INTRODUCTION

When You Change Retirement Systems

This publication provides information on the rights and benefits afforded to eligible CalPERS members in conjunction with certain other public retirement systems in California.

Please note that CalPERS’ authority extends only to applying and implementing the California Public Employees’ Retirement Law; it does not extend to laws and regulations under which other public retirement systems are administered.

Questions relating to rights, benefits, and obligations under any of the other public retirement systems should be addressed directly to the appropriate system.

Reciprocity is a complex subject. If you have questions while reading this publication, please call the CalPERS Customer Contact Center toll free at 888 CalPERS (or 888-225-7377).

Reciprocity

As a member of the California Public Employees’ Retirement System (CalPERS), you may be eligible for the benefits of reciprocity. Reciprocity is an agreement among public retirement systems to allow members to move from one public employer to another public employer within a specific time limit without losing some valuable retirement and related benefit rights.

There is no transfer of funds or service credit between retirement systems when you establish reciprocity. You become a member of both systems and are subject to the membership and benefit obligations and rights of each system (for example, minimum retirement age may vary between systems), except as modified by the reciprocity agreement. You must apply to retire from each system separately, and you will receive separate retirement allowances from each system. You must retire on the same date from each public retirement system participating in a reciprocal agreement for all benefits of reciprocity to apply.

If you are establishing reciprocity by redepositing formerly withdrawn CalPERS contributions, your retirement date can be no earlier than the day following CalPERS’ receipt of your election to purchase this service.

This publication explains benefits arising from movement from CalPERS to a reciprocal retirement system. It also includes a list of reciprocal agencies including the public retirement systems that have established reciprocity with CalPERS by contract. Note: Even if you do not qualify for the full benefits of reciprocity, certain benefits may still be available to you from CalPERS.

In addition, although there is no reciprocity established between CalPERS and the State Teachers’ Retirement System (CalSTRS), the Judges’ Retirement System (JRS), the Judges’ Retirement System II (JRS II), or the Legislators’ Retirement System (LRS), an agreement with those systems provides similar benefits.

Public Employees’ Pension Reform Act of 2013 (PEPRA)
As a result of PEPRA, effective January 1, 2013, CalPERS will take into account prior service at a reciprocal retirement system (or system that has similar agreements with CalPERS, such as CalSTRS) when determining your benefit formula when you enter membership with a CalPERS employer. Refer to your member benefit publication for more information on new member benefit formulas mandated by PEPRA.

Important
Please note that if you are a member of the State Teachers’ Retirement System (CalSTRS), Judges’ Retirement System (JRS), Judges’ Retirement System II (JRS II), or Legislators’ Retirement System (LRS), there is no reciprocity between these systems and CalPERS. However, an agreement with these systems provides similar benefits.

* These entities are now CalPERS-covered employers. If you earned service credit in these systems prior to their CalPERS contract, you may be eligible for reciprocity for that earlier service credit.
RECIPROCITY REQUIREMENTS

When changing retirement systems, you must satisfy several statutory conditions, as follows, in order to receive the full benefits of reciprocity:

Maintain Membership
You must continue membership in the first retirement system by leaving your service credit and contributions (if any) on deposit.

Movement to a New Reciprocal System
You must enter employment that results in membership in the new system within six months of leaving CalPERS-covered employment. (Eligibility for reciprocity is determined by the retirement laws in effect at the time of movement between employers and retirement systems. Since July 1, 1976, retirement law has required movement within six months.)

No Overlapping Service
You must discontinue your employment relationship from the first system before entering employment or membership with the subsequent system.

Concurrent Retirement Between Reciprocal Systems
In order to receive full reciprocal benefits, you must retire on the same date from both or all systems by submitting a retirement application in accordance with the rules and regulations associated with each system.

Exceptions and Restrictions
Certain exceptions and restrictions may exist. Please read this entire publication to determine what exceptions and/or restrictions may apply to you.

Important Restrictions

Concurrent Employment
Reciprocity does not apply when your employment under the first retirement system overlaps your employment under the new system. For the benefits of reciprocity to apply, you must be separated under the first system prior to joining the new system. This may be true even if the overlapping time is due to running out leave credits or where reciprocity is established with the new system and, while still employed with that system, you return to any CalPERS-covered employment. You should check with your current system and new system about their rules before you change employment. If you are concurrently employed with a reciprocal system, we will use your highest rate of pay under CalPERS when computing your retirement allowance.

