

EPR Fourth Quarter Report: Key Performance Indicators Summary Dashboard

In addition to the strategic side of the house, we also have the operational side which is represented by our Key Performance Indicators (KPIs). The KPIs are the third component of our Enterprise Performance Reporting structure and serve as a collection of performance indicators that measure and monitor the effectiveness of our efforts at the operational level.

The Key Performance Indicators Summary Dashboard provides a brief synopsis of how all 59 KPIs are performing for the fourth quarter (April 1, 2020 – June 30, 2020). Additional performance details can be found on the summary sheets for each KPI. Informational KPI's are non-performance driven.

Fourth Quarter Measure Performance:

- 23 On-Target
- 2 At-Risk
- 4 Off-Target
- 21 Pending Refresh
- 8 Informational

The Key Performance Indicators Summary Dashboard also provides trend analysis data that captures performance from year two (FY 2018-19).

2019-20 Key Performance Indicator Summary (Quarter 4)

KPI Title:	Generate Liability Data for Long-Term Care Program
Operational Outcome Owner:	Michael Cohen
Outcome Measure:	Reliable Steward of Funds
Core Process:	Projecting Liabilities

Status:	Off-Target
Numeric Status:	Report not completed in June 2020

Description:	Each year, the Long-Term Care plan is reviewed and adjusted to ensure the viability of the plan. The long-term care valuation will be using a revamped data set, and will also be solidifying the first principles model this year. The actuarial office produces a report and an agenda item to inform the plan sponsor and the CalPERS Board of the health of the plan.	
Baseline:	Report and deliverables must be completed by February Board meeting	
Target:	The annual Long-Term Care report, complete with agenda item deliverables, for the February Board meeting each year	
Refresh Frequency:	Annually, March	
Reporting Range:	Fiscal Year 2018-2019	
Thresholds:	On-Target:	Deliverables for February Board
	At-Risk:	Deliverables for April Board
	Off-Target:	Deliverables after April Board

Status Narrative:

Each year an actuarial experience study is completed for the program and any necessary changes to actuarial assumptions are implemented. For the 2019 valuation, the actuarial team decided on some key assumption changes which dramatically impacted the liabilities for the program. The main drivers of the liability change were the discount rate and morbidity experience.

Due to additional complexities associated with the Long -Term care program as well as the desire to thoroughly vet the new changes, additional time was required for outside review. In addition, the CalPERS Long term care team wants to explore every avenue of possible program change to not only mitigate the impact of the assumption changes but also to keep the soundness of the program intact.

We anticipate the liabilities based on the changed assumptions without any prospective changes to the program will be finalized by the September board.

	This metric represents the percentage of CalPERS members who rated their health care as positive. A higher percentage is considered good. Factors that can influence this measure include enforcement of contractual requirements and collaborative efforts with CalPERS health plan partners.
	KPI trend: <ul style="list-style-type: none"> • 81.9% (covering experience in 2016) • 83.6% (covering experience in 2017) • 82.2% (covering experience in 2018)

2019-20 Key Performance Indicator Summary (Quarter 4)

KPI Title:	Employer Rating on Stakeholder Perception Survey
Operational Outcome Owner:	Brad Pacheco
Outcome Measure:	Open & Transparent Communication
Core Process:	Listening & Informing

