Student Guide

**September 26, 2020**

# Introduction

This student guide is a resource to assist you with viewing and reconciling your agency’s monthly health premium statement.

## Disclaimer

As a security safeguard, business partner and participant information has been masked within the figures in this procedure guide.

## Training Opportunities

Prior to taking a myCalPERS system training instructor-led class, new users should review the [Introduction to myCalPERS for Business Partners \(PDF\)](#) guide and have attended a **Health Business Rules training class**.

## Business Rules

This student guide contains no health business rules. Attend a health business rules training class or review business rules online classes for the simplified explanation of laws defined by the California Public Employees’ Retirement Law (PERL).

## Setting Up and Making Online Payments

Refer to the [myCalPERS Electronic Funds Transfer \(PDF\)](#) student guide for details about the online payment process.

## Payment Amount

Always pay as billed. Regardless if you have recently made health benefits updates that changed the premium(s), pay as billed to avoid assessed interest. Then on a future receivable, verify the charges or credits.

## Unit 1: Health Receivable

In this unit, you will learn how to view your agency's monthly health receivable(s).

**Note:** Non-central state agencies have a different billing/payment process and statement and payment due dates than public agencies and schools.

### Health Premium Statement

Your health receivable is your CalPERS bill for your portion of the health premiums and administrative fees. CalPERS bills your agency and you are notified with a monthly Health Premium Statement. After the statement is generated, you will be able to view your agency's health receivable and your billing roster within myCalPERS.

### Contact Types

You will receive one Health Premium Statement per health resolution (PERS and Non-PERS). The primary **Health PA Billing – PERS** and **Health PA Billing – Non-PERS** contact types will receive the monthly Health Premium Statements. If there isn't a primary billing contact for your agency, then it will be sent to your primary **General** contact. To view the statement in myCalPERS, select the **Document History** link within the Common Tasks folder.

### Billing Notification Preference

- If you choose not to receive a hard copy and prefer to view your Health Premium Statement in myCalPERS, select **Email** as your preferred communication method.
- To receive your statement by mail, select **Mail** as your preferred communication method.

### Annual Health Billing Cutoff Dates and Payment Information Circular Letter

This Circular Letter is posted online to notify health-contracting public agencies and schools of the billing cutoff dates and how payments are applied. An attachment of the chart is included.

Partial sample of the 2020 Health Billing Cutoff Dates chart:

Coverage Month	STRS Employees and Annuitants	PERS and OTHER (Non-PERS) Employees and Annuitants	Statement Available	Payment Due
01/2020	12/03/2019	12/11/2019	12/17/2019	01/10/2020

### Payment Due Date

Health payments (pay as billed) are due on the 10<sup>th</sup> of the month. If the 10<sup>th</sup> falls on a holiday or weekend, payment is due on the last business day prior to the 10<sup>th</sup>. Payments received after the 10<sup>th</sup> are considered delinquent and subject to interest.

## Unit 2: Billing Roster

In this unit, you will learn how to view your health billing roster.

### Importance of Reconciling

After viewing how much your agency has been billed, it's important to reconcile the amount owed. Your monthly billing roster provides a list of the total number of active and retired employees enrolled in a specific plan (and party rate), the enrollees' medical groups, charges, credits, and any adjustments or retroactive activity that updated during the billing cycle. You must ensure your adjustments and updates for your agency were correctly applied.

### Some important items to ensure are correct:

- Ensure your agency isn't being billed for anyone who shouldn't be covered due to a leave of absence, permanent separation, etc.
- Enrollees are showing the correct medical group which is particularly important for your retirees
- Retirees aren't showing as active (not retired) on the roster

### Retroactive Reimbursement

CalPERS will reimburse premiums up to six months for retroactive changes due to Cancel Coverage (excluding death) and Delete Dependent transactions.

## Unit 4: Reports

myCalPERS generates reports using IBM Cognos software. Cognos queries your agency's data in myCalPERS and generates reports in multiple formats using the criteria that you choose.

For information on how to navigate through Cognos and learn its functionality, review the [myCalPERS Employer Reports \(Cognos\) \(PDF\)](#) student guide on the CalPERS website.