Refund Restriction
Some retirement systems may not allow you to withdraw your member contributions while you are employed in a position covered by a reciprocal retirement system or CalSTRS, JRS, JRS II, LRS, or UCRP. (See “Benefits for Non-Qualifying Individuals,” page 6.)
State Employees—Alternate Retirement Program
State miscellaneous or industrial employees hired for the first time on or after August 11, 2004, through June 30, 2013, are placed in the Alternate Retirement Program (ARP) administered by the Savings Plus Program in the California Department of Human Resources. You are excluded from ARP if you were a member of a CalPERS reciprocal retirement system within six months prior to establishing membership with CalPERS; or you were a member of the Judges’ Retirement System, Judges’ Retirement System II, Legislators’ Retirement System, California State Teachers’ Retirement System, or the University of California Retirement Plan.

Reinstatement From Retirement

If in the future you reinstate to active employment in a CalPERS-covered position and have retired under reciprocity, there is no provision in the law to allow you to apply reciprocal rights to your subsequent retirement since you will no longer be retired from both systems on the same date.

RECIPROCITY BENEFITS AND REQUIREMENTS

The following benefits and requirements apply to CalPERS members who make a qualified move between reciprocal retirement systems.

Member Contribution Rate Based on Age at Entry
Retirement formulas for CalPERS miscellaneous members and most safety members are based on a fixed rate of contribution and are not affected by age at entry. However, other systems may use age at entry for their contribution rate. Check with the appropriate system for information.

Highest Final Compensation
CalPERS uses the highest average annual compensation during any 12- or 36-month period of employment with any system as long as you retire on the same date. If you are a local member of CalPERS first elected or appointed to a city council or county board of supervisors on or after July 1, 1994, your final compensation is based on the highest annual average compensation earnable during the period of state service in each elective or appointed office. Other system salaries cannot be used.

Qualification for Benefits
Service earned under both systems may be used to meet each system’s vesting and retirement eligibility requirements.
Disability Retirement
If you are eligible for disability retirement from your other system (or disability income from the University of California Retirement Plan), you may be entitled to CalPERS disability retirement benefits, if you retire from both systems on the same date. CalPERS will pay a benefit based on CalPERS service credit, subject to CalPERS law, and limited to an amount that does not exceed the difference between what you are going to receive from the other system and what you would receive if all your CalPERS service were also credited with that system. (If this calculation does not increase your allowance, we will pay an annuity that is the actuarial equivalent of your CalPERS contributions.)

If you retire from your other system because of a work-related disability, CalPERS will pay an annuity that is the actuarial equivalent of your CalPERS contributions. If you meet the CalPERS minimum age requirements, you may find it to your advantage to take service retirement from CalPERS and still take disability retirement from your other system. Please contact your other public retirement system regarding the impact a service retirement may have on your disability retirement benefits.

Pre-Retirement Death Benefits
If you die prior to retiring while you are employed as a member of another system, a lump-sum Basic Death Benefit consisting of a return of your CalPERS retirement contributions will be payable to your beneficiary. An additional lump-sum “employer’s share” may be payable. However, the total paid by both systems cannot exceed the maximum lump-sum benefit allowable if all service had been under the other system. If you were a safety member of CalPERS and your death is job-related, the monthly Special Death Benefit allowance may be payable to a qualifying survivor. In all other situations a monthly pre-retirement death benefit is not available. See the important sidebar note on this page for more information.

Benefits for Non-Qualifying Individuals
Even if you do not qualify for full reciprocity by meeting the reciprocity requirements described on page 4, CalPERS offers you redeposit rights, vesting, and University of California Retirement Plan Final Compensation.

Other Benefits
If your employer established a reciprocal agreement with CalPERS after you changed membership, and if you would have been eligible for reciprocity had an agreement been in effect at the time of your membership change, your retirement allowance will be based on the highest final compensation under either system as long as you retire on the same date under both systems.

Exception
If you retire on a service retirement from another reciprocal system before you have met the CalPERS minimum retirement age, you can later retire under CalPERS effective on the date you become eligible. We will still use your highest rate of pay under any of the reciprocal systems. This provision does not apply to the non-reciprocal systems listed on page 8.

Important
If you die after reaching age 50 or 52 (depending on your benefit formula) while you’re employed as a member of another system, there is no monthly pre-retirement death benefit allowance payable to your surviving spouse or registered domestic partner as there is for CalPERS members who are working for a CalPERS-covered employer at the time of death. Therefore, if you become ill and wish to leave a monthly death benefit to anyone, you must retire from CalPERS and choose an option that provides a post-retirement monthly death benefit. In this situation, it is advisable to retire from both systems concurrently.
Example: You separate from employment as a member of CalPERS on January 1, 2001. You become a member of another retirement system within six months of leaving CalPERS employment. Later, that system signs a reciprocal contract effective July 1, 2002. CalPERS will use your highest final compensation from the other retirement system, because you would have been eligible for reciprocity had the new reciprocal contract been in place when you separated in 2001.