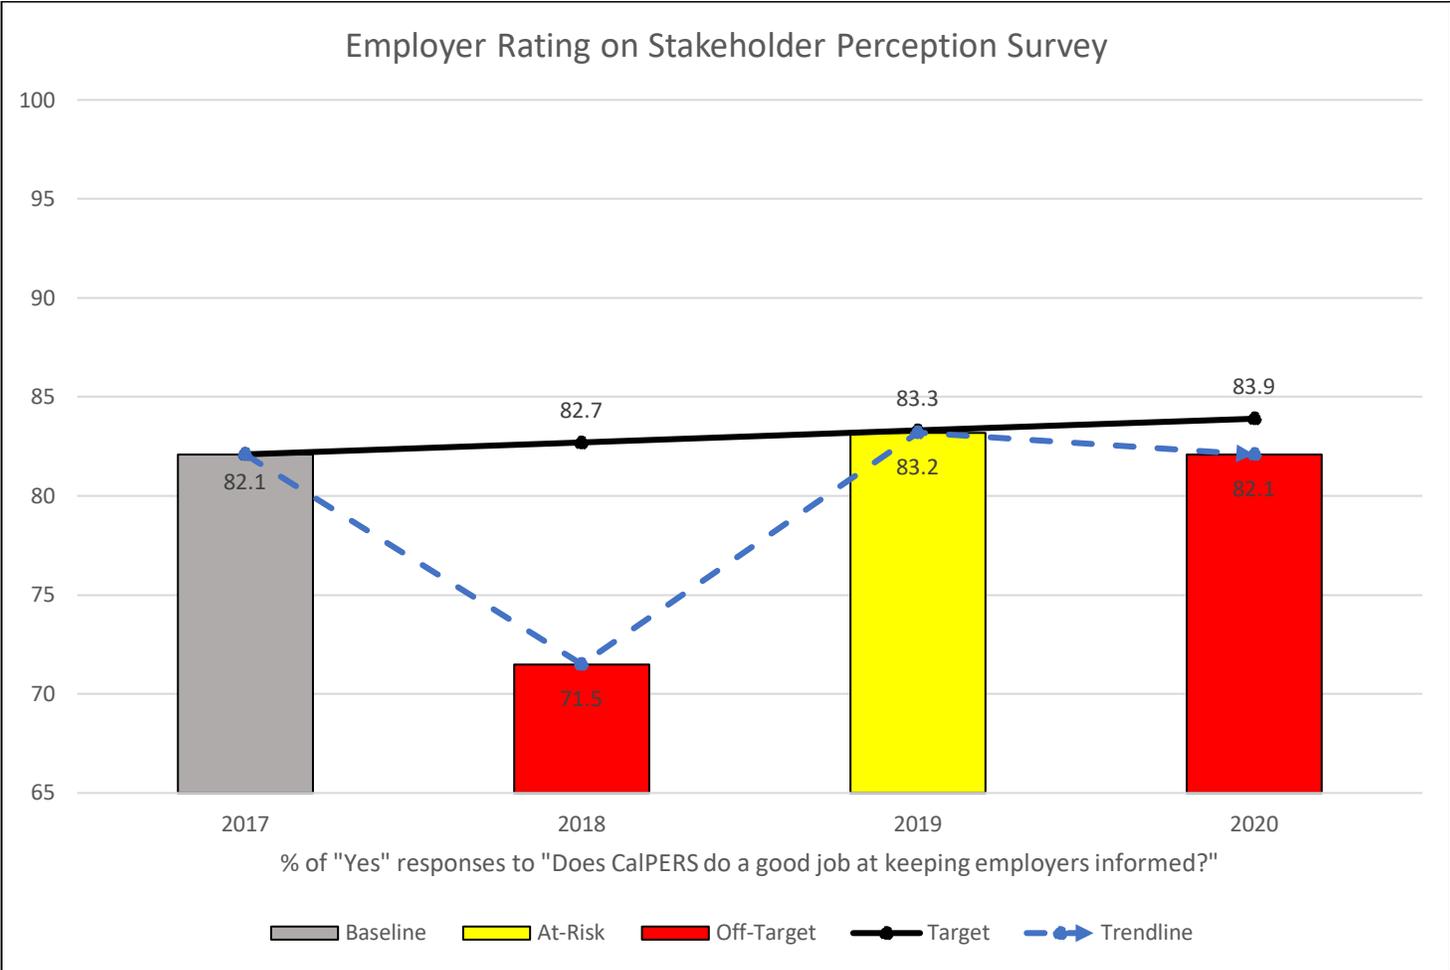

Status:	Off-Target
Numeric Status:	82.1

Description:	The Stakeholder Perception Survey is administered every year to employers at many different levels from the public agency, State, and school employers that make up the System. The KPI is based on responses to the following question; “Does CalPERS do a good job of keeping employers informed”. This question provides the clearest insight into our employers’ perception of CalPERS’ efforts towards communicating across all channels, including in-person, via phone, employer bulleting, circular letters, and outreach meetings.
Baseline:	The baseline for this measure is 82.1% of members answering “yes” to the question “Does CalPERS do a good job keeping employers informed?” The baseline was established from the score in the survey administered in January 2017, with results reporting to the Board in May 2017.
Target:	Increase score by 3 percentage points from baseline of 82.1% to 85.1% in five years, with an average 0.6 percentage point increase per year. The survey will be administered every January, to provide a fair and consistent interval between data periods.
Refresh Frequency:	Annually, June
Reporting Range:	04/2019-03/2020
Thresholds:	<p>On-Target: Score meets or exceeds target increase of 0.6% from the baseline figure each year</p> <p>At-Risk: Score remains the same or increases by less than 0.6% from the baseline figure each year</p> <p>Off-Target: Score decreases from the baseline figure</p>

