Measure Status:
☒ What is the actual metric(s) being reported?
 The actual number being reported is the average of team members (62%) that agree on CalPERS fostering a work environment that values their individual experiences and contributions as well as educates employees and the public on our differences being our strengths. This number is based on an average of three specific DEI questions from the 2016 DEI survey.

☒ Is this metric considered good or bad?
 This metric is considered a good opportunity to begin implementing expansion efforts to bring more awareness to DEI within the organization as well as with our business partners, members, and future team members.

☒ What actions are being taken to improve this metric?
 In the 2016/2017 Business Planning Cycle, CDDP developed an Enterprise Strategy for DEI expansion with the assistance of a newly developed DEI Advisory Committee.
