

EMPLOYER NEWS

December 2021

Get the Facts in Our Health Benefits Program Annual Report

Review available health benefits for your employees.

Our recently released report for 2020 can help you and your employees learn about available benefits and provide details about the CalPERS Health Benefits Program, such as our:

- Strategic direction and policy initiatives
- Enrollment and expenses for Basic and Medicare plans
- State and federal benefit requirements and health benefit design changes
- Member health plan survey results related to satisfaction, quality, and accessibility
- Medical trends by service category

The report is a valuable tool for stakeholders and employers, and shows how we fulfill our commitment to members.

New Health Enrollment Features for State Employees

Self-service options available through myCalPERS.

With a qualifying event, state active employees already enrolled in health benefits can make health enrollment changes online through [myCalPERS](#).

This currently excludes non-central state agencies not paid directly by the State Controller's Office, California State Universities (CSU), public agencies, and schools.

This functionality will improve customer service and create efficiencies in the health enrollment process for your employees and human resources department.

Coming Soon

Beginning June 2022, all active employees—including public agencies, schools, state, and non-central state agencies—will be able to submit new enrollments and health enrollment changes online via myCalPERS. This includes during Open Enrollment 2022. CSU members will remain excluded.