Status Narrative:

Our rating on this KPI decreased from last year and is not on track to meet our goal for the five-year increase from 82.1% to 85.1%. The employer community continues to express concerns about a variety of matters in relation to CalPERS pensions, and the scores reflect that dissatisfaction.

KPI Title:	Member, Employer, & Stakeholder Rating on Perception Survey
Operational Outcome Owner:	Brad Pacheco
Outcome Measure:	Open & Transparent Communication
Core Process:	Brand Reputation

Status:	At-Risk
Numeric Status:	5.66
Description:	<p>The Stakeholder Perception Survey is administered every year to members (active, inactive, and retired), employers of all levels, and stakeholder leaders. The KPI is based on responses to the following survey question: "My overall perception of CalPERS is positive". Respondents are asked to indicate their agreement on a scale ranging from Strongly Agree (7) to Strongly Disagree (1). Each response is assigned a numerical value, as follows:</p> <ul style="list-style-type: none"> Strongly Agree: 7 Agree: 6 Somewhat Agree: 5 Neither Agree nor Disagree: 4 Somewhat Disagree: 3 Disagree: 2 Strongly Disagree: 1 <p>The combined average score from all of these segments offers the clearest insight into the overall brand reputation of CalPERS.</p>
Baseline:	The baseline for this measure is a score of 5.65, out of a possible 7, which is roughly between "Somewhat agree" and "Agree". The baseline was established from the results of the Stakeholder Perception Survey, administered in January 2017, with results reported to the Board in 05/2017.
Target:	Increase score by 5% (0.28) to 5.93 in five years, with an average increase of 0.056 points per year
Refresh Frequency:	Annually, June
Reporting Range:	04/2019 – 03/2020
Thresholds:	<p>On-Target: Score meets or exceeds target yearly increase of 0.056 from the baseline figure each year</p> <p>At-Risk: Score remains the same or increases by less than 0.056 from the baseline figure each year</p> <p>Off-Target: Score decreases from the baseline figure</p>

Status Narrative:

Scores on this year’s annual Stakeholder Perception Survey were slightly lower across many categories. We believe that the primary root cause was the timing of the survey: it was administered between March 9 and March 22 of 2020. This two-week period directly overlaps with the time that the COVID-19 pandemic was at its disruptive peak, including shelter-in-place directives, massive transition from office to remote work, sharp stock market declines, and very real concern that the health care system itself would be overwhelmed. While CalPERS did an abundant amount of communication, maintained services, and there was no interruption to health or pension benefits, it appears to have lowered perception scores slightly. We will continue to message our to stakeholders, members, and employers across all channels on developments, service issues, policies and budget issues that impact pensions, health care and investments.

KPI Title:	Personal Trading Monitoring
Operational Outcome Owner:	Doug Hoffner
Outcome Measure:	Efficient & Effective Organization
Core Process:	Compliance & Managing Risks

Status:	Off-Target
Numeric Status:	181

Thresholds:	On-Target: ≤ 60 violations At-Risk: 61-70 violations Off-Target: ≥ 80 violations

Status Narrative:

It is important to note that many of our measures were impacted due to the COVID-19 pandemic that emerged just weeks before the start of the fourth quarter. The impacts were due to the organization's shift of priorities to ensuring ongoing customer service as we transitioned to a remote work environment, the safety of team members and members, and preparing our facilities for a safe work environment for on-site team members.

For FY 2019-20 there were approximately 6,032 transactions resulting in 181 violations; 65% were due to one Covers Person. Please note, a single transaction can result in multiple violations.

Most of the violations occurred during the March 2020 to May 2020 time period when there was significant market volatility due to the COVID-19 Pandemic. All violations were reviewed and addressed with each of the Covered Persons.

