

# RSA Archer eGRC Solutions

## Audit Management

Centrally manage the planning, prioritization, staffing, procedures and reporting of audits to increase collaboration and efficiency.

## Policy Management ✓

Centrally manage policies, map them to objectives and guidelines, and promote awareness to support a culture of corporate governance.

## Business Continuity Management ✓

Automate your approach to business continuity and disaster recovery planning, and enable rapid, effective crisis management in one solution.

## Risk Management ✓

Identify risks to your business, evaluate them through online assessments and metrics, and respond with remediation or acceptance.

## Threat Management

Track threats through a centralized early warning system to help prevent attacks before they affect your enterprise.

## Compliance Management ✓

Document your control framework, assess design and operational effectiveness, and respond to policy and regulatory compliance issues.

## Vendor Management

Centralize vendor data, manage relationships, assess vendor risk, and ensure compliance with your policies and controls.

## Enterprise Management ✓

Manage relationships and dependencies within your enterprise hierarchy and infrastructure to support GRC initiatives.

## Incident Management ✓

Report incidents and ethics violations, manage their escalation, track investigations and analyze resolutions.
