Executive Summary

As part of the annual budget process, CalPERS proposes an increase of \$52.3 million, or 5.9%, over the 2025-26 operating costs budget to support strategic priorities, core business needs, and its mission of delivering retirement and health care benefits, while also proposing an increase of \$423.7 million, or 20.2%, over the 2025-26 total fees estimate, which is subject to change based on factors such as market and enrollment data fluctuations.

Administrative Operating Cost increases reflect updated budgeting methodology, growth in the incentive budget for the eligible population, new enterprise software and consulting services, hardware refresh, and increased Pro Rata costs, with total authorized positions remaining unchanged at 2,843.

Investment Operating Cost increases are driven by the Investment Data and Technology Modernization Initiative. Headquarters Building Cost decreases are mainly due to the removal of funding for the interior LED lighting replacement project.

2026-27 Total Operating Budget

(\$ in thousands)	2024-25 Actual	2025-26 Authorized Budget	2026-27 Proposed Budget	\$ Change	% Change
Administrative Operating Costs	\$551,594	\$648,463	\$678,900	\$30,438	4.7%
Investment Operating Costs	119,834	186,417	224,547	38,130	20.5%

Total Positions	2,843.0	2,843.0	2,843.0	-	0.0%

Investment External Management Fee estimates are driven by continued allocation to private asset classes and increased active management, while Third Party Administrator (TPA) Fee estimates reflect administrative costs associated with new Pharmacy Benefit Manager (PBM), CVS Caremark (CVS). Although PBM administrative costs increase slightly, overall pharmacy related savings will increase significantly.

2026-27 Total Fees

2025-26 Current Year Update

As of December 31, 2025, CalPERS has expended 37.2% of its \$881.97 million authorized operating budget and projects ending the year with approximately \$34.5 million, or 3.9%, in unexpended funds, while it has expended 39.8% of its total \$2.1 billion estimated fees budget and expects to end the year with expenditures exceeding the estimated amount by 1.4%.

Administrative Operating Costs is projected to have savings primarily due to position vacancies. Investment Operating Costs are estimated to be lower than anticipated due to savings in the Data and Technology Modernization Initiative, while Headquarters Building Costs will realize savings due to lower insurance costs.

2025-26 Total Operating Expenditures

(\$ in thousands)	2025-26 Authorized Budget	2025-26 Expenditures and Encumbrances thru 12-31-25	Percent Expended	Forecast	Savings

CalPERS' Budget Process

Each fiscal year, CalPERS engages in two formal budget processes: an annual budget proposal and a mid-year review. The annual proposal details the twelve-month budget for CalPERS Board of Administration approval prior to the start of the new fiscal year. In contrast, the mid-year review addresses new, critical, and unforeseen resource needs not envisioned when developing the annual proposal. At mid-year, CalPERS adjusts the budget to reflect statewide compensation and benefit increases negotiated through collective bargaining.

When developing the annual budget, CalPERS' Financial Office reviews existing budget levels for each division and program, and considers requests for additional funds to maintain, improve, or implement services, initiatives, and projects. Financial Office team members work collaboratively with each division to understand their organizational structures and business objectives as a basis for maintaining existing funding levels, and for analyzing and approving new increases. The Financial Office reviews and analyzes all budget requests to inform decisions made by senior management and executive leaders. Pursuant to the CalPERS Budget Policy, the main criteria used to prioritize budget increases include:

- Mitigating risk
- Identifying opportunities for cost efficiencies
- Aligning with the strategic plan and business plan
- Implementing CalPERS Board decisions and directives
- Complying with legal mandates

As both the annual and mid-year budgets are developed, CalPERS utilizes a position pooling process that redirects vacancies to where they are most critically needed within the organization. The objective of this process is to limit staffing and related budgetary increases, and to focus resources in the areas of highest priority.

2026-27 Proposed Operating Budget and Fees

CalPERS proposes a 2026-27 operating budget of \$934.3 million, an increase of \$52.3 million, or 5.9%, above the 2025-26 budget. The primary increases are in Investment Operating Costs and Administrative Operating Costs.

Over the past five years, CalPERS' operating expenses have increased an average of 8.4% annually. Fees have risen 15.9% each year.

I. Administrative Operating Costs

Administrative Operating Costs include Personal Services expenses (salaries and benefits for staff) and Operating Expenses & Equipment (OE&E). In 2026-27, CalPERS proposes a \$30.4 million (4.7%) increase to Administrative Operating Costs above the 2025-26 authorized budget.

CalPERS proposes a \$19 million increase to Personal Services to align position salaries and benefits more closely to their actual pay rate (\$14.2 million) and provide funding for incentives (\$4.5 million).

