# Unit 1: Reconcile by Appointments

The Retirement Appointment Reconciliation (RAR) list identifies appointments with unreported payroll records for your agency.

## System Logic

- The RAR page updates on the last day of each month.
- Employees with the following appointment types will be excluded from the list:
  - Health-only appointments
  - Non-qualified appointments due to the purchase of service credit (e.g., Service Prior to Membership or Military Leave)
  - On Leave appointments:
    - » Appointments without an End Leave event will be excluded for six months
    - » Appointments with an End Leave event will be excluded for the entire leave
- Maintaining appointments within the RAR page will automatically update the list.
- Transactions completed outside the RAR page (e.g., updating the appointment within the employee's profile page) will update the list the following business day.
- To research, use the following links:
  - View Appointment History displays retirement appointment details including any appointment event dates listed. Retirement appointment information cannot be changed on this page.
  - View Transaction History displays the employee's historical payroll transactions by fiscal year. Once the fiscal year(s) are selected, more payroll history information displays.

- The day after you post the earned period payroll report is the earliest you can view only the appointments with unposted payroll for that earned period.
