

Enterprise Performance Reporting

Summary of Discussion Sabrina Hutchins, Chief, Enterprise Strategy and Performance Division and Michael Younger, Enterprise Strategy and Performance Division will facilitate a dialogue and lead the Board and Executives through a session that focuses on the new Enterprise Performance Reporting (EPR) system. The EPR system provides a comprehensive view of performance measures that demonstrate the organization's overall health related to both strategy and operations.

This session will further engage the Board and Executive team in the following areas:

- Strategic Measures – targets, baselines, and thresholds
- Business Plan Initiatives
- Methodology for Key Performance Indicators

This new EPR system will assist the Board and the Executive team with decision making and resource planning.

The materials for this session includes:

- PowerPoint Presentation
- Background Information
