Introduction

The California Public Employees' Retirement System (CalPERS) Board of Administration Statement of Investment Policy, adopted by the CalPERS Investment Committee (Committee), sets forth CalPERS' overarching investment beliefs, purposes, and objectives with respect to all its investment programs.

This document sets forth the investment policy (Policy) for the Public Employees' Health Care Fund (Fund). The design of this Policy ensures that investors, managers, consultants, and other participants selected by CalPERS take prudent and careful action while managing the Fund. Additionally, use of this Policy assures sufficient flexibility in managing investment risks and returns associated with the Fund.

The Fund was established to fund the self-funded health benefit plans administered by CalPERS that rely upon cash flows from premiums and investment income to fund health benefit payments.

This Policy should be read in conjunction with and is subject to applicable conditions contained within the CalPERS Board of Administration Statement of Investment Policy. This Policy shall also be managed to comply with all applicable Investment Office policies.
