

Strategic Alignment Across California's Three Large State Purchasers: What are the Opportunities

Peter V. Lee, Executive Director, Covered California

Peter V. Lee, is the Executive Director of Covered California, overseeing all aspects of the largest state-run individual marketplace in the nation since its inception in 2011. Under his leadership, Covered California has created a competitive marketplace that has held premium increases in check, expanded coverage, given consumers tools to make better choices and created a platform to address health care cost and quality.

Before joining the Covered California, Mr. Lee served in the Obama Administration at the Centers for Medicare and Medicaid Services, where he helped establish the Center for Medicare and Medicaid Innovation (CMMI), testing new payment and delivery system reforms to promote that delivery of higher quality, more affordable health care. Prior to that role, he was the Director of Delivery System Reform for the Office of Health Reform for Health and Human Services, where he coordinated delivery reform efforts for Secretary Sebelius including coordinating the preparation of the National Quality Strategy.

Earlier in his career, he was CEO of the Pacific Business Group on Health, assisting large employers with purchasing and policy initiatives. He also spent time as Executive Director of the Center for Health Care Rights, a Los Angeles-based consumer advocacy organization, an attorney in private practice, and Director of Programs for the Washington-based National AIDS Network.

Lee received his law degree from the University of Southern California and his undergraduate degree from the University of California at Berkeley.