CalPERS proposes an \$11.4 million increase to OE&E. This increase includes Pro Rata costs (\$7.4 million) which are determined by the Department of Finance. Pro Rata costs represent CalPERS' portion of statewide administrative services as well as CalPERS' employee annuitant health care costs. Annuitant healthcare costs represent the largest share of Pro Rata costs. Also included in the OE&E increase is \$2.3 million for the Information Technology hardware refresh and new capital, and \$2.9 million for various other administrative initiatives detailed further in the pages to follow.

2026-27 Budget Requests

To develop the annual budget, the Financial Office works collaboratively with program areas to analyze existing funding levels and make informed decisions on new budget increases. In response to Budget Requests received for 2026-27, some items will require budget augmentation, while others can be funded through the redirection of anticipated budget savings.

The following Budget Requests resulted in a recommended budget increase of \$5.15 million:

- \$2.3 million for the IT hardware refresh plan and IT Capital in support of enterprise needs and the hardware refresh policy.
- \$0.2 million for enterprise software:
 - \$0.1 million for the FedRAMP compliant environment within ServiceNow to meet federal security and compliance standards.
 - \$0.02 million for an Examination and Certification Online System interface that will modernize and automate data exchange in support of CalPERS' internal recruitment.
 - \$0.08 million for a font licensing agreement for digital and cloud-based platforms.
- \$2.7 million for consulting services:
 - \$0.6 million for consulting services to provide extended support related to the Oracle Fusion Human Capital Management project.
 - \$0.2 million for a subscription to Gartner to access advisory services that will continue to support innovation in human resources.
 - \$0.9 million to modernize CalPERS' public-facing website.
 - \$1.0 million for strategic projects to provide expertise, experience, and knowledge required for health rate development and negotiations.

The following Budget Requests are proposed to be funded by redirecting \$0.5 million in anticipated savings from OE&E (based on historical expenditure trends):

- \$0.2 million for a consultant to enhance multi-factor authentication for members and employers and provide Power of Attorney access to member accounts.
- \$0.3 million for a consultant to guide the final stages of the Oracle PeopleSoft Financial Supply Chain Management project and deploy patches to maintain system stability.

Authorized Position Allocation

The total authorized position count for 2026-27 remains at 2,843, unchanged from current year.

Temporary Help: A Five-Year Overview

The Salaries and Wages budget, within Administrative Operating Costs, includes funding for temporary help, such as Seasonal Clerks, Retired Annuitants, and CalPERS Board members' employer reimbursements. In 2026-27, CalPERS proposes \$0.8 million for temporary help.

As shown below, temporary help expenses have decreased significantly over the past five years. This is due to the elimination of permanent positions in blankets, and the limitation of seasonal clerks for regular, ongoing work.

(\$ in thousands)

Overtime Budget: A Five-Year Overview

The Salaries and Wages budget includes funding for overtime expenses. CalPERS proposes an increase of \$93,000 in the overtime budget due to higher wages in 2026-27.

II. Investment Operating Costs

Investment Operating Costs budget the expenses incurred to support investment activities. This includes consultants to assist the CalPERS Board and team members with strategic guidance and expertise related to investment strategies, activities, systems, and strategic initiatives. Additional expense categories include professional services required for due diligence, asset valuation, and fund administration and custody, as well as technology expenses for data and analytic services, trading and portfolio management systems, and business operations tools.

The total proposed Investment Operating Costs for 2026-27 are \$224.5 million. This is a \$38.1 million or 20.5% increase from the 2025-26 budget.

Most of this increase is due to continued implementation of the Investment Data and Technology Modernization Initiative (\$36.4 million). The remainder of the increase is related to the maintenance and operations of existing systems and services.

III. Headquarters Building Costs

Headquarters Building Costs reflect expenses incurred to operate, maintain, and improve the Lincoln Plaza campus. It includes funding for security and maintenance of regional offices, the offsite emergency operations center, the Front Street parking lot, and warehouse space. Revenues in parking and rent offset these expenses. Total proposed Headquarters Building Costs in 2026-27 are \$36.5 million, which is a \$15.8 million or 30.2% decrease from the 2025-26 budget.

The proposed reduction in Headquarters Building Costs recognizes attrition of one-time costs for the LED lighting project currently underway. The budget for Lincoln Plaza includes an increase in funding for replacement flooring inventory, which is intended to meet projected needs over the next five to seven years. Of the \$36.5 million total Headquarters Building Costs, \$5.7 million is budgeted within the Administrative Operating Costs budget (included in Facilities Operations) and represents amounts charged to affiliate funds for their reasonable share of building costs.

