

## Proposed Changes in Employee Contribution Rates for State Employees

**NOTE:** Exempt employees, such as managers and appointees outside civil service, are subject to the same contribution rate increases as their associated rank and file members shown in the table below.

All State Tier II Retirement Members (regardless of bargaining unit) ** AB 340 requires the State Tier II employee contribution rate to be increased 1.5% per year until these employees are paying 50% of normal cost.
