Description

Here is some great food for thought from CalPERS team member Jim Cale, on the importance of thinking about how you will spend your time in retirement.

[ON SCREEN: Speaker: Jim Cale, CalPERS Member Education Unit]

My name is Lori Daniels and I'm from the member education unit here at CalPERS.

The more that you know about your benefits, the more prepared that you're going to be to retire and one of our greatest resources is our CalPERS Network YouTube channel.

This channel has information about how do you calculate your retirement about purchasing service credit.

If you have CalPERS health benefits there's information there and one of the coolest things is that you can review this information at any time even if you're at home in your pajamas.

So, what I'd recommend that you do is get on that YouTube channel and take advantage of those resources and any other resources that CalPERS offers.

So visit our YouTube channel and start learning about your benefits today.