IV. Investment External Management Fees

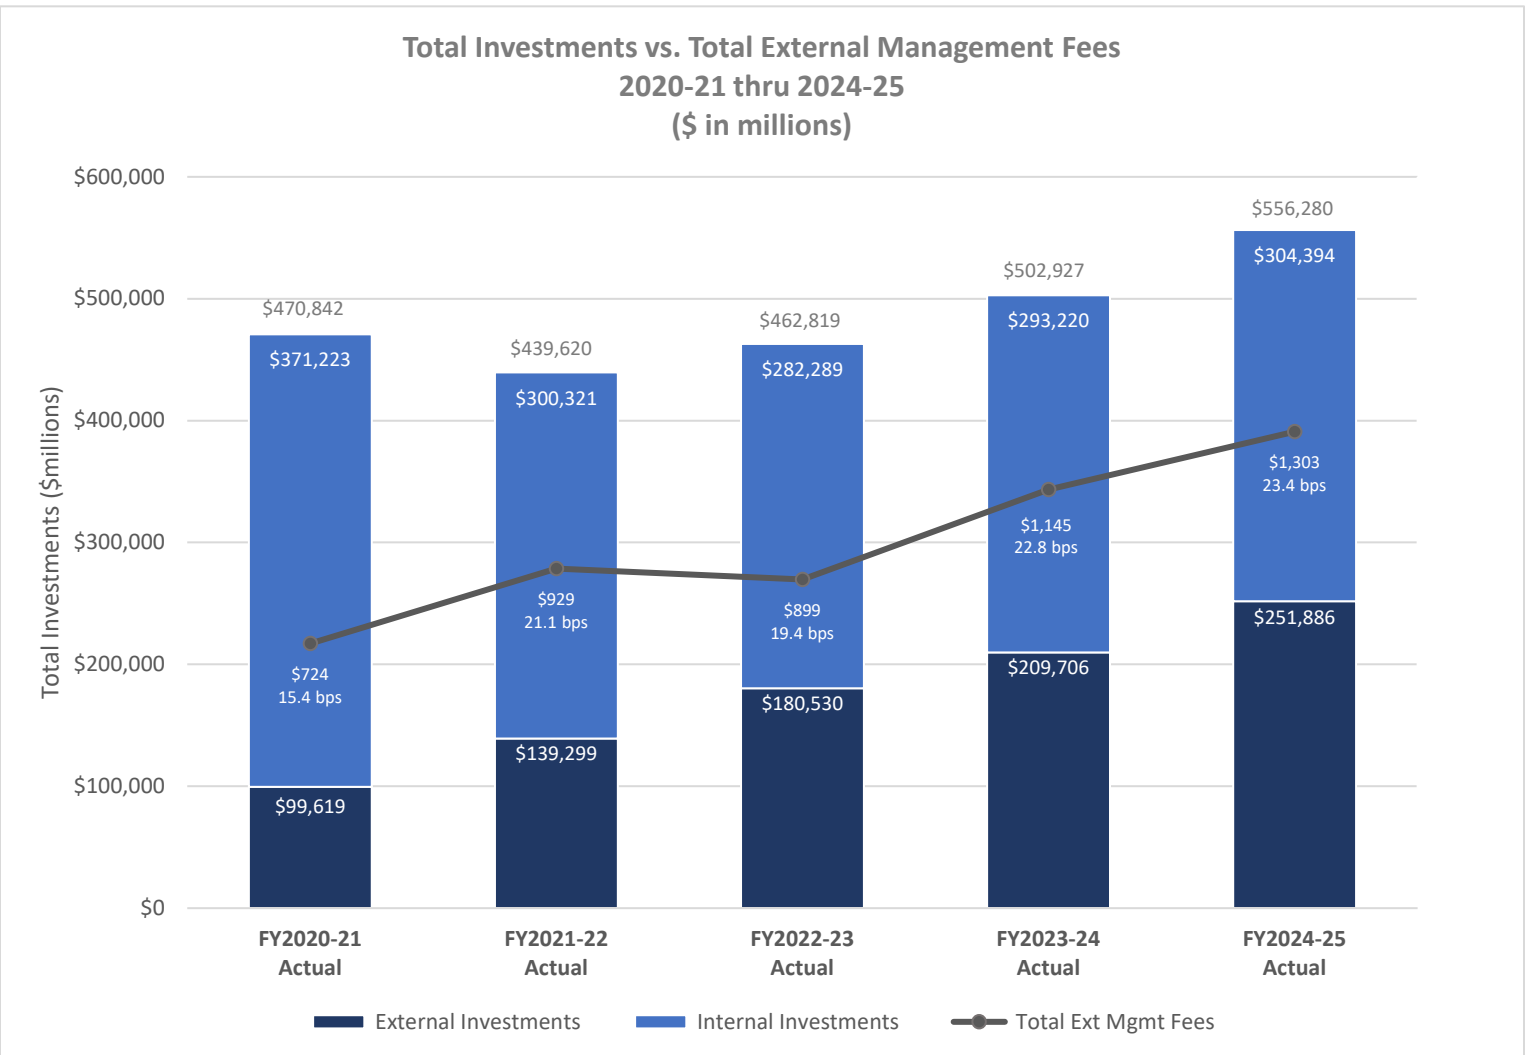

The Investment External Management Fees budget estimates the fees paid to external investment managers and advisors to manage specific portfolios. While CalPERS estimates annual Investment External Management Fees based on market assumptions and estimated deployment of capital to investment diversification strategies, actual fees paid within a fiscal year are subject to market fluctuations. Current assumptions estimate total fees in 2026-27 to be \$2.2 billion, which is a \$421 million or 23.6% increase over the 2025-26 budget.

The increase is a result of greater private asset allocation and more active management in accordance with the Board-approved investment plan for 2026-27. Much of the increase is attributable to Private Equity. CalPERS estimates a \$234.4 million increase due to anticipated new partnerships and associated capital deployments. Global Equity performance fees are estimated to increase by \$44.9 million due to a transition to performance-based external management fee structures.

Investment External Management Fees

(\$ in thousands)	2025-26 Authorized Budget	2026-27 Proposed Budget	\$ Change	% Change

Total External Management Fees	\$1,786,961	\$2,207,980	\$421,019	23.6%

As displayed below, CalPERS' total assets under management (AUM) have increased \$85.4 billion since 2020-21. Over the same time horizon, the amount of fees paid to external investment managers has increased from \$724 million to \$1.3 billion. In terms of basis points (bps), external management fees compared to total investments have increased from 15.4 bps to 23.4 bps. This increase is a result of higher allocation to private assets and greater reliance on active external management.

* Bps calc based on total AUM and expense type.

V. Third Party Administrator Fees

CalPERS contracts with Third Party Administrators to support the delivery of health and pension services with a focus on strengthening and improving long-term sustainability for members. The CalPERS Board approves Third Party contracts with terms that typically extend five years and include annual fee increases. TPAs provide administration, recordkeeping, and participant communication services for Health Benefits, Long Term Care, the Supplemental Income Plans, the California Employers' Retiree Benefit Trust Fund, and the California Employers' Pension Prefunding Trust. Current estimates for TPA Fees in 2026-27 are \$311.3 million, which is a 0.9% increase over the 2025-26 budget.