### Health Subscriber PA Billing Report

For public agencies and schools, this reflects the monthly ongoing premiums (or charges) and retroactive adjustments per active and retired participants by subscriber CalPERS IDs. After a completed billing cycle, this report can be generated and used to reconcile your health statement. You can run the report by one of these criteria:

- an individual subscriber (enter their CalPERS ID)
- one or all statement-generated months (the statement month is for the next month's coverage). You must select the **Reprompt** button after the Business Partner CalPERS ID field to display the statement months.
- coverage months (one or more)

### Employer Health Event Transaction Report

This report lists the health transactions for active and retired participants. Run this report by using either of these criteria but not both at the same time:

- Event Create Date Range: Enter the dates of when transactions were updated to the system.
- Effective Date Range: Enter the effective dates of the transactions you want to view. To view 26-year-old dependent deletions, the 26-year-old delete monthly **batch runs in the first three business days of the month** to be effective the following month. Run the report after the first three business days to allow for the monthly batch to complete.

### Employer Health Event Notification Report

This lists the health transactions for active and retired participants that were updated as of the processing dates provided. This only has posting date range criteria.

## Frequently Asked Questions

### 1. Why are we receiving two billing statements?

Statements are separated by health contract for PERS (includes STRS) and for Non-PERS.

### 2. Why isn't our health statement going to the correct person?

Your agency's system access administrator (SAA) needs to add that person as a *primary* Health PA Billing – PERS and/or Health PA Billing – Non-PERS contact. There can only be one primary (person who receives the notifications for that contact type) per agency. If there is no primary Health PA Billing contact, it will go to your agency's primary General contact.

**Contact Type:** \* Health PA Billing - PERS  
**Deactivation Date:**   
**Programs Supported:**  
 CalPERS  
 Health - Medical  
 Social Security  
**Entity:**  **CalPERS ID:** 0123456789  
Contact Name: Jane Doe  
 **Other:**   
 Allow System Access  
 Make Contact Viewable to Other Organizations  
 Primary Contact

### 3. Does that mean we can't have a back-up person to receive the mailed billing statement or the email notification?

Correct. If you are not the primary contact, you may still view the health statement. First, review the [Health Billing Cutoff Chart](#) to see if the statement has generated. You may want to add these dates to your calendar. Then when the statement is available, go to your agency's **Document History** left-side link in myCalPERS.

### 4. I receive the health statement by mail. How can I get it emailed (or vice versa)?

Your agency's system access administrator (SAA) can change your preferred communication. This reflects how you want to receive notifications from CalPERS.

**Maintain Preferred Communication Details**  
**Preferred Communication:**   
Mail  
Email

### 5. Is it true that we won't receive a corrected statement that reflects our adjustments?

Correct. Any adjustments made will reflect on a future billing statement. Always pay in full as billed unless the amount is different in myCalPERS (See #6).

**6. My billing amount on the health statement I received is different than the amount in myCalPERS. Which amount do I pay?**

Pay the amount reflected on your online receivable. It doesn't happen often, but the amounts can be different when there are interest-reversal (or other) adjustments after the statement is generated. Call CalPERS if you want to discuss in detail.

**7. Why weren't we billed for a new health enrollment that I processed?**

If the enrollment was entered after the billing cutoff date, your agency will be billed for them next month. See the [myCalPERS Health Enrollment](#) student guide, Unit 1, Scenario 2, Steps 7-8 on how to view the created date (processed date) in the transaction details.

**8. I processed a retroactive permanent separation for an employee effective two months ago. Why are we still being billed for them?**

Depending on when the appointment was updated, two courses of action are:

- Verify in myCalPERS that the employee's health benefits have been cancelled. If the permanent separation was updated *after* billing cutoff, then you should get reimbursed on your next statement. Or,
- If you verified the health benefits was cancelled and the permanent separation was updated *before* billing cutoff, contact CalPERS.

**Note:** Always pay in full as billed unless the amount is different in myCalPERS (See #6).

**9. How do I fix a retiree's incorrect medical group and employer contribution?**

Call CalPERS. Your employer contribution will be corrected on a future statement.

**10. We send a separate reimbursement to our retirees for their health benefits. How do we verify their addresses?**

If you have the Retirement Enrollment access role, you can run the **Benefit Recipient by Employer Report** to view the addresses for your CalPERS retirees and survivors.

**11. Is there any training on billing reconciliation?**

Yes. Refer to these training options:

- [Online Classes for Employers](#) has modules on health billing business rules and how to view a health statement and billing roster in myCalPERS.
- myCalPERS Employer Education & Training Unit (MEETU) is available for training. Email [CalPERS\\_Employer\\_Communications@CalPERS.CA.GOV](mailto:CalPERS_Employer_Communications@CalPERS.CA.GOV) and an educator will contact you.
