Unit 1: Set Up Electronic Funds Payment Accounts

Before making payments online, you must set up a payment account. There are two methods of electronic funds payment available:

Automated Clearing House (ACH) Method

- ACH payment method is initiated through your financial institution, not CalPERS.
- Once your bank account is setup to make ACH payments, you will use your financial institution's tools to make a payment towards your CalPERS receivables.
- Consider these fees and responsibilities when setting up an ACH method of payment:
 - Setup and transaction fees charged by your bank
 - Special hardware and software required by your bank
 - Ensure maximum funds for payments transferable by your bank will accommodate the amount of your receivables
 - Ensure authorized staff can make payments with your bank
- Contact your financial institution for detailed requirements.

Electronic Funds Transfer (EFT) Debit Method

- EFT debit method is initiated through myCalPERS.
- EFT payments are secure, convenient, and at zero cost to you.
- You can:
 - Set up and maintain an EFT debit account
 - Make, track, and cancel payments
- CalPERS does not access your bank account(s) without your authorization for each payment. Funds can only be transferred to CalPERS for the specific receivables in the amounts requested.
- Do not set up **Automatic Payments**. Receivable amounts change from month to month. If an automatic payment is selected, you will have to delete the entire EFT account and set up a new one.

Scenario 1: Set Up Automated Clearing House (ACH) Method of Payment

System Logic

- Lump sum ACH payments cannot be made for multiple receivables. Each receivable must have its own ACH payment.
- ACH lump sum payments will only be applied to one receivable ID.

Step Actions (5 steps)

Step 1 Call CalPERS at **888 CalPERS** (or **888-225-7377**) or email [CalPERS Cashiers](mailto:fcsd_cashiers@calpers.ca.gov) at **fcsd_cashiers@calpers.ca.gov** to request the ACH method payment.

CalPERS Cashiers will email these to your agency:

- ACH Method Authorization Agreement form
- ACH Method Specifications document
- ACH Payment Notification form
- CalPERS U.S. Bank Account information

Step 2 Complete the **ACH Method Authorization Agreement** form and email it to CalPERS Cashiers.

Step 3 Contact your financial institution and provide them with the CalPERS **ACH Method Specifications** document and the **CalPERS U.S. Bank Account** information.

Step 4 Set up the ACH method of payment with your financial institution.

Step 5 The first time you submit an ACH credit payment, complete the **ACH Payment Notification** form and email it to CalPERS Cashiers at **fcsd_cashiers@calpers.ca.gov**.

You have completed this scenario.

EFT debit payment method allows you to pay one or multiple receivables at one time with a future authorization date. myCalPERS will display any pending transactions and will warn you if you make a duplicate payment.

After your payment is completed, your payment status is available in myCalPERS. You may cancel the payment before the posting date.

Payment Processing Dates

- Below is a list of important dates related to the EFT debit method of payment:
 - **Payment due date:** The date a receivable is due.
 - » **Health Premiums:** Always pay as billed in full. Payment is due by the 10th of the month. If the 10th falls on a holiday or weekend, the payment is due the business day prior.
 - » **Retirement Contributions:** Payment is due within 15 days after the earned period end date.
 - **Payment authorization date:** When you authorize CalPERS to **initiate** the payment process, a future authorization date may be entered for each payment transaction. You may modify the payment information and payment account associated to any receivable up to 5:00 p.m. the day prior to the payment authorization date.
 - **Payment posting date:** When payment funds are transferred from your agency’s bank account and reflected in myCalPERS. This needs to occur before the payment due date (refer to the next bullet).
- If the EFT debit payment is processed before 5:00 p.m., it will take **two banking days** to post the payment to CalPERS and credit the receivable. If it is processed after 5:00 p.m., it will take three banking days. Banking days are Monday through Friday, even if your financial institution is open on weekends. Remember to calculate additional time for bank holidays.

Survey

After processing a payment, you may be asked to take a survey regarding your transaction.

Scenario 1: Make a Payment

System Logic

- When making a payment for multiple receivables, you can only choose one authorization date for all receivables.
- Do not set up **Automatic Payments for rate plan contribution receivables** as the amounts can change each earned period. If set up, an automatic payment will continuously pay the same amount towards the selected receivable ID, not the current receivable balance on your account. To cancel an automatic payment, you must delete the EFT account and set up a new one.

Step Actions (25 steps)

Step 1 Select the **Profile** global navigation tab.

Step 2 Select the **Receivables** local navigation link.

Step 3 Use the Display Criteria section to filter the Receivables section.

Step 4 Within the Receivables section, select all appropriate **Receivable** check boxes that you want to pay.

Receivables

1. To set up a payment for your receivable(s), select the check box(es) of the desired receivable(s) and click the Make Payment button.
2. If you are setting up a payment with a future payment authorization date, you may make modifications to the payment information and payment account associated to any receivable up to 3:00 PM PST the day prior to the payment authorization date.
Note: For interest bearing receivable types, the Receivable Balance displayed includes interest as of the date of the last payment. The payoff balance may differ based on daily interest charges since the last payment.
