Unit 1: New User Password Setup, Log In, Reset Password, and Authentication Methods

To begin using myCalPERS, your agency’s System Access Administrator (SAA) will need to add you as a contact. Contact CalPERS to set up your agency’s access if you work for a new contracting agency.

- Best practice is to use an individual work email address for security settings.
- You may set your authorization method as Authenticator, text message, phone call, or email.

Security Agreement

Safeguard your agency and employee confidential data by not revealing your username or password to anyone. CalPERS will never ask for your password. It is a violation of the CalPERS Security Agreement to share log-in information. Review CalPERS website’s [Conditions of Use](#) and [Privacy Policy](#) for additional information.

Locked Account

Your account will lock after six unsuccessful password attempts. Use one of the following options to unlock your account:

- Use the **Forgot your Password?** link in myCalPERS (scenario 2)