CalPERS estimates TPA fees will increase by \$9.1 million due to CVS administrative fee structures. These increases will be offset by overall pharmacy program savings. There is a reduction in Health Program TPA estimates because of enrollment and migration changes. Long Term Care Program fee estimates reflect projected enrollment declines resulting from cancellations and the continued suspension of new enrollments. All other TPA fees are expected to remain flat.

VII. Administrative Operating Costs by Trust Fund

Funds for Administrative Operating costs are appropriated annually and are available for encumbrance or expenditure for one fiscal year. The culmination of each annual and mid-year budget cycle is the distribution, or allocation, of administrative expenses to the trusts and state funds. This is done through a process designed to match expenses to the funds that receive the related benefit. While the CalPERS Board has authority to set the budget and expenses for most trusts and funds, appropriations for administrative costs from the Public Employees' Contingency Reserve Fund, Public Employees' Health Care Fund, and Old-Age & Survivors Insurance Fund are authorized by the Legislature. The following allocation establishes the expenditure authority for Administrative Operating Costs and will be provided to the State Controller's Office to effectuate the transfer and payment of funds for administrative expenses.

VIII. 2027-28 Projection

As part of the budget process, CalPERS considers and monitors the multi-year impact of fiscal decisions to estimate future operating expenses. Based on current information and known factors, CalPERS projects a future operating cost increase of \$33.5 million, or 3.6%, in 2027-28.

For Administrative Operating Costs, this is driven by statewide compensation and benefit increases negotiated through collective bargaining. The Investment Operating Costs increase is due to projected expenses related to ongoing maintenance and operations, Investment Data and Technology Modernization Initiative, and inflationary pressures. Headquarters Building Costs are expected to decline, mainly as a result of completing one-time building improvement projects. Additionally, utility expenses are anticipated to decrease following the installation of LED lighting throughout all buildings.

IX. Social Security Fee Update

On June 30, 2025, the fund's net position was \$1.1 million. For the upcoming 2026-27 fiscal year, CalPERS will lower and continue charging Old Age and Survivors' Insurance administrative fees to employers to maintain required reserves. The fees charged to establish new or modify existing Social Security agreements will remain unchanged. All fees are determined, adjusted, and collected in accordance with California Code of Regulations, Title 2, § 592.1.