In recognition of the increase in violations due to the COVID-19 pandemic, Enterprise Compliance has made the following enhancements in order to increase both awareness and comprehension of the requirements and to emphasize the importance of adhering to the Regulations:

- *Quarterly communications on key topics and reminders;
- *Monthly Covered Persons training provided to educate on key topics and FAQs;
- *Annual mandatory training requirement for all Covered Persons;

- *Mandatory refresher training for Covered Persons when a violation occurs;

- *Update and create additional self-service educational materials on the CalPERS intranet and external website;

The enterprise Compliance Office continues to support Covered Persons in their awareness and comprehension of the requirements in the following ways:

- *Provide Personal Trading onboarding training for all new Covered Persons;

- *Provide self-service educational materials on the CalPERS intranet and external website;

- *Provide training for spouses and Registered Domestic Partners as part of onboarding and after a violation occurs;

- *Provide outreach and virtual office availability to Covered Persons and their spouses / Registered Domestic Partners;

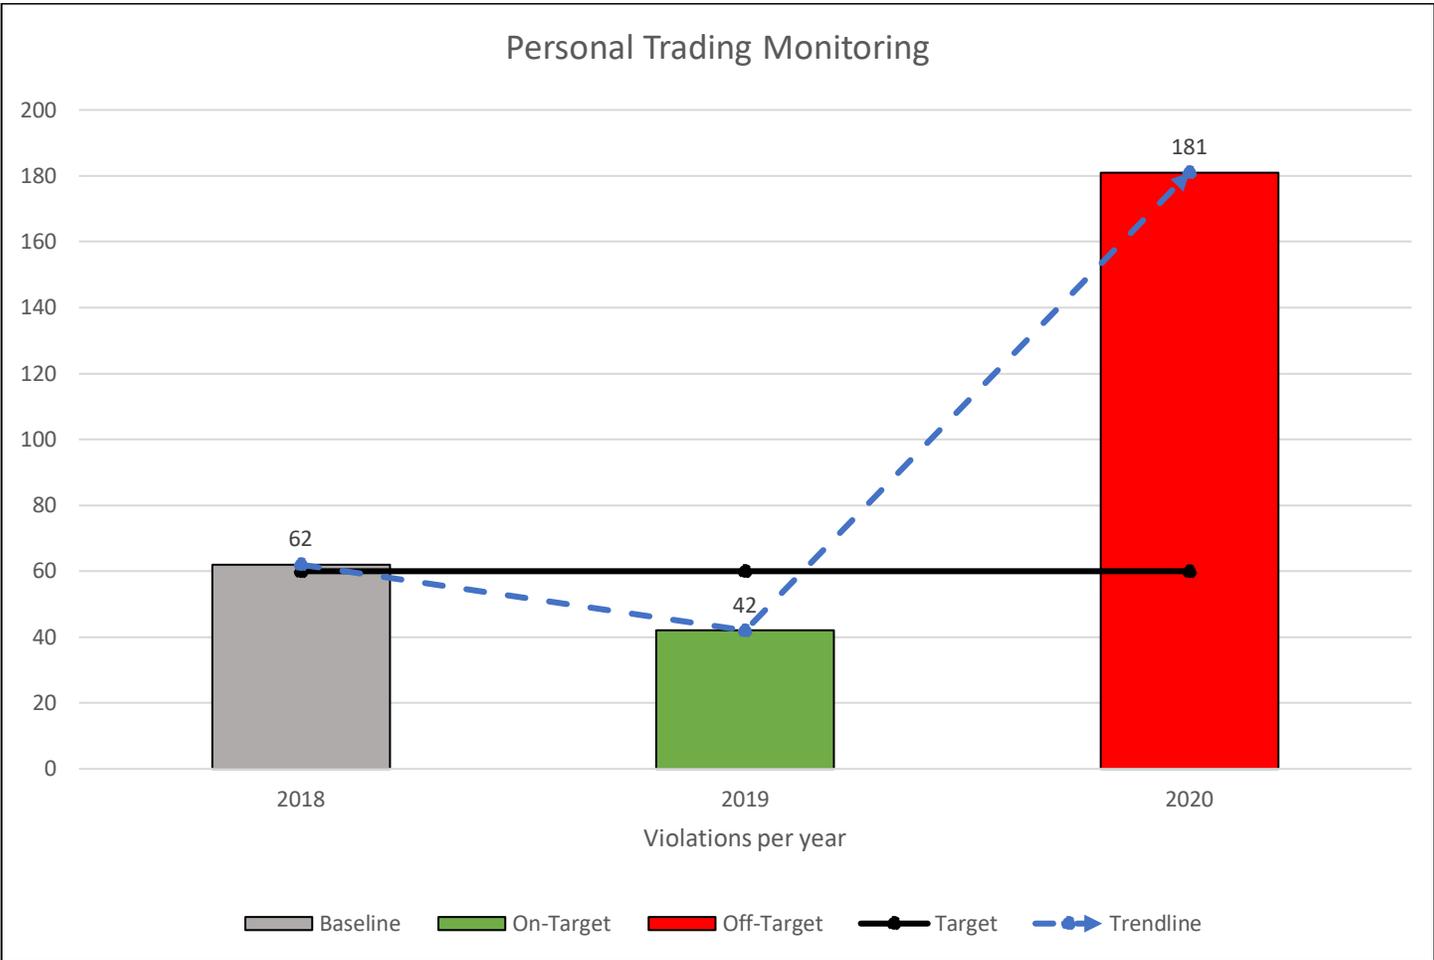

- *Notify the Covered Person's management chain when a violation occurs;

- *Provide Personal Trading training for all first-time violators;

- *Monthly and quarterly activity and violation reporting to management and the Board.

CalPERS goal is to continuously improve the Personal Trading program in pursuit of increase compliance and reduction of violations of the Regulations. With the current environment of a health pandemic, recession and extreme market volatility, it is important for the program to be nimble. The enhancements put into place this Fiscal year improve the program regarding notifications and increased training.

To mitigate the impact, CalPERS launched a Lean eLearning course to continue providing Lean training opportunities to team members. Of the 153 team members that registered for the new eLearning, 43 completed the training in this quarter (of which 25 were new to Lean). As Lean Adoption expands beyond education, this measure will include additional factors of adoption starting in FY 2020-21.

KPI Title:	Aggregate Risk Levels of the INVO Operating Model (TOM)
Operational Outcome Owner:	Michael Cohen
Outcome Measure:	Reliable Steward of Funds
Core Process:	Managing Investments

