

# Innovations in Healthcare: Value-Based Insurance Design

---

**Presenter Bio**    **A. Mark Fendrick, M.D., Professor, University of Michigan**

---

A. Mark Fendrick, M.D. is a professor of Internal Medicine in the School of Medicine and a professor of Health Management and Policy in the School of Public Health at the University of Michigan.

Mark conceptualized and coined the term *Value-Based Insurance Design* (V-BID) and currently directs the V-BID Center at the University of Michigan, the leading advocate for development, implementation, and evaluation of innovative health benefit plans. His research focuses on how clinician payment and consumer engagement initiatives impact access to care, quality of care, and health care costs. He has authored over 250 articles and book chapters and has received numerous awards for the creation and implementation of value-based insurance design. His perspective and understanding of clinical and economic issues have fostered collaborations with numerous government agencies, health plans, professional societies, and health care companies.

Mark is an elected member of the National Academy of Medicine (formerly IOM), serves on the Medicare Coverage Advisory Committee, and has been invited to present testimony before the U.S. Senate Committee on Health, Education, Labor and Pensions, the U.S. House of Representatives Ways and Means Subcommittee on Health, and the U.S. Senate Committee on Armed Services Subcommittee on Personnel.

Mark is the co-editor in chief of the *American Journal of Managed Care* and is an editorial board member for 3 additional peer-reviewed publications. He is also a member of the Institute for Healthcare Policy and Innovation at the University of Michigan, where he remains clinically active in the practice of general internal medicine.

Mark received a bachelor's degree in economics and chemistry from the University of Pennsylvania and his medical degree from Harvard Medical School. He completed his residency in internal medicine at the University of Pennsylvania where he was a fellow in the Robert Wood Johnson Foundation Clinical Scholars Program.
