CalPERS 2022 California Public Divest from Iran Act Legislative Report

Executive Summary

This report is provided by the California Public Employees' Retirement System (CalPERS) pursuant to the requirements of California Government Code (G.C.) §7513.7, also known as the "California Public Divest from Iran Act" (Act)

The Act requires the CalPERS Board of Administration (Board), consistent with its fiduciary responsibilities, to identify, engage, and potentially divest from companies meeting the criteria specified in the Act. Further, the Act requires ongoing annual reporting by CalPERS to the California Legislature until the sunset provision has been satisfied.

For the 2022 reporting period:

1. CalPERS screened for companies potentially meeting the criteria for consideration under the Act that may be held in the Public Employees' Retirement Fund.
2. No new companies were added for further review under the California Public Divest from Iran Act.
3. It has been confirmed there are no related holdings within CalPERS' private equity portfolio, based on the latest available holdings information available at the time of this report (as of August 31,2022).
4. No new companies have been proposed for divestment.
5. CalPERS has ceased monitoring a number of companies that do not meet the Act's threshold criteria. Additional information on those companies is available in Table 5 of this report.

All holdings information is as of August 31,2022 unless otherwise noted.

Background Information – Inception of the Act

In 2007, Assembly Bill 221 (California Public Divest from Iran Act) was enacted to prohibit CalPERS and CalSTRS from investing in companies with specified business activities in Iran, subject to the fiduciary duties of the Board as described in Section 17 of Article XVI of the California Constitution. In October 2011, Assembly Bill 1151 was passed, amending AB 221 to its current form.

CalPERS Compliance with the Act

Among other things, the Act requires CalPERS to use publicly available information to identify public portfolio companies that may be subject to the Act and to make a good faith effort to identify potential private equity exposures.

CalPERS reviews a variety of information sources to identify the companies in its portfolio that may potentially meet the threshold criteria for divestment. There may be instances in which CalPERS has not engaged a company that was identified by other agencies. Reasons for this may include, but are not limited to:

- Portfolio holdings – Companies identified by other sources may not be held in the CalPERS Public Employees' Retirement Fund (PERF) during the reporting period.
- Timing – Differences may occur due to the timing of each respective organization's engagement with individual companies.

CalPERS 2022 California Public Divest from Iran Act Legislative Report

- Firm not identified by third party vendor used to screen for this Act

Additional information on CalPERS' compliance with the specific reporting requirements of the Act is included in the sections below.

CalPERS 2022 California Public Divest from Iran Act Legislative Report

CalPERS 2022 Report – G.C. 7513.7 (California Public Divest From Iran Act)

CalPERS groups companies into several categories for G.C. §7513.7(i):

1. **Divested/Restricted** – These are companies that were determined to have satisfied the threshold criteria for divestment defined by §7513.7 as to which the CalPERS Board determined divestment would be consistent with its fiduciary obligations.
 - This category addresses requirements §7513.7(i)(1),(2),(3), and (4) should divestment of a company be in progress with restrictions on new purchases
2. **Under Review** – These are companies that have been identified as possibly subject to the Act that are 1) undergoing review to affirm whether they do or do not meet threshold criteria for consideration under the act, or 2) are undergoing the engagement and communication cycle specified by the Act, or 3) are being considered for divestment in accordance with CalPERS policies.
 - This category addresses the requirements of §7513.7(i)(1), (2), and (5)
3. **Monitoring** – These are companies that CalPERS' initial screening determined as not meeting the threshold criteria for further consideration under §7513.7, which CalPERS continues to monitor for possible changes in status relevant to the Act.
 - This category addresses the requirements of §7513.7(i)(1), (2), and (5)
4. **Other** – This category is used to capture other required reporting components not captured in the other categories.
 - §7513.7(f), as part of §7513.7(i)(6), in which an economically equivalent alternative fund or account was established with PERF assets transferred therein
 - §7513.7(j) any investments in a company with business operations in Iran (as defined in the Act), that the board voluntarily sold or transferred
 - §7513.7(i)(7) the annual economic impact of the divestment mandate on the PERF

These elements are included in Tables 1 through 4, by category, on the following pages. The “market value” may include public equity, depository receipts, and debt assets.