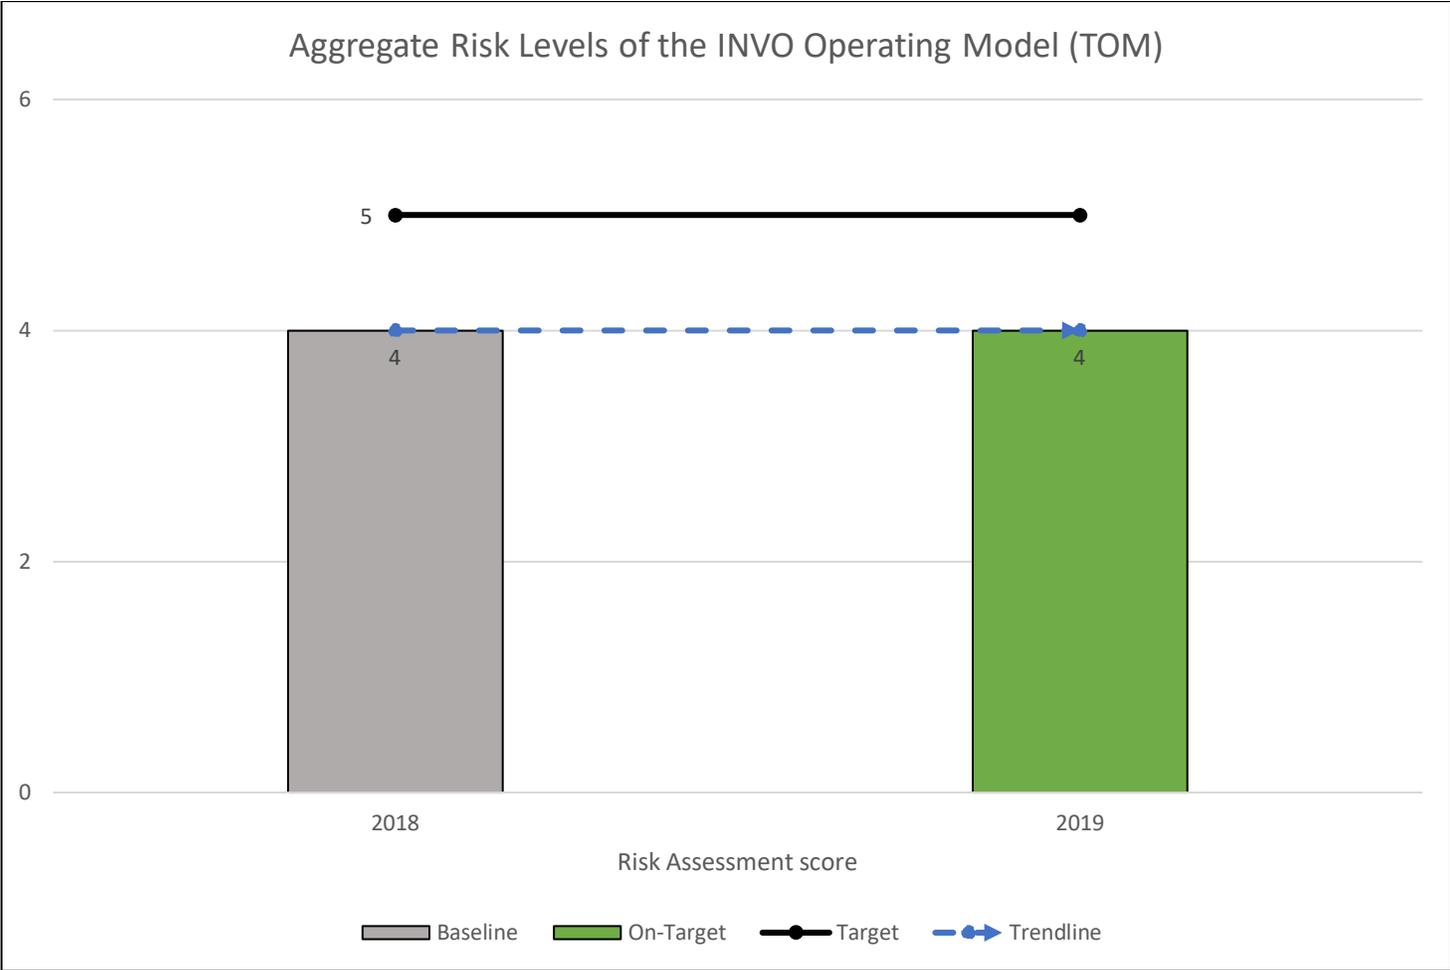

Status:	Pending Refresh (in August 2020)
Numeric Status:	4 (for FY 2018-19)

Description:	The Target Operating Model (TOM) defines functions and sub-functions that capture operational activities within the Investment Office and is used to report and track operational risk over time. The new TOM Dashboard, which was presented to the Investment Committee in December 2017, includes more industry aligned sub-functions and added functions to represent CalPERS stakeholders and corporate engagement activities, with the total number of sub-functions reduced from 46 to 24. Measuring the risk level of the TOM is the aggregated risk assessment scores of each sub-function. The risk assessment, measurement, and reporting process are designed to turn raw operational risk data into information that supports management's decision-making process. The reported risk levels are used to prioritize resource and technology efforts on critical functions impacting Total Fund risk and return. The Investment Compliance and Operational Risk (ICOR) team assesses risk levels of each sub-function on a rolling annual basis.
Baseline:	As of July 2018, the risk assessment score is 4.
Target:	Aggregate assessed risk score of operating model (TOM) of 5 or less.

The remaining assessed sub-functions yielded no change in risk levels. Updated performance data will be available in August 2020.

Status:	Pending Refresh (in August 2020)

The checklist is a self-certification that our agency developed and is maintaining our BCPs and must be signed by the CEO.

One of the most important components of Business Continuity for CalPERS is the Enterprise Plan, which contains the Pandemic Preparedness, Response, and Recovery Plan (Pandemic Plan) appendix. This plan was activated in February of 2020 in response to COVID-19. By following the recommendations in the Pandemic Plan, appropriate measures were taken to protect team members and ensure continuity of business. Some of the key steps taken in conjunction with Human Resources, Public Affairs, and Health were: establishing a COVID-19 daily workgroup; educating team members on proper handwashing protocol and hygiene; distributing hand sanitizer and disinfectant wipes to divisions; increasing sanitizing of high-touch areas; and implementing social distancing. In partnership with the Information Technology Services Branch, team members whose processes can be performed offsite were provided remote access. The pandemic is an evolving situation and we are continuing to monitor.
