributions is deemed an election to leave the member's accumulated contributions on deposit in the retirement fund. Existing law provides that a member may revoke their election to allow accumulated contributions to remain in the retirement system, except under specified circumstances. Existing law requires a member who is permanently separated from all PERS covered service, who meets specified conditions, and who attains 70 years of age, to be provided with an election to withdraw contributions, or, if vested, an election to either apply for service retirement or to withdraw contributions.

This bill would instead require a member permanently separated under the circumstances described above to attain 71 ½ years of age before being provided with those election options. This bill would also correct an obsolete cross reference.

(2) The PERL contains the State Peace Officers' and Firefighters' Defined Contribution Plan as a separate supplemental plan for certain peace officers and firefighters, and is administered by the board of PERS. Existing law establishes the State Peace Officers' and Firefighters' Defined Contribution Plan Fund as a trust fund, with moneys in the fund continuously appropriated to the board for purposes of administering the plan.

Under existing law, a participant, nonparticipant, spouse, or beneficiary is not permitted to elect a distribution under the plan that does not satisfy specified requirements of federal law related to being a qualified pension trust plan. Existing law requires the beginning date of distributions that reflect the entire interest of the participant, for a lump-sum distribution, to be made not later than April 1 of the calendar year following the later of the calendar year in which the participant

attains 70½ or the calendar year in which the participant terminates all employment subject to plan coverage. Existing law also requires, for a distribution to the participant in the form of installment payments or an annuity, that payment begin not later than April 1 of the calendar year following the later of the calendar year in which the participant attains 70½ years of age or the calendar year in which the participant terminates all employment subject to plan coverage. Existing law also requires, if a benefit is payable on account of the participant's death, and the beneficiary is the participant's spouse, the distributions to commence on or before the later of either December 31 of the calendar year immediately following the calendar year in which the participant dies, or December 31 of the calendar year in which the participant would have attained 70½ years of age.

This bill would raise the age for required distributions, in the circumstances described above, from 70½ years of age to 72 years of age.

(3) Existing law establishes the Supplemental Contributions Program as a defined contribution plan to supplement the benefits provided under PERL. Existing law establishes the Supplemental Contributions Program Fund as a special trust fund, with moneys in the fund continuously appropriated to the board of PERS, for purposes of the program. Under existing law, a participant, nonparticipant, spouse, or beneficiary is not permitted to elect a distribution under the plan that does not satisfy federal requirements related to being a qualified pension trust plan. Existing law requires the beginning date of distributions that reflect the entire interest of the participant, for a lump-sum distribution to the participant, to be made not later than April 1 of the calendar year following the later of the calendar year in which the participant attains 70½ years of age or the calendar year in which the participant terminates all employment. Existing law requires the beginning date of distributions, if provided in periodic payments, to begin not later than April 1 of the calendar year following the later of the calendar year in which the participant attains 70½ years of age or the calendar year in which the participant terminates all employment subject to plan coverage. Existing law also requires, if a benefit is payable on account of the participant's death, and the beneficiary is the participant's spouse, that distributions commence on or before the later of either December 31 of the calendar year immediately following the calendar year in which the participant dies or December 31 of the calendar year in which the participant would have attained 70½ years of age.

This bill would raise the age for required distributions, in the circumstances described above, from 70½ years of age to 72 years of age.

(4) The Judges' Retirement Law prescribes retirement benefits for judges, as defined, who were first elected or appointed to judicial office before November 9, 1994. Existing law also establishes the Extended Service Incentive Program to provide enhanced retirement benefits for those judges who continue in service beyond retirement age, as specified, and directs the board of administration of PERS to implement the program. Existing law prescribes that the required beginning date of distributions that reflect the entire interest of the judge, for a lump-sum distribution, be made not later than April 1 of the calendar year following the later of the calendar year in which the judge attains 70½ years of age or the calendar year in which the judge terminates employment. Existing law also requires, if a benefit is payable on account of the judge's death, and the beneficiary is the judge's spouse, that distributions commence on or before the later of December 31 of the calendar year immediately following the calendar year in which the judge dies or December 31 of the calendar year in which the judge would have attained 70½ years of age.

This bill would raise the age for required distributions, in the circumstances described above, from 70½ years of age to 72 years of age.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

3 to read:

4 20731. (a) Notwithstanding any other provision of this part,
5 a member who is credited with less than the years of service
6 specified in Article 1 (commencing with Section 21060) of Chapter
7 12 who enters employment as a member of a public retirement
8 system supported, in whole or in part, by state funds, including
9 the University of California Retirement System, or as a member
10 of a county retirement system, within six months of leaving state
11 service, shall have the right to elect to leave accumulated
12 contributions on deposit in the retirement fund. Failure to make
13 an election to withdraw accumulated contributions shall be deemed
14 an election to leave accumulated contributions on deposit in the
15 retirement fund. This section shall also apply to a member who is
16 subject to Section 21076 or 21076.5.

17 (b) (1) An election to allow accumulated contributions to remain
18 in the retirement fund may be revoked by the member at any time,

20 (A) While the member is employed in state service in a position
21 in which the member is not excluded from membership with respect
22 to that service.

23 (B) While the member is in service as a member of a public
24 retirement system supported, in whole or in part, by state funds,
25 including the University of California Retirement System.

31 election pursuant to Section 20735.

33 covered by the system, who is not subject to paragraph (1), and
34 who attains 71 1/2 years of age shall be provided with an election
35 to withdraw contributions or, if vested, an election to either apply
36 for service retirement or to withdraw contributions. Failure to apply

24 14.

25 The provisions of this section, as it read prior to June 21, 1971,
26 shall continue with respect to a member whose membership