Redeposit Rights
If you withdrew your CalPERS contributions and interest and later joined a reciprocal retirement system, you can re-establish CalPERS service credit and membership by making a redeposit. If you are establishing reciprocity by redepositing formerly withdrawn CalPERS contributions, your retirement date can be no earlier than the day following CalPERS’ receipt of your election to purchase this service.

Refund Restriction
You may not withdraw your CalPERS contributions:
• Once you have entered employment covered by the University of California Retirement Plan; or
• If within six months of leaving state service, you entered employment covered by a system under the County Employees’ Retirement Law of 1937; or
• You are covered by certain other public agency retirement systems.

A refund is only allowed upon proof that you terminated membership with the other retirement system and withdrew your reciprocal system funds or retired.

Vesting
If you are a CalPERS member who is also a member of a reciprocal retirement system, you are eligible to retire from CalPERS without meeting the CalPERS minimum service credit requirement (but you must still meet the minimum age requirement).

University of California Retirement Plan Final Compensation
The highest average annual compensation during any 12- or 36-month period of employment with both the University of California and CalPERS will be compared, and the higher of either system will be used for determining final compensation as long as you retire from both systems on the same date.
NON-RECIPROCAL PUBLIC RETIREMENT SYSTEM
BENEFITS AND REQUIREMENTS

There is no formal reciprocity agreement established between CalPERS and the following systems:
• State Teachers’ Retirement System (CalSTRS)
• Legislators’ Retirement System (LRS)
• Judges’ Retirement System (JRS)
• Judges’ Retirement System II (JRS II)

Note: There is no time requirement for you to enter membership with the above systems. The following benefits and requirements apply to CalPERS members who enter membership with these systems and retire on the same date under both systems.

Final Compensation
CalPERS uses the highest average annual compensation during any 12- or 36-month period of employment with CalSTRS, JRS, JRS II, LRS, or CalPERS, as long as you retire on the same date under both systems. If you are a local member of CalPERS first elected or appointed to a city council or county board of supervisors on or after July 1, 1994, your final compensation is based on the highest annual average compensation earnable during the period of state service in each elective or appointed office. Other system salaries cannot be used.

Redeposit Rights
If you withdrew your CalPERS contributions and interest prior to your employment with (and membership in) CalSTRS, JRS, JRS II, or LRS, you have the right to redeposit your CalPERS contributions in order to re-establish CalPERS service credit and membership. If you are establishing reciprocity by redepositing formerly withdrawn CalPERS contributions, your retirement date can be no earlier than the day following CalPERS’ receipt of your election to purchase this service.

Refund Restriction
You may not withdraw your CalPERS contributions once you have entered employment with CalSTRS, JRS, JRS II, or LRS. A refund is only allowed upon proof that you terminated membership with the other retirement system and withdrew your reciprocal system funds or retired.

Vesting
A CalPERS member who is a member of CalSTRS, JRS, JRS II, or LRS is eligible to retire from CalPERS without meeting the CalPERS minimum service credit requirement (but must still meet the minimum age requirement).

Disability Retirement
There is no provision for CalPERS disability retirement when you are eligible for a disability benefit from CalSTRS, JRS, JRS II, or LRS. For the provisions of final compensation to apply, you must take a CalPERS service retirement on the same date you take a disability retirement from the other system.
If you will be receiving a disability allowance from CalSTRS, you can take a service retirement from CalPERS at the same time (if you meet the minimum retirement age) or at age 60, when the disability allowance under CalSTRS is changed to a service retirement. Either way, you are considered to have retired on the same date under both systems, and CalPERS will compute your final compensation based on your highest rate of pay under either system.

Pre-Retirement Death Benefits
If you die prior to retiring while you are employed as a member of another system, a lump-sum Basic Death Benefit consisting of a return of your CalPERS retirement contributions will be payable to your beneficiary. An additional lump-sum “employer’s share” may be payable. However, the total paid by both systems cannot exceed the maximum lump-sum benefit allowable if all service had been under the other system. If you were a safety member of CalPERS and your death is job-related, the monthly Special Death Benefit allowance may be payable to a qualifying survivor. In all other situations a monthly pre-retirement death benefit is not available. See the important sidebar note on this page for more information.

Therefore, if you become ill and wish to leave a monthly death benefit to anyone, you must retire from CalPERS and choose an option that provides a post-retirement monthly death benefit.
