

Sustainable Investing: Developing an Impact Toolkit for Private Markets

Yup Kim, Head of Investments
Private Equity

Discussion Summary

This panel will explore the integration of ESG factors into private equity with a specific focus on two emerging toolkits: the development of standardized ESG metrics and the implementation of employee ownership models. Some of the key questions the panel will aim to address include:

- How can private equity take a leadership role in driving sustainability transformations?
- What are some of the current challenges for private asset classes to fully integrate ESG?
- How do ESG factors drive enhanced returns in private markets?

Megan Starr
Global Head of Impact, Carlyle
