Effective Date

November 16, 2015
This Policy is effective immediately upon adoption and supersedes all previous Inflation Assets policies, including Commodities and Inflation-Linked Bonds.

Introduction

The California Public Employees’ Retirement System (CalPERS) Total Fund Investment Policy, adopted by the CalPERS Investment Committee (Committee), sets forth the CalPERS investment beliefs and overarching investment purposes and objectives with respect to its investment programs. The CalPERS Total Fund Investment Policy specifically covers key areas of investment strategy, including performance objectives, asset allocation strategies, benchmark selection, investment risk management, and derivatives, leverage, and divestment policies, among other elements that are applicable to all asset classes and programs at CalPERS.

This document sets forth the investment policy (Policy) for the Inflation Assets Program (Program). The design of this Policy ensures that staff, investors, managers, consultants, and other participants selected by CalPERS take prudent and careful action while managing the Program. Additionally, use of this Policy assures sufficient flexibility in managing investment risks and returns associated with this Program.

This Policy should be read in conjunction with and is subject to conditions contained within the CalPERS Total Fund Investment Policy. This Policy shall also be managed to comply with all applicable Investment Office policies.

Strategic Objective

The Program includes two components: commodities and inflation-linked bonds (ILB).

The Program seeks long-term returns above inflation, to diversify CalPERS investments, and to hedge against inflation risks.

Responsibilities

Details regarding various levels of responsibility for this Program are provided in Appendix 1, Reporting to the Investment Committee, and Appendix 2, Investment Responsibilities.
### Investment Approaches & Parameters

All investment programs shall have specific written guidelines. The guidelines shall outline the investment approaches, permissible and restricted activities, and a performance objective that is commensurate with the program’s purpose.

Staff shall rely on short- or long-term ratings from authorized nationally recognized statistical rating organizations (NRSROs) only. Staff shall maintain and annually update internal ratings for securities that are not rated by any authorized NRSROs.

### Investment Constraints/Limitations

See Appendix 3 for program investment constraints.

### Glossary of CalPERS Specific Terms

*Italicized* terms appearing in the Policy are CalPERS specific in nature and are defined in the CalPERS Specific Glossary of Terms.

### Policy Document History

See Appendix 4 for historical details of Investment Committee adoption and revisions of this Policy.
See the Total Fund Investment Policy appendices for overarching reporting requirements and responsibilities for the Investment Committee, staff, General Pension Consultant, Private Asset Class Board Investment Consultant, and External Manager.
